Polio Conqueror Awarded Rare Honorary Doctorate

Dr. Jonas E. Salk, whose development of a polio vaccine has earned him world acclaim, will receive an honorary doctor of laws degree at the June commencement exercises. The award, as announced by President Gallagher, will be conferred by City College. Other recipients include such famous alumni as Bernard M. Baruch '99, Supreme Court Justice Felix Frankfurter '02, and the late U.S. Senator Robert Wagner '22.

The Board of Higher Education and the General Faculty have announced the conferring of the honorary degree to Dr. Salk. BHE resolution to confer the degree reads in part: "The Board of Higher Education, by virtue of the authority vested in it, hereby grants to Dr. Jonas E. Salk, whose development of a polio vaccine has earned him world fame and whose name is already synonymous with a new era in medical science, the honorary degree of Doctor of Laws, in recognition of his distinguished service to science and medicine."

Awards for the University's highest honors were also announced as follows: President Gallagher will receive an honorary doctor of laws degree at the June commencement exercises. Other recipients include such famous alumni as Bernard M. Baruch '99, Supreme Court Justice Felix Frankfurter '02, and the late U.S. Senator Robert Wagner '22.

Boy Meets Girl Subject Of Next Town Meeting

Joan Pivar and Mel Small, co-chairmen of the Student Council Town Meeting Committee, have announced that "Boy Meets Girl" has been designated as the topic for discussion at the Second Town Meeting of the semester, to be held Thursday at 12:15 in the Faculty-Student Lounge. This topic was chosen, according to Miss Pivar, to provide an opportunity for students to discuss mutual problems concerned with dating and other facets of the male-female relationship. The aid of certain members of the Psychology Department has been enlisted.

At the First Town Meeting held last month, students were requested to discuss the topic. A liaison committee of the Student Council, which consists of the presidents of the various organizations, will give the Town Meeting the proper opportunity for discussion.

Cohn, Farrell Speak At Freedom Debates

Academic Freedom Week, sponsored by the United States National Student Association, opened on the uptown campus Thursday, with the theme, "Man's Right to Knowledge and the Free Use Thereof."

Mercer Wins 33250 Grant

Vivian H. E. Mercer, the department of English, has been awarded a $3,3250 grant from the Ford Foundation's Fund for the Advancement of Education. Dr. Mercer will take a sabbatical leave in September, at which time he will go to Italy to study the Greek language. The purpose of the grant is to help her, as a teacher, improve her background. The educator will study at his alma mater, the Trinity College of Dublin.

Harriman Will Refuse Nomination for Office

The Board of Higher Education has approved a motion to create the position of Chancellor of the four City Colleges. Consideration of such a move was begun at a special meeting of the Board on November 22, 1954 when the matter was referred to the Committee on Administrative Organization for consideration. The Committee's report was recommended on April 18, 1955, and subsequently approved.

A liaison committee of the BHE has been appointed to develop recommendations for the new post. Members of this committee are Dr. Harry C. Parks, Jr., Dr. Joseph S. Cannell, Mrs. Elia S. Streeter, and Dr. Ordway Teed.

It was expected that City College President Rulon G. Gallagher would be a prime candidate for the position. President Gallagher told campus reporters at a press conference Thursday, that he would not accept the nomination for the position, if offered it, "I would prefer to remain at the College" he said, adding that he did not believe one of the four college presidents would be chosen for the position. In announcing the committee report, the Board also adopted a resolution that the Chancellor will be assumed by the new officer. The first of these would establish the position, and the second that of the Administrative Council which consists of the presidents of the colleges, with the Chancellor serving as the ultimate authority over the administrative council. The work of the Administrative Council is outlined on Page 2.

Another of the Chancellor's tasks will be to unify and coordinate college business and financial procedures and management. He will also, with the aid of the College Council, prepare the operating and capital budgets of the colleges.

In the public relations field, the Chancellor will act as representative of the colleges and of the BHE in matters concerning the colleges and the chancellorship.

(Continued on Page 2, Col. 1)
New Chancellor to Wield Wide Influence on BHE

Appointment of the yet-to-be-chosen Chancellor of the Municipal Colleges to the position of Higher Education at its next levels would have considerable influence in regard to the formulation of official policy and procedure.

The Board of Higher Education in its next meeting would have considerable responsibility for the appointment of the Chancellor, who would be responsible for the administration of the BHE's system of higher education in the City. The position of Chancellor is one of the key positions in the administration of the City's educational system, and the appointment of a new Chancellor would have a significant impact on the future direction and development of the City's higher education system.

The Chancellor would be responsible for setting the overall policies and direction of the BHE and its constituent colleges. This includes determining the strategic goals and priorities, as well as overseeing the implementation of these policies. The Chancellor would also be responsible for providing leadership and direction to the Board of Higher Education and the constituent colleges.

The appointment process would involve a rigorous search and evaluation process, with input from a variety of stakeholders, including the Board of Higher Education, the constituent colleges, and other education leaders in the City. The selection of the Chancellor would be a key decision for ensuring the continued growth and development of the City's higher education system.

In conclusion, the appointment of a new Chancellor would be a significant event for the City's higher education system. It would have a significant impact on the future direction and development of the system, and the selection of the Chancellor would be a key decision for ensuring its continued growth and success.
Joe King's 'Fraternity House' Haven for Wealthy Collegiates: Beer and Good Cheer Abound

Washington, D.C. — 238 miles from New York City as the crow flies, the Fraternity House, on the New Jersey Turnpike, is a sprawling colossus. It is a hostelry where alumni are able to unite with former students, to relax, to drink, and to exchange stories and memories of their college days. The house is the center of a national network of similar establishments, all built with the same purpose in mind: to provide a place where alumni can come together and enjoy themselves.

The Fraternity House is located in the Municipal College Empire, which includes the New York Times Building, the New Jersey Turnpike, and the Washington Monument. The Empire is the largest tourist attraction in the United States, and it is visited by millions of people each year.

The Fraternity House is open 24 hours a day, 7 days a week. It is a place where alumni can stay for free, and they are encouraged to do so. The house is equipped with everything that alumni might need, including food, drink, and entertainment.

The Fraternity House is a place where alumni can find a sense of community and belonging. It is a place where they can remember the good times they had in college, and it is a place where they can make new memories. The Fraternity House is a place where alumni can relax and enjoy themselves, and it is a place where they can find solace in times of need.

The Fraternity House is a place where alumni can find friends, and it is a place where they can find family. The Fraternity House is a place where alumni can find a home away from home.

The Fraternity House is a place where alumni can find a place to come back to, and it is a place where they can find a place to call home. The Fraternity House is a place where alumni can find a place to belong, and it is a place where they can find a place to find themselves.

The Fraternity House is a place where alumni can find a place to come back to, and it is a place where they can find a place to call home. The Fraternity House is a place where alumni can find a place to belong, and it is a place where they can find a place to find themselves.

The Fraternity House is a place where alumni can find a place to come back to, and it is a place where they can find a place to call home. The Fraternity House is a place where alumni can find a place to belong, and it is a place where they can find a place to find themselves.

Young manager handles finances for building of $5,000,000 plant

In the next two years, demand for General Electric machinery in the country is expected to double. To meet this demand, a giant new plant (called at right is being built at Shelbyville, Indiana.

The plant will cost $5,000,000, and the mass responsibility for handling finances for the entire job is 32-year-old E. Fetter.

Fetter's job is important, responsible

Dick Fetter's work as Financial Manager of the Department began long before General Electric started building the plant. He had the group that had to estimate probables operating costs and predict whether the plant would be profitable.

Now, during construction, Fetter's chief concern is keeping tabs on all the money on this multimillion-dollar project. When the plant is completed, he will set up a complete financial sequence and manage every item, cost, and general accounting to payroll, budgets and measures, and internal auditing.

25,000 college graduates at General Electric

This is a big job. Fetter was reared for it in a crucial non-technical environment of development. Like Fetter, each of the 25,000 college graduates is given his chance to grow; to find the work he does best, and to realize his full potential. For General Electric has long believed this. When young, fresh minds are given freedom to make progress, everybody benefits - the individual, the company, and the country.
St. John's Defeats Nine, 7-2; Unbeaten Stickmen Triumph

The City College baseball team relinquished its short-lived stay in second place in the Metropolitan Conference standings as the Beavers suffered their second loss this season, to St. John's University, by a score of 7-2, at Dexter Park, Queens, Saturday.

The Redmen, who are on top of the league with a 4 and 0 record, scored six runs in the first three innings and breezed home the rest of the way to an easy victory.

George Norman, St. John's ace righthander, hurled a strong seven-hitter, striking out seven and walking five, in helping the Redmen rack up their fourth consecutive win. Starting and losing pitcher for the Beavers, Herb Kroenig, gave up six runs and seven hits in the first three innings. The loss dropped City to 4-2 in the league with Wagner, both having identical 2-2 records.

It's a good thing that John's threatened to run away with the game in the first inning when they had the bases loaded and only one out, but were only able to put one runner across. Charlie Lehman opened the frame with a triple. Mike Donneli was among the leading batters in the league registering a mark of .332. Bob Murphy is the first baseman and the Beavers are captained by shortstop Bob Bohrier of Manhattan.

Zoo, Locks, Bab-O, Juniors Advance to IMB Semi-Finals

The class championships of the Intra-Mural Board basketball tournament were decided last Thursday in Hansen Hall. Each class will send a team to the semi-finals which will be played at the Coliseum on Friday.

Jays, Locks, Bab-O, and Juniors were the winners, going down by 46-37.

In the sophomore division, the Bab-O five trimmed Beta Delta N's, 4-3, and finished 15 points respectively for the Beavers during the second half of last season. We started in the game against Brandeis scoring nine points late in the contest.

Kwarter's Konner

Kwarter's Konner, by Richard Kwarter

In one of the elimination rounds of the IMB run basketball tournament, the above mentioned organization found itself strapped for resources.

It seems that a number of boys, the Intra-Mural Board expected to show up and help officiate in some of the games, failed to appear. This did not stop some of the more resourceful members of IMB. Seeking some friends, in the balcony above the gym, they implored them to come and referee in some of the scheduled games. Unfortunately a few of these individuals consented.

The howls of protest that were voiced by members of both teams involved in games that were refereed by these officials, "who didn't know the rules", were implored them to come down and stop some of the more resourceful members of both teams involved in games that were refereed by these officials.

The outcome of the Hygiene Department's attempt to control the situation was the decision to call off the tournament.

The capture of the CTC crown was the only "bright spot of the afternoon for the Lavender. City finished far behind Manhattan College and MEC State, the co-winners, in the first standings.

The relay quartet, consisting of Sheridan, Hunsaker,泮ham, and George, was the top-scoring team, but still lost to Manhattan College and MEC State.

The City College baseball team will play Manhattan Thursday. The Beavers lead, 7-5, going into the final 15-minute inning when they had the bases loaded. With one out, Gil Brady, first sacker, sent a long sacrifice fly to center field to score Lehman. Bob Bohrier of Manhattan scored the winning run.

Dr. Hyman Krakower has stated that at this time it appears that Beaver fencing coach Edward L. Quane has been at Manhattan for six years.

The Beavers waged a spirited contest against the Stutemen, whom they had not beaten in recent years. They exploded onto the field at the start and, before eight minutes had elapsed, their little midfielder, John Piro, had scored three times to give them a 3-0 lead.

Co-Captain Ralph Kelley made it 5-0 with a powerful goal at 12:42 but, ten seconds later, Kelley intercepted Stevens goalie George Leary and walked to load the bases. With one out, Gil Brady, first sacker, sent a long sacrifice fly to center field to score Lehman. Bob Bohrier of Manhattan scored the winning run.
