Parker Cites U. S. Mid-East Blunders

Professor Daniel P. Parker, of the Government Department, accused the Eisenhower administration of "blundering" in its Middle East policy, at an "Arms for Israel" rally held Thursday in Lounge A.

Professor Parker, after discussing both the moral and practical aspects of the aid to Israel controversy, concluded that Israel must be supplied with more arms in order to maintain democracy in the Middle East.

He said that this question must be made an election campaign issue and that every candidate must go on record. He urged a letter writing campaign calling for the "Armistice" and said that at least in this community we shall go on record and for all that we support the "defended" and oppose totalitarianism.

Nathan Turkeimer, speaking on behalf of the American Conservative League, took over the crowd that he too favored arms for Israel. As a former New York World Telegram and Sun, he had been in the Middle East many times and he felt the Arabs were on throwing the Israelis under the water.

Tree Planting Starts Monday

For the first time in the existence of the Baruch School, a small bit of campus green will be added. Monday at 9:30 a.m. the 22 trees will be planted around the Baruch School quadrangle. The ground for the trees was broken yesterday.

The trees will be of the same species, which are the kind found on Park Avenue in the city. They are from twelve to fifteen feet tall.

The program for planting the trees will include Acting Dean Lewis Mayern. They will be planted by the Environmental Club of the City College. Once installed, the trees will come under the jurisdiction of the Park Department, which will trim and sprinkle them.

The order was placed on January 3 through the Purchasing Department of the City College.

In addition, tours of the show will be sponsored by the Student Council. A seventeen-piece band will provide the evening's entertainment. The show will be held Saturday evening April 18 and will be followed by a reception in the auditorium.

For tickets, see Howie Lipton, welcome to the show. The show will be held Sunday evening June 18, 1956, at 8:30 in Pauline Edwards Auditorium.

**Inter-Club Board Attacks Resolution; Lazurus Doubts Students**

Qualifications

A meeting of the Inter-Club Board on Monday afternoon to place a resolution on a School-wide referendum last Wednesday's Board meeting. Lazurus defended his resolution, saying that the resolution would provide a mechanism for the students to vote on important issues in the School. However, after the move to rescind the referendum, Lazurus said, "I think it would be in the best interest of the students to have a referendum which is a referendum on the motion!"

The motion to rescind the referendum was moved by Council President Harvey Isaacs, the motion was seconded by Lazurus. The motion to rescind the referendum was defeated by a vote of 9 to 6.

**Elective Participation**

The Board overwhelmingly supported the resolution, saying that the resolution would provide a mechanism for the students to vote on important issues in the School. The Board also approved the resolution, saying that the resolution would provide a mechanism for the students to vote on important issues in the School.

Kwarter's Korner

By Richard Kwarter

It seems so. As the rest of the school bustles with the sound of hard labor and chaos, the halls are alive with the scent of success.

Apparently, President Brown himself has been seen strolling about the halls, inquisitive eyes scanning the surroundings, as if searching for something.

And yet, it's different. The feel of the school is quite different now. The usual hustle and bustle has given way to a more relaxed atmosphere. People mull around, chatting and laughing, as if they're savoring the moment.

But why? What could possibly cause such a drastic change? It's hard to say. Perhaps it's just a change in the weather. Or maybe it's just a change in the school itself, trying to adapt to the changing times.

The above is just a speculation. I myself have no idea what's going on. But one thing is for sure. The school is alive and well, and it's going to keep on going.

Here Come the "Girls"

By Jerome Greenberg

A week ago in the sports pages of the metropolitan paper, the story of the basketball team was covered in depth. It was a story of hard work, of dedication, of teamwork.

But there was one thing missing. The story was devoid of the women's perspective. It was as if the women were invisible, as if they didn't exist.

I, for one, am tired of this. I demand that the women's perspective be included in future stories. If we are to be treated as equals, then we must be included in all aspects of life.

Just the facts M'am:

District Attorney's Bodyguard

Is Baruch School Student

New York City District Attorney Frank Hogan's personal bodyguard, Joe Nardoza, is a student at Baruch College. A detective for many years, he worked on some of the nation's most famous cases. Detective Nardoza is one of the few police officers who have been involved with a great deal of police work.

He has received many commendations from the Police Commissioner and the Governor for his work. He has been praised for his courage and dedication.

The bodyguard of the District Attorney is an important position. It requires a great deal of training and experience. Joe Nardoza, who was a police officer for many years, is well qualified for the job.

An atomic reactor running at full efficiency and heat...
Holman Lauds Squad As Season Ends; Levy, Jensen, Schefflan Lead Scorers

Despite his team posting its worst record in his thirty-five years of coaching at City College, basketball coach Nat Holman said there was nothing but praise for his squad after it had completed the season.

"I have never had a team that tried as hard as these boys have," said Holman. "They were undermanned in almost every game they played in, but they never stopped hustling. Although our record was 3-15, with a couple of breaks, we have approached the .500 mark."

Holman's appraisals were given several days after the team announced that he had applied for a sabbatical leave.

The City rooters knew before the start of the season that the Beavers were in store for some rough roads toward realizing a respectable win-loss percentage. The Beavers were saddled with ineligibilities and lost its two high scorers from last season's squad, Meric Short and Herb Jacobson, via the graduation route.

The cheerers of Allegro can point out that, although the City team won only three games this year, it played the daylights out of some of the top metropolitan teams with its outstanding defensive combinations, and hustled. The Beavers lost to Fordham by only three points, and Miami, 5-4. Both teams are headed to post-season tournaments.

Beaver boosters can look back to this season as the one in which they set two records, and hustle. The Beavers hoopsters can look back to this season as the one in which they set two records, and hustle. Although our record was 3-15, with a couple of breaks, we could have approached the .500 mark."

City's Sabermen Win IFA Fencing Honors

After two days of fencing in the Intercollegiate Fencing Association tournament at the Hotel Concourse Plaza in the Bronx, the City College Fencing team captured second place undisputedly, for the first time in the school's history, the team championship and individual title in the sabre division.

In Friday and Saturday night affair, the Beaver sabremen, consisting of Elliot Mills, Martin Wrotbltch and Manny Fineberg, scored 24 points in the round-robin that included representatives of twelve colleges. The trio outdistanced a squad of City sabremen who tied for third place honors.

To Americans in the saber division, to be added to the City's team was announced that he had applied for a sabbatical leave.
