The reputation of the College has been subjected to self-inflicted murder. Administration and students must both bear the burden of responsibility.

We all clamored for the big team—the team that could lick any other in the country.

City College got a big, winning team. The players fulfilled their function up to a point—up to the point that NOT winning games became more important to the players. Evidently they resorted to any immoral dilemma they had by accepting the materialistic dictations of their environment. Just as their records were clandestinely adulterated, the scores were esoterically lowered.

The students reveled in the glory of a winning basketball team and shouted for more and more victories. The students must not self-righteously avoid the guilt of having aided and abetted the crime.

In committing academic suicide, rationalizations were built up about the benefits of intercollegiate athletics.

We acquiesced in tacitly accepting the theory that intercollegiate sports builds a reputation for the College, helps to attract new students and promote alumniship, builds sound bodies and inculcates a feeling of sportsmanship.

The reputation built by sports is commercialized to retain inter-collegiate sports: to satisfy that segment of the college community which would expect to maintain inter-collegiate sports. Any solution must thereafter be developed to avoid this.

However, we believe that this can possibly be avoided to help the College, but no evidence, as yet, has been found which would indicate otherwise.

The situation is complicated because there are about 50 people, interested people, who have access to the files.

"Assistant Coach Harold Sand stated before the College board members and answered, in detail, the charges made against him. He was not named as a player who violated any rules of intercollegiate athletics."

"He not only denied saying that City College would win at the standings of the basketball games, but he said that no player was eligible for the team," said Dr. Bunche, who maintained that he continuously encouraged them to maintain high academic averages."

In the report the Committee disapproves."

Bunche Declines Board Offer
For Presidency of City College

Dr. Ralph Bunche, head of the United Nations Division on Trusteeship, has declined an offer to become the next president of the College.

Dr. Bunche was quoted as refusing the position because of "present commitments to the United Nations." He also quoted the article in this week's issue of the "Pittsburgh-Courier.

The article disclosed, that the President of City College, Dr. Bunche was offered the position by the College's Board of Trustees. It promised to keep the position open for him until October, 1952, if he would accept. Pres. Harry N. Wright is scheduled to retire August 31, 1952.

Dr. Bunche's statement that he was offered the position was made Wednesday from Paris, where he is now attending a conference of the General Assembly.

Placing his work in the United Nations above immediate academic interests, Dr. Bunche stated, in refusing the position, "I believe in the United Nations and I want to see that job through first. Unpaid peace can be established through the United Nations, and I want to do my part for peace."
Sixteen Students to Get Awards

Alumni Society Plans Meeting:
Sixteen Students to Get Awards

The annual business and social meeting of the Alumni Society at City College will be held at the Alumni House, Friday, December 14. Members of the Board of Directors will be present and a special meeting of the Board of Directors will be held before the regular meeting.

On the agenda for the business meeting will be the announcement of the 1952 graduates who are scholarship winners during the coming year. "The 1952 graduation will be the first time in the history of City College that there will be a relaxation of the rules while undergoing examinations," said one member of the Board of Directors.

Be Happy

Lucky's Taste Better!

It takes five tobaccos to give you a home-curing smoking. And Lucky Strike means five tobaccos. But it takes something else, too—something unique—something that will make you say, "Thanks." You get fine, light, mild, good-tasting tobacco. And for six years before the back pay amounting to one million dollars.

Get of the city colleges, plus a few clerical assistants. The crew-sued the Board of Education last in 1941. He said:

Appropriation

The next meeting of the Board of Education will be held Thursday, December 20. The meeting will be held at the Board of Education, 313 Second Avenue, New York 10, N.Y. The meeting will be open to the public and the public is encouraged to attend.

Total of 175 employees classified as Grade 2 clerks in the City College system, including the employees on the payroll, is more than 8,000. These employees are covered by the City College system, which includes the City College of the City University of New York, the City College of the City University of New York, the City College of the City University of New York, and the City College of the City University of New York. The City College of the City University of New York is the only college in the system that is not included in the City College system.

The greatest City College soccer team in the school’s history ended its 1951 season in convincing fashion yesterday, but this time with the defense-minded Pratt eleven 2-4.

Prof. Winograd Defines Policy

"The news was a complete shock to me," declared Sam Winograd, faculty manager of athletics, while commenting on the charges made by Judge Saul S. Street that the team was not up to the standards required of an intercollegiate athletic team. "The first I heard of this was in the court, Monday," he commented. "The whole program then went on to clarify the policies of the intercollegiate athletic division of the school to the point that the first 100,000 dollars contributed to the scholastic records of these two former beavers, he explained that such records do not go through his office. Winograd also explained the method by which athletes are introduced to the coaching staff and invited to the school to be shown the policies of the intercollegiate athletic division.

Tommy Holm with 4 goals and Ed Freitas with 3 goals each.

Equally impressive is the twelve-goal total allowed to the opposition. As the score continued against them, the ambition of the Commerce basketbaa five to maintain high scholastic standards at the college. "The boys came through in fine fashion," he commented. "They played fine team ball all year and every victory was a team victory." One glance at the completed scoring statistics will easily verify Professor Winograd’s statement. Ten Citites were figured in the 33 goal score during the nine-game schedule.

Cui Simri, a senior and veteran of two years college competition, emerged as the squad’s high scorer by edging out Irosh Sensat and Joe Penabad, 8 goals to 7. Then followed sophomore stars.

Assistant Coach Bobby Sand yesterday vigorously denied the charges leveled at him and the College by Judge Saul S. Street at Monday’s sentencing of the 14 convicted hoop betakers.

Sand Defends Against Judge Street Charges

Andrews thus walked off
with the Metropolitan Conference Championship for the second league title in five years and no losses and an overall slate of eight victories and one setback.

It was obvious when the game began that the Lavender beavers were determined to claim their first City title in four years as quickly as possible, for the Rochesters were completely defensive and continued to force the issue throughout the fray.

City Scored: At 11:35 of the initial quarter Edozie Ekwunife climaxed a sequence of timely passes by converting the game’s first goal for a 1-0 lead.

The City forward line maintained its defensive tactics for most of the first half, but some spirited defensive maneuvering by Tech fullback Malcolm Greengriff and goalie Ed Lavarni prevented any further scoring.

Early in the fourth quarter. Ekwunife set up the game in front of the nets and tallied his second goal of the game and the final one of this highly successful campaign.

"After the game’s conclusion, youthful member Werner Rothschild beamed as he expressed his approval of the team’s performance throughout the season. "The boys came through in fine fashion," he commented. "They played fine team ball all year and every victory was a team victory."

One glance at the completed scoring statistics will easily verify Professor Winograd’s statement. Ten Citites were figured in the 33 goal score during the nine-game schedule.

Cui Simri, a senior and veteran of two years college competition, emerged as the squad’s high scorer by edging out Irosh Senat and Joe Penabad, 8 goals to 7. Then followed sophomore stars.
