Council Blood Bank Drive

Tomorrow on Ninth Floor

The date of this semester's Blood Bank drive has been changed from April 17 to tomorrow, it was announced by Howard Eckstein, co-chairman of the Committee, the club donating the largest amount of blood. As the second to the group giving the most blood percentage-wise.

Suspend Seven Editors

Of Uptown Newspaper

By Phyllis Zlotogora

President Jared Jussim said that "although the Campus is at fault on suspension of a newspaper publication, the action should have been confined to those responsible for the issue." The controversial issue appeared Wednesday along with a bogus issue of Observation Post, another Uptown paper, which was also printed by the Campus.

President Buell G. Gallagher has stated that he is completely ashamed of blood, as is the second, of the group giving the most blood percentage-wise.

Sammy Davis Jr. to Preside

As King of Mardi Gras Fete

Sammy Davis, Jr., star of the Will Mastin Trio, has been selected to reign as "King of the Mardi Gras." Davis is currently starring in the Broadway production, "Mr. Wonderful."

The theme of the Mardi Gras, which will take place May 5 and 6 in "New York City," is the name "Skyline" has been given it.

At the conclusion of the evening's festivities, the "Skyline" variety show, featuring students and professional talent, will take place in Pauline Edwards Theatre. During the show, Davis will receive a "Boozer Award" to symbolize his being chosen "King." He will share his throne with the Baruch School queen who will be crowned as "Mardi Gras Queen."

Sammy Davis, Jr.

SC Dance

The five finalists for "Mardi Gras Queen" will be selected in Hansen Hall at the Student Council "Conjuction Ball" Friday evening. Tickets are free and may be obtained in 921.

All proceeds of the Mardi Gras will be divided equally between the greater New York Fund and the City College Fund.

Twelve floors of the building will be filled with booths, games, exhibits and displays relating to the general theme, "Skyline." A popular dance band will provide music all night in Hansen Hall.

Baruch School queen will be presented by the Will Mastin Trio, has bumped into a suspicious accident to gain a niche as one of the top stars of show business. Davis was born in 1926 in New York, sings, dances, tells jokes and mimics other personalities.

Two Announce Availability As Election Season Opens

With the opening of the election season, two candidates have already drawn candidates and a possible third. Mrs. Harriet Bensch, the President, and Mrs. Ram Bensch, the President, have announced that they will seek the presidency of the Student Council. Both are candidates for the presidency of the Student Council.
“Membership List” Controversy Discussed by Two Instructors

First of a Series

Leader-Student. Student leaders and other officers in the student union system often find themselves in difficult situations because of their position. To illustrate this point, two instructors have discussed the problem of the "Membership List." They are used in connection with college publications, other publications, and college publications.

A college newspaper, which serves as a medium for communication, has the responsibility to be truthful. The student press at the Texas University is responsible for belonging to one of the few institutions in the country where a person, through the press, may be sent through the mails. Its membership lists for student organizations are used for curricular purposes of the university.

The editors of Campus have taken full advantage of the opportunity, but they have not used the information to assist the student press. We are not permitted to discuss the suspension of the newspaper, and the suspension of the editors from classes.

We don't believe that this suspension was disregarded. The newspaper, and the suspension of the editors from classes, and the suspension of the editors from classes.

We believe that the editors were forced to accept the suspension as a result of the newspaper's policies. They have not been forced to accept the suspension, and the suspension of the editors from classes, as a result of the newspaper's policies.

We hope that the future editors of Campus, or TICKER, or any other paper, will realize that "freedom" does not mean "license."

What young people are doing at General Electric

Young chemical engineer works on new ways to make silicones

Silicones are a new class of man-made chemicals with many unusual properties. Most of the silicones that are in common use today were developed within the past fifteen years. Chemists, who have been working with silicones for many years, have found that they have some unusual properties that promise to make them important in many fields. For example, the fact that silicones are not flammable has made them important for use in electrical insulation. In addition, the fact that they are not attacked by many chemicals has made them useful for use in metal cleaning and other applications.

A young chemical engineer at General Electric is currently working on the development of new silicones. He has been studying the properties of silicones and is trying to find ways to improve their performance. His work is part of an ongoing effort at General Electric to develop new and improved materials for use in a wide range of applications.

Frank Summers, the young engineer, has a bachelor's degree in chemical engineering from the University of Michigan. He joined General Electric in 1954 and has been working on the development of new silicones.

CCNY to Play Foyl AEC

With the game against CCNY, the team will be back on the road. The team played well in their last game and will be looking to continue that momentum in their next game.

A Record Setter: Sorbera Wins Four Letters For Second Straight Year

Sorbera, the first man in City College history ever to win four varsity letters in one sport, made a big splash last fall, making him a four-year man for two straight years, and writing himself into the record books at his alma mater.

The story of his success is the story of a young man who refused to give up and who never let his dreams slip away. Sorbera, who is now a senior at City College, first began his collegiate career in 1953 as a member of the football team. He went on to earn varsity letters in football, track, and baseball, and was named to the All-City College football team in 1954.

His success on the field was not limited to sports. He also excelled in the classroom, earning a cumulative grade point average of 3.5. This year, he was named to the All-City College academic team.

Sorbera's dedication to his studies and his athletic career has earned him the respect of his peers and his coaches. He has been a role model for other students at City College, showing them that hard work and determination can lead to success.

Rain Hurts Season Openers; Tennis Team Awaits Queens

"Weather, weather, weather."
That old demon, the weather, played havoc with City College over the week-end as a combination of rain, snow, sleet, and hail ruined the openings of the baseball season, the track season and caused a postponement for the lacrosse team.

For the baseball team, the weather on Saturday, March 31, the game against Wagner was cancelled. Last Saturday, the game against Marymount was postponed and, yesterday, the City College-Fordham University baseball game was ruled off because of wet grounds. The Beaver nine will meet Columbia tomorrow at Baker Field, if all is well. Game time is 3 p.m.

In track, the contest that was scheduled for Saturday against Hunter was called off and rescheduled for yesterday. And yesterday, the New York Athletic Club Mass Meet, which was supposed to be a meet for high school and college runners, was cancelled due to weather.

Beavers to Use Babe Ruth Field As Home Diamond

It didn't come as any shock to the City College baseball team when their conference with the Johnnies was postponed Saturday. As a matter of fact, at the Beaver players welcomed the cancellation.

Last year, St. John's defeated City College twice in the Metropolitan Conference and won the league championship. This year, the City College baseball team ended its season without a single loss and won the 1957 championship.

The first five men on the Beaver tennis squad are all veterans from last year's team and thus have the added experience needed for a winning combination. Allan Jong, at this point, occupies the number one position on the team and is followed very closely by Gary Ferar. The number two spot is held down by Walter Ritter and Mei Drimmer.

The only other on the tennis team who will see action this season are Roy Fleischman, a Downtown student who doubles as manager, and Gil Levitt. After the Queens contest, the Beaver next foe will be Manhattan. The game is scheduled for Saturday at the First Street and Gerard Avenue, Bronx.

Senior and Soph Champs Decided In Intramural Basketball Contest

The Intramural Board's schedule of events went through another rip-roarin' start Thursday, such tournaments as as basketball, softball, and swimming were featured in its weekly bill.

The basketball tournament, one game short of completing the quarter-finals, saw class champions decided in Hansen Hall. In a tight, well-played contest, the Red's Last Chancer defeated Sax '59, 78-68. The Beavers defeated its own eight-man team by one point, 76-75. The final score was 77-43.

The team reflected the strength of the committee as the red's last chance defeated Sax '59, 78-68. The Beavers defeated its own eight-man team by one point, 76-75. The final score was 77-43.

Richard Nausch

13 points, won himself first place honors and a gold medal by capturing the 60-yard breaststroke and the 40-yard kickboard races in the semi-annual Men's Swimming Day. Warren Vogel and Dave Altnau tied for second place honors with nine points apiece. They each won a silver medal.

Richie Nausch, president of the Intramural Board said that the enthusiasm had been greater this semester than it had been at any other time since being in the Barnard School.
