Ordway Tead speaks In 4N Thursday At 1

Basis For Co-operation Of Faculty-Students To Be Discussed

Ordway Tead, chairman of the Board of Higher Education, will address a meeting called by the American Student Union Thursday at one in 4N, on city-student cooperation as a basis for the solution of school problems.

The address is expected to lead to the calling of a conference of school principals in which all school organizations will be invited to participate.

The conference was originally proposed in an editorial in the TICKER a week ago. It will most likely scheduled for next week.

Mrs. George Z. Medalie, member of the Board of Higher Education and chairman of the Student Facilities Committee for the city colleges, approved the suggestion for such a conference at a Student Council meeting Tuesday, in which school improvements were discussed at great length.

Mr. Tead, one of the newer appointees to the Board, has been active in student-faculty work. He was active in campaigning for the recent renewal of the faculty-student center set-up.

Mrs. Medalie pointed out that the free textbook problem persists as a question for discussion, since the faculty voted to reject the free textbook proposal last week.

First Monthly Issue Appears Oct. 29

As a result of the removal of restrictions on the OCCY Monthly just before the close of last semester, a great deal of interest was felt at the Commerce Center Monday, October 29.

Prominent in the issue will be numerous feature reviews of recent short stories, poetry and plays, a department devoted to the disquisition of which now seems to be current among the "lost generation."

In short, Dean Moore placed a ban on the Monthly after the dismissal of Howard S. Beekman and Jerome Waldman. In a statement issued as the the action was taken, he characterized the story as "obscene and sordid."

It was not until after several months of campaigning by the liberal forces on the campus that the ban was revoked.
