New Registration Plan Eliminates Confusion, Delay

To alleviate the registration problem, an area was formulated to extend the registration period from five to ten days. However, innovation however, would need to be extended to the one computer in order to account for the days lost from the Fall and Spring term.

Students may submit their applications on this basis in a better way than the paper forms. Some arguments against this plan include the shortening of registration time, the possibility of losing positions due to the extended semester, and the employment competition for students of other colleges. Theresa is to be decided whether the advantage derived from this procedure would overcome the disadvantages.

The possibility of having a preliminary registration in the Spring is to be investigated. Questions raised by the Student Council Registration Committee. This (Continued on page 5)

Raye, White Among Stars

When a girl wants nylon, it's not news; but when she wants it in her toothbrush bristles, it's hot news. And it's good news that 25 ravishing beauties are spending a lot of time at the Pepe's box (among other places) getting in a few last looks at looking lovely before sashaying onto the stage of the Manhattan Center evening to dazzle 5 judges and 5,000 audience members.

The 25,000-dollar first prize will be the most lavish package of clothes and accessories that the Pepe's box has yet seen. There will be $1,000 in accessories for every entry and $250 for runners-up. A total of 5,000 visitors are expected.

As an almost complete list of sponsors is available at the Pepe's box, it is expected that there will be no lack of entries. The sponsors include such well-known stores as Lord & Taylor, H. L. Green, and S. H. Kress.

Workshop Players Present Pageant; Rhythm, Drama, Orations Featured

By Claire Turk

City College, home of the progressive and ingenious, is now turning out some extraordinary human guinea pigs. In the only Language Workshop of its kind, students are being inoculated with musical training, a little dramatic experience together with an awareness of current events, the art of oration, the social poise and cooperation that results from working with a large group. The result is the product of a true education.

This progressive and almost revolutionary method of education has been initiated at City by Senior Orgele Pontemano, has at its base the profound philosophy and sincere interest in students which many of the college courses taught throughout the country.

The Spanish class of Senior Pontemano covers a much larger area than any given by the text book, as the students are given an understanding of the knowledge of Spanish. The prime emphasis of the Workshop is to get its participants the cultural background and social poise that must come with full college education. How can it be for the average student to become a part of society, if he has not the background and experience of formal registration for them.

The Workshop Players for this term's presentation is a group which, while learning and acquiring new material, becomes more adept at simple and articulate presentations, which it has written, produced, directed and acted — a combination of abilities which would be impossible to achieve in any other language course. A student who has sat in a Workshop is a student who has sat in a Workshop; he will be able to register for a course in which street academic rules are not enforced, and it is in an advantage to be able to take the first opportunity to be present in the Workshop. It is only a matter of adjusting the situation, using Spanish as a medium.

Not only is it a novelty to the student body, and Senor Pontemano's classes are such that it is possible to be registered for a course in which street academic rules are not enforced, and it is an advantage to be able to take the first opportunity to be present in the Workshop. It is only a matter of adjusting the situation, using Spanish as a medium.
