Student Activity Fee Replaces U-Cards

For the first time in the history of the business school, a student will be able to participate in support of student needs instead of the voluntary U-card purchases of the past. Student Council voted last semester to institute this fee. It was approved by Provost Henry W. Frisch before the last fall. This was the culmination of a year-long effort, which saw that the activities were firstly, making of a survey of the student's activities, and secondly, a survey of the student's activities, and thirdly, the determination of the amount of the activity fee, which was set at five dollars for the year.

The fee, which was added to the charges at the registration, will be used to support the activities of the student body, in addition to those of the students, in support of student needs.

It has been the Ticker's custom at the beginning of each season to turn to the student body who returned to the college, and to welcome the incoming freshman class. This has been done for more than the addition of one or two hundred students, but for the last three years, there has been a noticeable increase, which we believe will be a continuing trend in the years to come.

The purpose of the store is to provide opportunities to engage in every phase of student life. It's up to us, and so not only benefit ourselves, but the college as well. It's up to us to be proud of our college, and to sell the future of the college to the four corners of the world.
