Student Council Passes Resolution Disapproving Dean's Action

Disapproving Dean Moore's refusal to authorize an open Student Council meeting at which delegates to the American Student Union might give their report, the Council's final meeting of the term passed a resolution condemning this action.

Representatives to Columbus Convention Were to Report Thursday

A. S. U. PLANS GO ON Silverstein, Mifeles, Weltsman, Friend on Provisional Committee

By David Wasserman
Dean Moore last week forbade the Student Council from holding an open meeting in the Great Hall to which delegates to the recent Student Union convention at Columbus, Ohio, were to explain to the A. S. U. to the student body.

The last time I granted permission to the so-called Student Union group to have a meeting for further discussion and proposal of organization plans, Dean Moore said in a note to the Council, "I cannot definitely say that this would be the last meeting authorized until the group has been officially sanctioned by the Faculty. In view of this decision, I am now asking you to have accomplished by indirect means any accomplished by direct means.

The Student Council at its meeting last Friday unanimously passed a resolution of condemning Dean Moore's action as a violation of the college traditions of freedom of discussion and as an "unwarranted violation of the Student Council's right to hold meetings." It was explained that the proposed meeting was not one of the so-called "Student Union," but one of the Council itself.

 Plans for the creation of a local chapter of the American Student Union are being handled by a provisional committee consisting of the delegates and student leaders. The committee is Edward Weltsman of 216, Ezra Milestein, 28; Paul Silverstein, 36; and Priscilla Friend, 36.

Application cards for membership to the American Student Union are being circulated by the committee.

At a forum on the American Student Union in the Great Hall last week, Dean Morton Gotschall in a talk approved of the American Student Union.

Students Should Purge Their Ranks of Communists

THE American Student Union, which was recently brought into being at Columbus, Ohio, has absorbed into its bosom all that is poisonous in American college life and rejected almost everything that is libera! in the fundamental American sense. That is, THE DOCTRINE OF INDIVIDUAL AND AGGRESSIVE DYNAMIC AMERICANISM.

This movement conforming the ROTC strikers directly at our national defense.

The four hundred and fifty delegates to the convention-forcing that these are ALL THEIR LIBERTIES TO PROTEST OPENLY against what they do not personally believe in is a shameful gesture. It is a trained with the colors but paid for those colors.

Their endorsement of the "Oxford oath," by which they pledged themselves not to come to the defense of the United States even if we are attacked, is not only a foolish gesture on the part of these earnest but deluded young men but is a SHAMEFUL GESTURE FROM ANY HUMAN BEING who is not physically or mentally incapacitated.

But there was NO resolution that condemned the aggressive and braggart attitude of the Communist origin and activities of the American Student Union. The endorsement of the Union is the endorsement of a movement that is trying to undermine and destroy our Americanism.

The leadership of these college leagues is always "CAREFUL EXCLUSIVE AGAINST COMMUNISM." TheClear proof of the Communist origin and activities of the American Student Union is the endorsement of the Union in a spread editorial in the Daily Worker.

The editorial ends with this:

"The achievement of student unity shows that the unification of any such movement can only be accomplished after and through the unity of the leading fighters.

"What significance this has at a time when the Communists are bending every effort to establish a firm, fighting united front with their Social-ist comrades on every issue, small and large, which affects the American worker and farmer!"

"The great victory of the Socialist, Communist and other progressive students should be an inspiration for a working class united front and unity!"

There are more than one million college students in the United States, and only 450 attended the Columbus students' convention. James Watcher, who is to edit the official publication of the convention, claims that these 450 delegates represented 300,000 students. It is probable that they did not represent 30,000 of the million.

The danger of the (AXI) American Student Union lies in its POWER FOR PROPAGANDA.

This was foreseen by a delegate, Edward Kinney, of the Officers' Club of the ROTC of the City College of New York, who briefly told the resolutions committee:

"I came to this convention with these three other ROTC men in the hoot of the whole campus would be represented here in all student groups.

"I am keenly disappointed and disillusioned.

"I cannot see any hope for a man of my beliefs in this movement. NEITHER CAN I.

ONE IN THE UNITED STATES SEE YOUR COMMON ENEMY."

"Just as we have rights, we also have obligations as students and as citizens."

"Such a joining of the ranks of students on the part of the American government is understandable."

Most of our students and colleges are working against the Communist movement. There are many students who are fighting against the Communist movement. It is legitimate for students to interest themselves in politics and government.

But they should throw away the Communists and stand out at the front of the fight.

"The students in our American colleges should stand up for the American Student Union because it is a COMMUNIST-CONTROLLED, COMMUNIST-INDOURED and aims at the destruction of that which is most precious to every American student-INDIVIDUAL LIBERTY.
