Dean Bids Adieu; Commends School

"No man could ask for a richer and happier ten years of association than I have had in my good fortune to enjoy. On many fronts the School has made advances. To have been a part of this adventure is a privilege." So stated former Dean Thomas L. Norton in his final report to President Gallagher.

Speaking further of the curricular program, Dr. Norton stated that "Student activities, through contribution to the growth of the whole man, should be an integral part of the student's educational experience. From 46 registered organizations in 1945 to 123 today, is the record of the increase in the numbers of student groups. The figure alone," he said, "do not reveal the simultaneous growth in maturity and ever-widening assumptions of responsibility and increased accomplishments of our students."

Dean Norton served here from September, 1945 to September, 1955. Last June a combination testimonial-dinner was held by the students, faculty and family of the Baruch School. The report went on to note several additions and alterations which were enacted during Norton's tenure, among which is the Cooperative Program. The Baruch School has ten such programs, more than any other college in the country.

Dean Norton expressed his gratitude to the members of the faculty and student body. He also paid special tribute to the members of the business community in New York, who have helped to make the Cooperative Program what it is today.

Frosh Escape Hazing; Friendship Week Set

A group of freshmen register. Friendship Week will replace the usual hazing program this semester.

The more than 500 freshmen who entered the Baruch School this fall have already been led through the rigger of registration and a pre-registration assembly, and now there is nothing more in store for them except a ten-day Friendship Week and four years of classes.

Friendship Week will replace the usual Hazing Program, which was abolished by the Freshman Orientation Society, because "it led to too much animosity between the freshmen and the upperclassmen." The beanie, eliminated and a metal Class of '60 pin substituted. Friendship Week will begin next Monday and will last through Friday, October 7.

Ida Raucher, 57, FOS president, announced that the following rules will be in effect during the two weeks:

- All freshmen must wear their Class of '60 pins.
- All freshmen will be required to wear the following attire in Frosh Chapel: jackets and ties for the men; and blouses and "Lavender" skirts or dresses for the women.
- All neophytes must learn the verses of "Lavender."

Mayers Begins Term as Dean

For the second time in his career, Dr. Lewis Mayers has assumed the acting deanship of the School of Business. The 65 year old legal expert, who had served as acting dean for the 1939-40 academic year, was selected by President Gallagher last May—the time of Dean Norton's resignation— to serve as dean until a permanent administrator could be chosen.

At that time Gallagher said he would stay in the position of acting dean until he could be sure that the selection had been determined in all probability it will be a permanent successor. However, in an interview last week, Dr. Mayers said he was ready to stay the position of dean as soon as a permanent dean was selected.

A former jurist, Dean Mayers has distinguished himself as an author, a government administrator, instructor of law, and a practicing lawyer.

A cum laude graduate of Chicago, he went on to receive his MA at the University of Wisconsin, and returned to Columbia University with a Ph.D. in political science. In 1942, he was a consultant to the India Inter-University Board. Since then he has been a graduate student and gained a scholarship and prize at constitutional law, to gain his Ph.D.

Wright Returns from India

Ruth C. Wright, Dean of Students at the Baruch School, who has been on leave of absence for almost four years, returns to her position this semester. However, due to personal reasons, the dean has requested another leave until October 1. During her absence from the School, Mrs. Wright was with the U.S. State Department in India.

Born in Sheldon, Illinois, Dean Wright celebrated her fiftieth birthday yesterday. She received a Bachelor of Science degree from Columbia University in 1935. She continued her studies at Columbia and was awarded her doctorate in education in 1942.

Before coming to City College, Dean Wright taught at the Keen School in Tiansten, China, from 1922-27. She was Assistant Dean of Women at the University of Illinois from 1927-30, after which she assumed her position as Advisor or to Women here. Her title was later changed to Dean of Women. In 1942, she was named Dean of Students.

Dean Wright, who is a member of the American Association of University Women, was a consultant to the India Inter-University Board in 1942.

The dean is also a member of the American Academy of Political and Social Sciences, the American Council on Personal Associations, the National Association of Women, Alpha Gamma Delta, Beta Gamma Sigma, Kappa Delta Phi, Delta Gamma Phi, Phi Delta Phi, the National Arts Club, and the Associate Boards of China Colleges.
The Seven Year Hitch: Increase Reserves' Term

Mon., entering the Armed Forces after the new Reserve Bill was passed by Congress last week, can look forward to three years of active reserve duty following their initial enlistment period. Each will be for an additional two years.

Previously, the length of service was set at five years, making an eight-year hitch necessary for those entering the Reserve Corps.

The three-year term makes a Reserve officer much more likely to be assigned to duty at home and to regular Army units, enabling him to maintain his duties and responsibilities in the same manner. This change will also decrease the number of reserve officers needed for any given period.

This change will also benefit the Reserve officer by allowing him to maintain his duties and responsibilities in the same manner. This change will also decrease the number of reserve officers needed for any given period.

Class Councils Set Semester Activities

The sophomore, junior and senior classes are already busy planning their activities for this semester.

- The Sophomore Council, under the leadership of President Barry H. Smith, has scheduled a number of events for the fall semester, including a dance, a talent show, and a homecoming football game.

- The Junior Council, under the leadership of President Richard A. Johnson, has scheduled a number of events for the fall semester, including a dance, a talent show, and a homecoming football game.

- The Senior Council, under the leadership of President John R. Smith, has scheduled a number of events for the fall semester, including a dance, a talent show, and a homecoming football game.

The Ticker Tape

The Ticker Tape is a weekly newsletter published by the National Student Association (NSA). The newsletter provides information on upcoming events, student organizations, and campus news.

The NSA is a national organization that represents the interests of students at colleges and universities across the United States. The organization is dedicated to promoting student equality, democracy, and social justice.

Campus Interviews Set for October 1

The Fall, 1983 "On-Campus" interviewing season, College's service in graduating seniors, will commence October 1. "On-Campus" interviewing begins on the first day of the fall semester and continues through the first two weeks of the semester. Students are encouraged to interview with employers who will be on campus to discuss job opportunities.

The Baruch School's new Student Center (see page 1 for story) will open its doors to the student body on Thursday, September 19. The center, which will be the focal point for all student activities, is located on the 11th floor corridors. The opening of the center has been met with excitement and enthusiasm by the students.

The necessity, for this is financial. The change in the cafeteria menu, the elimination of the chocolate sundae, marshmallow frappe and cherry smash, has made it think that, in order to cope with the problems faced by the cafeteria, the students must act quickly to save themselves money. The move, however, has not been well received by the students. The students have voiced their disapproval of the change, saying that it is unfair and that they will not be able to afford their favorite treats.

S.D. A Elects Perelson As National Chairman

Sam Perelson, a senior honor student, was elected by the Eighth Annual Convention of Students for Democratic Association on June 16-19 at Johns Hopkins University, to serve as the national chairman for the coming year. He succeeds Leonard G. Stein, of the University of Pennsylvania, and will also serve on the national board of S.D.A's parent affiliate, the College Press. A member of the S.D.A. for two years, Perelson has served as the chairman of the Student Council movie program, and will also serve on the College Press's New Student Discount Service committee.

Student Council Committees

Student Council meets every week to plan events, budget funds, and handle the administrative details of its activities. The council's main goals are to increase the social and community activities available to the college and to promote and support the interests of the students. Each semester, the council will elect chairman, Perelson has also been chairman, and will also serve on the Student Council movie program. The council also acts as its national chairman.

Registration Figures Show

Students Numbers Increased

The number of students attending the College has shown a significant increase in recent years. The registration figures for the current academic year indicate a steady growth in enrollment. This increase is due to various factors, including improved educational opportunities, increased interest in higher education, and the availability of financial aid. The college continues to strive to meet the needs of a diverse and growing student body.

Boots Set to Retain Title; Thompson to Bolster Vet Team

Baruch's soccer team is on a roll. They have won eight of their last nine games, including a crucial victory against a strong opponent. The team's confidence is high, and they are looking forward to continuing their success in the upcoming season.

President Gallagher deemed that hygiene instructors, in general, do not put as much preparation into their gym classes as do, for example, English teachers. In addition, they have cited the great amount of physical exertion that goes into teaching a gymnasium class.

Feeling also the tug when the edict was held responsible for the dismissal of a gymnasium instructor and the near-dismissal of another, both varsity coaches. In effect, a hygiene teacher was teaching an extra hour for each two he actually taught, there was a reevaluation of Hygiene Department instruction personnel. Those teachers with the least amount of tenure were discharged first. Jack "Dutch" Garfinkle, coach of the Baruch School basketball team, who had just received the Spring, 1954, semester and Edward Liska, fencing coach, were discharged at the conclusion of the June, 1955, academic year. However, Lucia has reported with the Department, at least temporarily, replacing an instructor who is taking a leave of absence.

Another development regarded a coaching change. The coach of the track and cross country teams, replacing Coach Harold Anson Bruce, who retired at the end of last semester.

In one of the most hotly contested issues of the Congress, the NSA declared itself against the eighteen year old vote. It felt that the majority of persons under twenty-one would be much better prepared to vote upon reaching that age.

In a surprising show of unanimity, considering the fact that many southern schools were represented, NSA called for an immediate start in enforcing the Supreme Court decision on segregation in the schools. However, it recognized that each area would have to be treated differently and that education was as, or more, important than legislation in speeding desegregation and integration.

Regarding military manpower the NSA stated, that, "When a state of international tension exists, the national security may require a military program capable of maintaining defense installations, and a reserve military force capable of immediate mobilization. At the same time, the danger must be avoided that, through fear or carelessness, these needs will be met with a program that will ignore the basic principles of our democratic tradition and eventually destroy them.

Howard A. Spohr, City College's Assistant Faculty Manager of Athletics, died on Sunday, August 14, at St. Vincent's Hospital, New York City, following an emergency operation on his spleen. He was 38 years old. A popular figure, known to thousands of City students as "Chippy," Mr. Spohr was stricken with pain while watching a television program the previous evening and was hospitalized immediately. Inquest Services were held on August 16 at the Frank Campbell Funeral Home. Interment took place the following day at the Ferncliff Receiving Vault in Hartsdale, N.Y.

Inquest Services were held on August 16 at the Frank Campbell Funeral Home. Interment took place the following day at the Ferncliff Receiving Vault in Hartsdale, N.Y.

The President also expressed the opinion that his plan would help to end "one of the most comical facets of university life today—the college boy who never goes to college." He cited the "snap" courses which many athletes take while whiling away hours between football practices and added that these courses not only do not lead to a degree, many at times being bootied out of school just as soon as their athletic eligibility expired.

The main danger in the present system of granting athletic scholarships to varsity performers, Dr. Gallagher believes, is that "young men are taught that all right to lie, to fake, to cheat, to get away with doing things that are wrong and not opposed to positive oaths of allegiance to the constitu­tions of the country or the state.

In a showing of unanimity, considering the fact that many southern schools were represented. NSA called for an immediate start in enforcing the Supreme Court decision on segregation in the schools. However, it recognized that each area would have to be treated differently and that education was as, or more, important than legislation in speeding desegregation and integration.
