City, Staggman Battle to 9-9 In Grid Opener

By Marty Rubinstein

Way back in 1946 Dr. Harold Parker thought that he had coached his last Tiger team to victory when the last touchdown on Saturday night was made. But as Parker once again finds triumph, for two periods the eleven completely played Susquehanna. Then at the start of the second half, the tide began to collapse, the backfield developed a case of “better-fin-

OUT OF OUR WORLD

Bonjour, 'Pig Alley'

by P. Marque

Certainly going up! John Donovan, the poet, said that a nun is an island, complete unto himself. The editors of Pig Alley take this leap of faith and extend the logic into chaos. No college, we believe, is complete unto itself, no matter how college-like it is. This is an island, a place where there is room for the student to be himself.

The City College student is not the only one who believes that. America is a nation of islands whose people have their own little places. We have this comfort in knowing that no matter how far we go, we must still have a place to come back to and a place to call home.

And A. Bok Shost Lott Theol.

In the world of literature, the world of art, the world of the city, there are many things that are expressed. We have no choice but to accept the fact that we are part of this world and part of this city.

Dee Stewart

Dear Mr. Editor,

I am writing to ask you how all my applications from last year and this year are being held. I am in the process of applying for a department and I am still waiting for a decision.

Sincerely,
Dee Stewart

The News of the Week

Our campus is not the only one that is experiencing these changes. The French Embassy, 934 Fifth Avenue, is one of the places that is experiencing this change. They have transferred Dr. Ira Ziskoff from our college to the French Embassy.

This week, the New York Times reported that the French Embassy is transferring Dr. Ira Ziskoff from our college to the French Embassy. This is a significant event for our college and the City College community. It is a reminder that our college is part of the larger New York City community and that it is part of the world.
Labor Bias Charges Heard by Faculty
By Zelda Schwartzberg and Wendy Ginberg

Charges of anti-Negro anti-labor policies were leveled against William C. Davis, director of Uptown's Army Hall, by Jack Sigel, President of the New York District of the United Public Workers, at a stormy, three-hour hearing held Saturday, September 20, at the Uptown Center before a faculty arbitration board.

Mr. Sigel demanded reinstatement with full back pay for Walter Sloan and Richard Mckeyers, who were dismissed in October, 1946, by Mr. Davis on charges of inefficiency. Mr. Sloan and Mr. Mckeyers declared that the real reason they were ousted was because of their efforts "to bring the union to Army Hall."

The special three-man faculty board appointed by President Harry N. Wright consisted of Dean Thomas L. Norton of the School of Business, Dean William Allen of the School of Technology and Mr. Walter Stain who was recently appointed Business Manager of the college.

Herman Serby, spokesman for Local 111 of the UPW, asserted that other Negro workers had been dropped at Army Hall and refused by Mr. Sloan and Mr. Mckeyers were released last fall.

Mr. Davis denied all charges, referring to the men who had been dismissed as inefficient, but said that he would be "glad to give the full reasons for their release" before the college board.

As yet, no decision has been reached by the arbitration panel.

The Cadets are flying again!
The U. S. Air Force now offers you the chance of a lifetime to start your career in aviation.

If you want to learn to fly, you have one of the finest opportunities ever offered in peacetime. Aviation Cadet pilot training has been reopened to qualified applicants presently serving enlistments in the Army, and to civilian young men who can meet the same high standards.

In order to be eligible, each applicant must be a single male citizen, between 20 and 26 1/2 years old, of excellent character and physically fit. He must have completed at least one half the credits leading to a degree from an accredited college or university, or be able to pass a mental examination given by the USAF. He must now be living within the continental limits of the United States.

Upon successful completion of the training course, Cadets will be rated as pilots, commissioned Second Lieutenants, and assigned to flying duty.

Reactivation of Aviation Cadet pilot training is only one of the several choices open to outstanding men who want increased responsibility and advancement in the field of aviation. It is now possible for qualified men to apply for attendance at USAF Officer Candidate School—and thus be able to equip themselves for such important specialties as engineering, armament, administration and supply.

You have a real chance to make progress and build a sound career for yourself in today's U. S. Air Force. Talk it over with the Recruiting Officer today at any U. S. Army and Air Force Recruiting Station.
