The Faculty Luminous Committee has an excellent opportunity to present an enduring lesson in personnel management to business students this week. Nine lunchroom workers of a total of eleven have already signed cards with a CIO union, the Lunchroom Workers and Soda Dispensers' Union, which has presented demands for union recognition, a modest reduction in hours, and a wage raise.

There are two reasons why these workers have good reason to band together to gain better working conditions. Because an arrangement known as the "split shift" workers are forced to remain on duty twleve hours a day although they work only eight hours. It is unfortunate that the Faculty Committee has not permitted Mrs. Early, manager of the lunchroom, to make the argument that the workers are forced to remain on duty twelve hours a day although they work only eight hours.

The immediate recognition of the union as sole bargaining agent is granted by all demands presented by the union.

The Democratic Way

Some speakers at the Dr. Klapper Testimonial Dinner were not only nearly wet, but none had a more welcome reception than John L. Foy, member of the Board of Higher Education, who followed Dr. Klapper upon, being asked about the recommendation of Queens College Faculty, declared simply that all matters which were to be incuded in a self-governing Faculty.

It is an anachronism that the City Colleges are founded on the most democratic of principles, should have a Faculty comprising professors, associate professors, and assistant professors, the teaching staff, and tutors and fellows, and not be included in participation in self-governing government.

There are some who say this policy will lead to gains in the economic aspect of the policy which is already a non-profit organization. I have already pointed out that it is just the same in the management of our school. We are not sure if it is too late. In the case of the union, the fire that started on the ground of the union is still burning and will soon reach our little room. To boycott the agreement means that we must boycott Fauste. This is an important case in the history of the union. The day the boycott lines are broken, the union is broken. The boycott means to break them. This means no war.

The Democratic Way

JAPAN conquers four nations, many Belgian and Dutch colonies, and is found in Asia. The news is a story of Fascism and its sinister effect on the free world. It is a story of Fascists who are leading the world today.

Fascists Must Be Stopped

Everyone must admit that if these Fascist aggressors were stopped, there would be no threat to the future of our country. Therefore, it is incumbent upon us to tell them that there is a threat to the free world. What are these aggressors? That is the question. These aggressors are those who are leading the world today.

Power Should Be Utilized

How is this possible? It is obvious that if we want to stop them, we must utilize every available force for this purpose. First, it is important to list the people who are behind the Fascist aggressors and give aid to the Fascists. Second, put pressure on the Fascists. The democratic nations must do likewise.

Observe Kellogg Pact

We must call upon our government to carry out the terms of the Kellogg Peace Pact. The power treaty which put a halt to Fascism is a noble one. The former famous Chicago speech, hit the nail on the head when he called for the "quarantine of the aggressors." Now it has come to make the words into deeds. It is clear that policy the Fascists would like to pursue. What sort of policy the Fascists would like to pursue. It is also clear that Roosevelt made his Chicago speech, these new words into deeds, and did it.

People's Vigilance Responsible

We do not place a blame around these democratic governments. It will be the vigilance of the people that will keep the government from pursuing such a policy. What is the government doing today? Its government wants peace. Shall we disregard the desire for peace because it is a capitalist government or shall we use it for what it is worth?
