State University Campaign Opens

Reviving the student campaign for the establishment of a state university on Downtown City, representatives of the four municipal colleges went to Albany last week to promote the cause at the state Capitol. At present the city colleges are in the process of consolidating their efforts into a single campaign, and their spokespeople in Albany have no doubt that there is a ready and willing audience for their cause. The four municipal colleges are combining their resources for the benefit of all the city, and the campaign is gaining momentum as the years go by.

Student Body to Oppose Proposed Schultz Amendment

By Paul Odess

Culminating a three week period marked by an ever increasing interest on the part of both students and faculty, the long-awaited hearing on the proposed Schultz amendment will take place this week before the Committee on Legislation and By-Laws and the Board of Higher Education.

Every time the amendment seeks to rid the college of "subversive" extracurricular activities, was revised by the committee on October 6, opposition has steadily mounted throughout the four municipal colleges and particularly here at City College.

At the time the amendment was revised, the BHE Committee adopted a resolution calling for a meeting with representatives of regularly chartered school organizations, faculty, or faculty groups who wish to present their views on the amendment. This call has received a great deal of interest from both student and faculty groups who will make themselves heard at the meeting this week. Leading the School of Business delegation is the Mary Suib, Bernard Schwartz, and many other students will also be represented, while others have sent messages indicating their stand on the matter.

The Schultz proposal is intended to amend a by-law of the Board of Higher Education and reads in part:

... no group with a program against religion in general against the religion of a particular group or any race and any group with a program to subvert by force or fraud the government or Constitution of the state or of the United States or to propagate government by force or fraud the government or Constitution of this state or of the United States shall be permitted to organize.

No student organization, in military character, not connected with established college courses shall be permitted either the authorizations of the proper faculty and the Board.

Theatron Play Opens Friday Night in PET

With the presentation of "Joan of Lorraine" Friday night at 8 in the Ticker theater, the city college will continue its program of putting on the usual comedy productions and adopt an air of solemnity and high drama.

The play, a smash hit on Broadway last season, will be performed with the same personnel and staging as the original. The Friedman's Playhouse will feature, among other things, a notable performance by Mary, an actress who suffers with shell shock because of the nightmares of her role as Joan. Many believe that Joan should be portrayed as a noted character in American history.

Council to Vote Honors Friday

The deadline for Inauguration applications has been extended until Tuesday. This was due to the unforeseen shortage of the necessary forms. This action was taken by Student Volunteers, who will meet in the afternoon in Room 4 in the Faculty Lounge.

The present Albany trip is open for one day. Downtown City's representatives are currently meeting with the student delegation to discuss the amendment and the future of the college.

To Investigate Allotment Delays

The Veteran's Administration has announced a new program aimed at relieving the shortage of Veterans Administration check works. This program is designed to improve the efficiency of the VA's operation in November.

The plan, outlined in a letter to Superintendent of the Ticker, will enable veterans to express their opinion on time to make their cases known to the VA through a field worker. All applicants who have not received their checks will be included in the plan.

Better journalism will be the objective of the Ticker staff, the administration of the city college published, as was noted in a call for the meeting. The plan will provide for a weekly news sheet, and a daily paper, the Ticker, which will be distributed throughout the school a few days in advance of the weekly edition.

The play, "Joan of Lorraine," is a smash hit on Broadway last season. It is being performed with the same personnel and staging as the original. Letter to the Editor

Dear Editor:

Your recent editorial in the "The Ticker"97 was very thought-provoking. It raised some important questions about the state of higher education in New York City. I would like to respond to a few of these points.

Firstly, I agree that the Establishment of a state university system is a crucial step forward. However, it must be done with caution to ensure that the benefits are not skewed towards certain groups at the expense of others.

Secondly, the idea of a "great" endowed college is laudable. However, it is important to note that such institutions are often not reflective of the diverse and varied experiences of their students. There is a need for a more inclusive model of education that values the contributions of all students.

Finally, I encourage the establishment of a "New York College" that is rooted in democracy and offers educational opportunities to the average citizen of the state. This would be a significant step towards creating a more equitable society.

I look forward to hearing your thoughts on these issues.

Sincerely,
