Inspector Murphy's Dean of Police Studies

Inspector Michael J. Murphy, commanding officer of the Police Academy, has been appointed by the Board of Higher Education as Assistant Dean for Police Studies at the Baruch School.

Inspector Murphy has made a cooperative relationship has been set up between the Academy and the City College of New York. The Academy will now be built on city-owned land on Third Avenue and 20 Street.

New York State trooper. An alumnus of the School, he also possesses a Bachelor of Laws degree from Brooklyn Law School.

When plans for the proposed affiliation between the Baruch School and Police Academy were first made known last year, it was expected that a joint building would be constructed with increased facilities for both students and police trained. The building was to have taken up the entire block, with the exception of the Domestic Relations Court.

However, the Board of Estimate, on September 29, decided to go ahead with the joint building plan. It was opposed by City Budget Director Abraham A. Beame, who felt that the Baruch-Academy combination was to expensive and involved displacement of too many families and businesses.

The Academy will now be built on city-owned land on Third Avenue and 20 Street.

Jazz Concert Features Dixie and Progressive

By A. L. Goldberg

Pauline Edwards Theatre will be the site of the first Student Council Jazz Concert, Saturday evening, November 19. Tickets, now on sale at $1 for orchestra and mezzanine, and $1 for balcony.

Featured at the affair will be Lee Konitz's Progressives and Bill Davison's All Stars. Also featured is Carmen Romano, a vocalist.

Lee Konitz's Progressives have been seen at Birdland and Basin Street, playing modern jazz; while "Wild" Bill Davison's All Stars are currently featured at Eddie Condon's, playing Dixieland. They have also been seen at the Central Plaza and at Basin Street Restaurant. Female vocalist, can currently be heard at the Waldorf-Astoria Hotel.

The two hands will alternate throughout the entire show, which will reach its climax with a jam session—the two groups playing together.

Elevator 'Crash'?

Mechanical Failure Blamed

It was just a routine trip, repeated a thousand times during the school year when elevator No. 5 began its descent from the 8th floor, with a capacity load, last Wednesday. But this was not destined to be a routine trip, for elevator No. 5 was heading for a crash landing while its operator was powerless to prevent it.

Gliding smoothly to the 3rd floor, the ill-fated No. 5 suddenly went out of control as it reached the main landing. The car plummeted to within a few feet of the bottom of the shaft, leaving it about four feet from the level of the first floor. Darkness filled the car, as the electrical system failed, but in spite of this sudden turn of events the occupants remained calm. Rescue operations went into effect immediately, and a short time later all of the victims were removed, not a one was seriously injured.

At this writing there has been much said out explanation as to the direct cause of the accident. However, technical failure has been checked. In June the elevator operators were certified as being safe. The most popular theory is that the elevator was lowered, and that the operator was unable to close the gate. In the opinion of most of the students present at the time of the accident, the operator did not close the gate, but that he could not because of the system. The entire story is still shrouded in a cloak of ambiguity, especially as to the direction in which the elevator was originally traveling. Jerry Arrow, one of the occupants, says he started out from the 8th floor with the intention of going upstairs, and that the car was going to the 5th as the bottom of the shaft with a great deal of velocity, and hitting with a tremendous impact.

One young lady reported a torts case, injuring some of her friends, and that her watch flew off as a result of the impact. Dr. Frank Thorne of the Economics Department, reported that this type of thing has never occurred during his time at City College.

Immediately after the crash an anxious rescue party into the car and inquired whether everyone was all right. When some morbid victim replied, "No, we're all dead!"
Benowitz to Discuss Right to Work Laws

Mrs. Miller named the Baruch School best woman, the second such honor she has received. She is thereby entitled to sit in a flower booth at Barnum Fair on the 9th floor of the School.

Institute for International Criminal Law, of the Chicago Institute of Industrial Workers, will receive the Certificate of Fellowship for his contribution to the world's peace movement. This was presented by Hy Smith and Doris Rabbiner for class rings are being taken in anticipation.

Letters To The Editor

Activity Fair

Dear Editor:

The Activity Fair held yesterday was \[...\] a great surprise the theme of the activities. There was a wide variety of activities, from soft-drink sales to debates, that provided a great opportunity for students to participate in a fun way.

Sincerely,

[Name]

President of the Student Council, Inc.

Final Exams

Dear Editor:

I will greatly miss the theme of the exams this year. Some of the department chairs have expressed concern about the exams, but I don't think they will be significantly affected. Even if there is change, I don't think it will be as drastic as some people believe.

Sincerely,

[Name]

Chairman of the Department of Economics

The Boss

Wednesday, November 14

Dear Editor:

I maintain a proper and fair way to resolve the exam results when the Activity Fair is going to be held this year. I believe that the exam results should be reviewed by a committee, and the Activity Fair should not be the only way to address them.

Sincerely,

[Name]

Dean of the College

Student Sets Us Straight

Dear Editor:

I don't feel the exam results are being treated with the proper respect they deserve. The Activity Fair should be the primary focus, and the exams should be considered as a secondary issue.

Sincerely,

[Name]

President of the Student Council, Inc.

Myer Says We Need More Unafraid, 'Maladjusted' Prosfs

"We are living in the age of conformity. Both teachers and students are afraid of being different, even in thinking, and in seeing unpopular opinions," said Professor Jack Myer, chairman of the Department of Journalism. "We need more unafraid, "maladjusted'' teachers whom we cannot conform to a standard pattern."

The outspoken instructor, who is one of the most interesting personalities among the students, is certainly the most stirring of all.

But Myer believes that everything should be left to the students. "I am not sure we can live without them, but I am not sure we can live without them."

Myer continued, "I think they are the ones who are going to make the world."
ATTENTION SENIORS!

The Student Council has opened the Student Council Tix Room for those students who wish to obtain tickets to the University Women's basketball games. Tickets are available to both sexes, will feature women's basketball, and includes dinner, dancing, and displays that General Electric developed to improve women's basketball. Tickets are $2 each, every week.

"THE NEW LOOK"

You Can Earn $50-$75-$100 During the college year

This excellent income is available to qualified senior students. Regular work is 20 hours per week. It is available during the day and evening. Required hours may be reduced in the summer and holidays. A health insurance policy is available. Pick up application form at Counter "Stith Kings Point for Saint Mary's, Room 111, from 9 a.m. to 5 p.m., Monday through Friday.

Autocourse: Now Available

The Auto Course has opened the second of three autocourses available to students in this term. The course, which will be held in the new building on the upper floor, will be taught by Mr. Jenkins. The course is designed to provide students with the skills needed to operate an automobile safely and efficiently. It is open to all undergraduate and graduate students.

Selected Shorts

The Auto Course has finally issued the final program of the "Selected Shorts" series. This series features short stories selected from various authors, including Elmore Leonard, a well-known writer of American literature. The series is designed to provide students with a diverse range of reading material.

Young engineer decides what colors are best for G-E reflector lamps

Which color of light makes people look natural? Should a blue light be used more often than a red? What kind of effect does a red light have on merchandise?

In recent years, color lighting has become so important in stores, restaurants, theaters, and displays that General Electric develops a line of new easy-to-use color reflector lamps for this market.

The man responsible for deciding which colors are most effective for these lamps is 29-year-old Charles N. Clark, Application Engineering Color Specialist for General Electric's large lamp department.

Clark's Work is Interesting, Important

In a recent series of articles, Clark made a critical appraisal of literally hundreds of color film strips to decide the colors that produced maximum results but were still suitable to high-production techniques, practical lighting and simplified selling. This experimental work also had to take into account all the information on human perception of colors.

25,000 College Graduates at General Electric

When Clark came to General Electric in 1954, he had already known the work he wanted to do. By age 25, the 25,000 college graduates who have been given this chance are growing rapidly. General Electric has long believed this. When he worked for General Electric, young minds are given freedom to make progress, everybody's individual interests are developed, the individual, the company, and the country.

City Opposes Hunter Monday For Met Soccer Supremacy

The Metropolitan Soccer League's two powerhouses, City and Hunter Colleges, will meet head-on at Lewisohn Stadium Monday at 3:30 in the game that will decide the conference crown.

Only a Hunter victory will bring the Hawks their first league championship, as they lead the standings. Coach Harry Karlin's undefeated eleven has a 5-0-1 mark while the Bronxites stand at 4-0-2. A tie will keep the standings constant and return the Beavers loop champs for the third straight year and for the fourth time in the last five seasons.

Affable Hunter coach, Morton Thompson, (not the "National" man), has a strong forward line featuring a group of good scorers, but admits to a "real weakness" on defense, where his backs lack the tackling abilities of such far-booting Beavers as Robert Lestremet and Eddie Thompson.

"We try to get around this," Thompson said, "by having our defensive running work as possible to get the ball up to the forwards.

"Once we're on the attack, things are different. I have four good scorers who can worry the opponent's defense. My best man is Gabe Schliffer, the center half-back, and I'll tell you right now that you won't swap him for your Vahe Jordan or even your All-American, Johnny Koutsanis"

This boy Schliffer," Thompson continued enthusiastically, "is the best all-around player in the East. He's as fast as a bullet, can set up plays and do plenty of scoring himself. In addition, he's got good on defense. He bottled up Pete Meyer of Queens when we beat them, 2-0. Meyer is the All-City half-back who gave the Lavender fits when Queens tied City earlier this year to mar the Beaver's perfect record. The only rub is that Schliffer will probably transfer to City next year to take engineering

Thompson also has Bob Perez, Gabriel Diaz and Lance Smith to complement Schliffer on the Hawks' firing line. Richard Borow is a solid goalie whom Thompson ranks as the best in the Metro area.

"The show must go on!" And so it did last Saturday at Van Cortlandt Park in the Bronx when Iona College's cross-country team defeated City drenched in rain. O'Donnell Joshua of Iona raced across the finish-line with a time of 27:16 to cop individual honors in the dual meet. The Gaels' John Conolly and Jack Goldstein also took second and fourth positions with times of 27:35 and 28:20 respectively.

The first Beaver harrier to Joshua, earlier this season, ran a 26:45 time against a Montclair State runner, and was second to Joshua in the Gaels' dual meet earlier this season.

Robert Lestremet

Beaver Cindermen Lose; Gaels Victorious, 22-34

"The show must go on" And so did last Saturday at Van Cortlandt Park in the Bronx when Iona College's cross-country team defeated City drenched in rain.

The first Beaver harrier to score was Bill Kowalski as he placed third with a time of 28:32. Rick Hurford, for the second straight week, finished in fifth place. It took him 29:32 to do it.

Iona Cindermen blanked the Beavers' second setback.

The New York Times

SPORTS

Wednesday, November 9, 19--

Twelve Teams in Meet:

Harriers to Compete

For Crown Saturday

With approximately twelve schools of almost equal caliber entered in the Collegiate Track Conference cross country championships, Coach Harry deGirolamo's harriers will have a tough time trying to defend the title brought home last year by the Beaver track and field squad.

When the racers toe the line at Van Cortlandt Park Saturday, the Lavender runners will once again try to put forth the well-balanced team effort that has won previous meets.

Coach deGirolamo, who is serving his first year as Beaver track and cross-country mentor, expressed the hope that the CCNY runners will once again show the spirit that has enabled them to defeat such foes as Hunter, Adelphi and Queens.

Although he has not heard about some of the schools in the meet, the Lavender coach stated that he thought that Iona, Adelphi and Queens should provide the Beavers with some tough opposition. He feels, however, that the winner will be a tough nip and tuck battle among the remaining schools.

Among the teams slated to provide the Beavers with some opposition are Upsala, Hofstra, New Britain Teachers and Wagner. Although little information is available about this group, they are known for their consistency in fielding good teams.

"This meet, although primarily a team contest, should provide an interesting duel for individual honors. City's Bill Kowalski, Brian Quinn, Adelphi's Ray Rich and Lou Vlogiantis; Iona's O'Donnell Joshua and John Conolly and Hunter's Joe Vogel are some of the runners who, in any given meet, can beat most corners of them have run the five courses faster than others. Coach deGirolamo, who is working against the handicap of comparative times are uncertain, is attempting to make an accurate estimate of runners. In this, he hopes that comparative times are uncertain, that competitive sport and "that a team's time is only as good as opposition."

Frosh Seek Hoop Berth

Although the team is yet unorganized and the players still interested in basketball, Dave Polansky, coach of the freshman basketball team, has already selected a few players for his squad out of the 75 hopefuls that he could pull in.

With a lot of work, Alex Delow, a Downtown student, "can develop into a fine pivot man," according to Polansky. Anot Baruchin, Steve Marks, was of those selected. The other two are Julio Delatorre, a starter for Baruch, and Queens should provide Holman Optimistic After One Week of Practice

"We may surprise," this is the opinion of Coach Nat Holman when queried recently as to the forthcoming basketball season. He added that the team has exhibited "nice spirit; good team play and, with a lot of work, will work out fine."

Holman concedes that the main factor working against him is time. With less than a month to go before the season inaugural, and with only one week of practice under his belt, he must mold a solid nucleus and develop a strong reserve outfit.

Newcomers Hector Lewis and Teddy Brimat are looked to for a solid nucleus and develop a strong reserve outfit.

Thompson also has Bob Perez, Gabriel Diaz and Lance Smith to complement Schliffer on the Hawks' firing line. Richard Borow is a solid goalie whom Thompson ranks as the best in the Metro area.

"This boy Schliffer," Thompson continued enthusiastically, "is the best all-around player in the East. He's as fast as a bullet, can set up plays and do plenty of scoring himself. In addition, he's got good on defense. He bottled up Pete Meyer of Queens when we beat them, 2-0. Meyer is the All-City half-back who gave the Lavender fits when Queens tied City earlier this year to mar the Beaver's perfect record. The only rub is that Schliffer will probably transfer to City next year to take engineering.

Thompson also has Bob Perez, Gabriel Diaz and Lance Smith to complement Schliffer on the Hawks' firing line. Richard Borow is a solid goalie whom Thompson ranks as the best in the Metro area.

"The show must go on!" And so it did last Saturday at Van Cortlandt Park in the Bronx when Iona College's cross-country team defeated City drenched in rain.

O'Donnell Joshua of Iona raced across the finish-line with a time of 27:16 to cop individual honors in the dual meet. The Gaels' John Conolly and Jack Goldstein also took second and fourth positions with times of 27:35 and 28:20 respectively.

The first Beaver harrier to Joshua, earlier this season, ran a 26:45 time against a Montclair State Teachers College team, a good deal faster than his winning time against City. Brian Quinn of City was also hampered by the adverse track conditions. Oddly enough, Kowalski and Conolly surpassed their season's highs by more than 10 seconds each.

The leading finishers:

1. Joshua, Iona... 27:16
2. Conolly, Iona... 27:35
4. Goldstein, Iona... 28:20
5. Hurford, CCNY... 28:32
6. Quinn, CCNY... 28:40
7. Karpinsky, Iona... 29:59
8. Hurford, Iona... 30:12
9. Crossfield, CCNY... 30:29
10. Natal, Iona... 30:48
