Taft Tells Deferral Requirements; Minimum Test Score of 70 Needed

All students taking the new college qualification test must score 70 points or better in order to obtain draft deferment, announced Dr. Arthur Taft, Director of Armed Services Affairs.

In order to qualify for deferment, the student must take the test. Failure of the test does not mean that the student will not be deferred if he is in the upper bracket of the class. The test will be given on May 26, June 16 and June 30. There are all Saturdays and there will be no provision for Saturdays.

Presumably, students who have already been postponed will be included in the new directive.

The following are the exceptions to the 70 score test:

1. Applicants for graduate schools would be required to score 70 or better on the examination in order to win deferment; they will be deferred if they stand in the upper one-half of male students in their respective classes.

2. Professional school (medical, engineering, etc.) students could win deferment upon certifying that they are "actively" pursuing a full-time course leading to graduation.

3. If he stands in the upper one-half of male students would be deferred if they were "measuring degree requirements" and were expected to earn a degree.

Dr. Taft warned that this directive may be changed by an act of Congress.

The Spring Festival, a dance sponsored by the Pan America Society and featuring Rick Jordan and his band, will be held in Hansen Hall, Saturday evening.

In addition to Rick Jordan’s band, The New Yorkers will be on hand to provide part of the evening’s entertainment.

Doors prices consist of tickets to a Broadway hit show and an album of records, will be awarded to the lucky ticket holders.

Processing fees will be used to support a World Artistic Seminar Fund, which will unify the direction of both Pan America Society and the Language Workshop. The fund will be administered by the Council of Spanish to visit South American countries.

"This new policy," said Judge Avedes, secretary of the Pan America Society, "will not only greatly assist the students by merging from the Seminar, but will also help to give City College the favorable publicity it needs and deserves at this time."

Although the players on the tennis team may not have any romantic inclinations speaking from an athletic standpoint, they differ from their counterparts in other sports in that they are out for love rather than blood.
