**Students Vote Tomorrow; Put Referendums on Ballot**

**Student Aide Pay Question To Be Decided on Ballot**

The second referendum on the elections ballot Tuesday will read: "Because of the severe budget cuts for student aides, resolved that unappropriated fees monies be used to pay for student aides in the central treasurer's office for the current semester."

Unappropriated fees monies from which these salaries would be paid "come from available late receipts which are deposited in the central treasurer's office and would tend to work their budgets through the treasurer's office. The elimination of the student aides would necessitate a cut in the services of the office and would tend to cripple the whole extra-curricular program," stated Harry Meisel, central treasurer, Downtown.

The following arguments were put forward by the "in favor of" and "against" sides: John Glasbrenner, President of the Student Council, and Paul Deim, Treasurer of the Student Council.

**Notice**

A special election issue has been prepared for Student Council members by members of the TICKER staff in order to present the qualifications of the candidates for office to you.

**Voter's Ballot to Decide Whether NSA Remains**

During the school-wide election tomorrow, all students will vote on a referendum dealing with the fate of NSA. The referendum which will follow: "Should City College Downtown continue its membership in the National Student Association?"

"The United States National Student Association is an organization of college student bodies, represented through their student governments. It was created to serve the need for a representation of college students, an organization designed to serve the American student community, and to promote the student interests and welfare.

The following arguments were given in favor of NSA:
1. The accomplishments of NSA have been nil and not worthy of mention.
2. NSA has cost the school over one thousand dollars for the last two years, at the rate of $500 a year.
3. NSA discusses issues of political and international vein which have no direct effect upon students. Their discussion, "Should We Drop the Atomic Bomb?" is an example of this.

**Council, Class Vote Methods**

"Tomorrow, starting at 10, school-wide elections will be held for Student Council and class officers. Members of the election committee will take ballots to 10 o'clock classes at which time the majority of the student body will be allowed to vote. All students who do not have 10 o'clock classes will be allowed to cast their ballots at a booth which will be set up on the ninth floor of the college."

So, if you have not heard of the election... why haven't you heard of the election?... Ads in TICKER will be running... That's because the election committee has decided to make students aware of the election... So, why haven't you heard of the election?"
