President Buell G. Gallagher will be the principal speaker today at the Baruch School's annual Fall Convocation held in Pauiline E. Thebaud Theatre at 3:30-4:10 a.m. Emanuel Saxe, dean of the College, and survey issues, president of Student Council, will also speak at the event.

The Convocation ceremony serves the purpose of bringing the student body and members of the faculty together once each year to hear officials from the college and other outstanding figures of the civic, educational and national communities discuss matters relevant to the students. Announcement last of the recipients of Deans List and of Second Year Honors are made during the ceremony of rededication.

Renamed School

In the Fall of 1953, a convocation was held celebrating the renaming of the Downtown Center's honor of Bernard M. Baruch, a graduate of the Class of 1896. At that rededication ceremonies, Chairman of the Board of General Motors Corporation, Alfred Sloan, Jr. spoke on "The Importance of Knowledge." A plaque was mounted on the wall of the College's University. This plaque is currently displayed on the front of the building at the Street entrance.

The first official Fall Convocation was held in 1964, a year later, by then Mrs. Eleanor Roosevelt spoke as a guest. At the ceremonies, other prominent citizens such as Police Commissioner Stephen P. Kennedy and Deputy Mayor John V. Lindsay delivered major speeches.

Due to the event, classes will be held at irregular hours, according to the schedule.

** Fees Money Distributed **

Disbursements of a total of $5,777.58, representing the budgets of Student Council, the Intra-Mural Board, THE TICKER, and the College's extra-curricular program, will be distributed to the student organizations, Wednesday, September 27.

The sum distributed to the three student organizations was $2785.53. Student Council received $3317.00, THE TICKER received $3504.50 and IMB, $561.50.

The amount of money available for distribution this semester was due to a decrease in enrollment. $68.00 below the figure distributed last term. Thus, each organization was forced to take a cut from the amount of money it received last semester. Student Council received the largest decrease, $348.00. THE TICKER, $317.00 and IMB, $24.00.

This term, at last semester, there was almost no disagreement as to how the money should be allocated. This was because the three students on the committee, Harvey Isaacson, president of Student Council; Visconti, president of IMB and Richard Kwartler, editor of THE TICKER, had agreed before the meeting on the amounts their respective organizations would receive.

** Conducted Last Term: **

** Complete Extra-Curricular Study **

The results of a survey to determine the extent of student participation in the extra-curricular program of this School have recently been made public. The survey was conducted, throughout last semester, by the students of the Business Administration Department. Professor David Valinsky, the dean of the department, presided at the project and the survey was conducted by junior students of the department, with the assistance of the Departmental Secretary. The report on the findings was divided into five sections. These sections included: The Characteristics, Activities, Students, and Other Data Obtained. The survey also determined the characteristics of the students, their activities, activities of the student body, etc. of the student body.

** Concerning These Inactive in Extra-Curricular Activities **

Shelton Brand, vice-president of Student Council, has announced that a committee will be set up to establish a program designed to "fill the gaps" in the School's extra-curricular program, as shown by the report. The students who compiled the survey are: William Kingsley (Project Director), Jack Friedman, Irving Egan, Linnus Krasnowitz, Viktor Kassmar, Martin Dicker, Harold Orenstein and Howard Katz.

** Opportunities for Study Open to Upperclassmen **

By Phyllis Zlotogorski

Senior planning to continue their college education on the graduate level, may find an opportunity to do so by means of fellowships and scholarships for study both in the United States and abroad.

In regard to fellowships at the College, the Board of Higher Education has made available several appointments as fellows at the Baruch School. Fellows will be selected on the basis of their potentialities as scholars and teachers. They will be assigned a service load of not more than half their normal load for the function that they will perform, according to the College's graduate bulletin. The appointments will pay $1770 per year, plus free tuition.

In the past, fellowships have been given in the Law, Accounting and Business Administration Departments. For additional information, students are advised to consult the chairman of the department from which the applicant is sought.

The New York Foundation is offering scholarships in loan form to City College seniors and graduates based upon their scholastic achievement. Students who receive the loans are expected to reimburse the Foundation at the conclusion of their studies. In addition, no interest is charged.

Last year, the New York Foundation awarded twenty-nine such loans. Scholarships to colleges of other countries are also being offered. For the second year, the North Atlantic Treaty Organization will sponsor a scholarship program to further the study of the common traditions, historical experience and present needs of the North Atlantic community.

** Harriman Asks Federal Grants **

Governor Averill Harriman proposed last week a system of federally financed college scholarship programs for the United States whose parents lacked the means to finance them. In such a program, he said, the students would select the colleges and the "full cost of education ..." would be paid by the Federal Government. The governor also said the federal government should supplement existing private and state scholarships.

** Baruch School of Business and Public Administration **

---

** City Commission Reduces Request for College Funds **

By A. L. Goldberg

The Board of Higher Education has requested $26,430,660.80 for the municipal colleges from New York City for the fiscal year 1957. This amount was reduced to $21,598,508.50 by the City Planning Commission, and is subject to further revision by the Board of Estimate, the City Council and the mayor.

Of the latter sum, $502,500 is earmarked for the Baruch School for the purpose of converting direct current to alternating current. This is a necessary prerequisite to the installation of a fluorescent lighting system throughout the School. Fluorescent lights will work on alternating current only. Dean Saxe said that the conversion will take about one year.

Allocations

Of the remaining $15,880,158.30, Upton Town College will receive $10,444,958.50. This leaves $5,042,610 for Brooklyn, Queens, Hunter and Staten Island colleges.

At the City Planning Commission hearing Wednesday, Dr. Joseph B. Cavallaro, chairman of the BHE, said, "These provisions we sought for and you recommend were not outstanding colleges to maintain the high academic standard they have achieved, but for them to fund a project in which their students could do work which can be done in other colleges in order to maintain a demand for higher education that nothing can hold back."

The breakdown: BYU, 60,000; college of Fine Arts, 50,000; Uptown City is as follows: for the new Technical Building, $71,100; for rehabilitation of existing buildings and facilities, $644,425; for improvements on South Campus, $240,000; for repairs to the central heating system, $1,575,355; for plans to improve the Chemistry Building, $225,000; and for the construction of a new administration building, $800,000. The money appropriated to the Upton Center adds up to roughly twenty-one, ten thousand dollars, the amount of money asked for the Baruch School.

The breaking: 1957 $1,125,000 for the City, which requested $342,000 for itself, will use the money to redeem and refund its new headquarters.
Guidance Publishes Catalogue on School

The second edition of a pamphlet entitled "For Careers in Business" was released last month by the Baruch College Guidance Department, under the direction of Assistant Dean Charles J. Eberhardt. This booklet was prepared by the department with the assistance of a committee of high school counselors and the faculty of Baruch College.

The pamphlet, which is designed to help high school students and their parents make wise decisions about college, includes information on the various fields of business, the schools in which these fields are offered, and the specific courses that are required. It also contains a section on how to study for entrance exams and how to choose a college.

The pamphlet is divided into two parts. The first part is a directory of colleges, listing the names of all the business schools in the country, along with their locations, tuition fees, and entrance requirements. The second part is a guide to the various fields of business, including accounting, marketing, finance, and management.

The pamphlet is available for 50 cents at the Baruch College Guidance Office, located on the second floor of the school. A limited number of copies may also be obtained from the guidance department of the student's high school or from the guidance office of the community college in which the student is enrolled.

Moms and Pops

By Jerome Greenberg

When you've been the accompanying standard equipment inside a house, there has been a shift in the psychology of the girl. The girl now enjoys a different relationship with her parents. The girl who used to be seen as a compliant child is now seen as an independent individual.

Moms and pops may be related standard equipment, but the dedication cannot be classified as standard. While there is a need for this equipment, it is not viewed as the only source of comfort and security. The girl's need for this equipment is great, but it is not the only reason for her activity.

To ensure that these relationships are maintained, the survey concluded that "It may be said that if properly, utilized can show the way to improving the attitude of the students." The survey was conducted by a bus company in regard to estimating their level of activity in the area.

Wostl, CCNY Soccer Star, Learned Skills in Germany

By Joe Cooper

Wolfgang Wostl, at twenty-two, is already an accomplished soccer player of two continents. Wostl was regarded by his coaches as being young and gifted in America, but he has followed those expectations.

Wostl was accepted to study soccer in Hamburg, Germany, where he was placed on the "prodigal" squad of one of Germany's better soccer teams. A junior team in Europe.

At the eye of Maximo, Wostl was immediately noticed by the German agent and other scouts before he traveled to Germany. The school was then changed to represent Germany since the school was considered by many to be the best in Europe.

Perhaps the most important thing about Wostl is that he was able to learn the techniques and equipment used by the German soccer teams on his travels. Although there are few soccer teams in America, Wostl has shown that he is capable of enjoying the game.

Football, whether you realize it or not, is one of the most important elements of a city's social life. A local team at the base of a building will often draw a crowd. But, one may draw more crowds, if operated properly.

Although there are few soccer teams in America, Wostl has shown that it is possible to operate a team from the base of a building.

Football is a sport that requires a lot of financial support. Without it, the team cannot continue.

The fully-signed poster will be presented to representatives of the team. It is the team's responsibility to preserve the poster in the same way that the team's name will be preserved.

Wostl has been appointed as the Aluminum Association's team manager for the season of 1945.

A 1945 graduate of the City College of New York, Wostl has been appointed as the Aluminum Association's team manager for the season of 1945.

City Booters Maul Queens For Third Straight Victory

Novak Masonovich, on his way to a new Metropolitan Soccer League scoring record, booting four goals, and Wolfgang Wostl, who assisted three goals and scored one himself, led the City College soccer team to a 7-0 win over Queens College Saturday at the latter’s home field. This was the third consecutive victory for the Lavender and gave the team the record in league play. Masonovich now has nine goals in three games with five league tilts remaining on the schedule. Johnny Koutsantanou set the record of thirteen goals in one season in 1954.

The Beavers had trouble getting started and couldn’t score in the first quarter. The Knights, with a team composed largely of inexperienced ball players, were nevertheless “up” for the game and hustled throughout.

The game continued scoreless until Masonovich scored his initial goal at the 14:40 mark. The center-forward, receiving a pass from Wostl, and then kicked and broke the rebound past the goalie’s out-stretched hands.

Send Shines
Billy Soud, City’s inside right, put on a show of fancy footwork reminiscent of Bob Cousy’s ball-handling skills on the basketball court. He eluded three Queens defenders and kicked his goal from about sixty feet out.

The final goal for the Beavers was scored by Masonovich after the goalie had been drawn out of the nets. Most of the observers at the game felt that Jones conceded his goal when it was apparent that his attempts to defend would be futile.

**BEAVER BOOTERS:** Pictured above is the 1956 City College soccer team which won its first three games.

Lavender Booters to Meet Improved Aggies Saturday

The City College soccer team, seeking an unprecedented fourth straight Metropolitan Soccer League crown, will meet the Long Island Aggies Saturday at Levisohn Stadium.

The Aggies, last year’s this year, Henry Rollnick, with only four veterans returning from last year’s squad, Rollnick doesn’t feel too optimistic about his team’s chances. So far this season, the Aggies have won one game and tied two. A City victory would make the Aggies’ record four victories and

KBS ’58 Wins, 30-10 In IMB Tourney Start

The Intra-Mural Board’s semi-annual IMB basketball tournament started under way Thursday in Hansen Hall, as twelve teams battled for the crown.

The first game, which started at 12:15, pitted KBS ’58 against T. Mobiles. The juniors won handsomely, 50-10. In the second game, the Intra-Mural Veterans edged Hunt ’57, 19-16.

Playing on the other half of the court, Beta Delta Mu lost to the Gunners, 12-30, while the Jets, who often surprised the Presidium in a sudden-death 22-21.

Opening rounds will continue Tuesday in Hansen Hall from 12-2. There are still three vacancies in the line-up of teams for the tourney. All applications must be returned to the IMB office, 610A this afternoon. A maximum of eight players plus a coach may be listed on the roster sheet.

In Thursday’s pairings, Lloyd ’50 will meet Dean ’60 at 12:45 on court number one. The New- man Club will meet Saxe ’59 at the same time on court two.

The Queenmen have not been paired against a team as yet. They will play one of the teams which will enter the tourney this month. The game is scheduled for 11:05 on court one.

The Intra-Mural Board is still in need of referees and scorers. Anyone interested in either of these activities should sign in the IMB office, 610A.

Varsity Hoop Practice Starts for Eleven V

Yesterday, coach Dave Polansky welcomed over fifty candidates for the varsity basketball team for 1956-1957, with a $2,400 budget, Polansky, who had a year’s experience under Nat Holman is on the coaching staff, leaf, reports that all places are open.

Last via the game last season were Lou Berson and George Jensen. Berson, captain last season, was a player for the Judith and was perked up by a bad leg most of the season. Jensen, at 6-4, was a bulk under the backboards. He averaged 14 points per game and was particularly effective toward the tail end of the season.

Polansky greeted eleven lettermen, fourteen former members of the Baruch team and some graduates of the freshman team. Marv Rose, last year’s Downtown high-scorer and the possessor of a fine corner shot is trying out for the team. So are Mike Gomshay, former Baruch captain, Harry Stolzenberg and Dick Lewis.

Of his returning letterman, his co-captain, Fred Bonnet, who assisted three goals and scored one himself, has more experience, expecting to give Polansky a backfield of punch. On the team are “Buzzy” Friedman, chian Bob Silver, and Jim Polansky makes no se

DesGrey Reveals Budget Basketball Tops Allotment

Professor Arthur DesGrey, faculty-manager of the track, has announced the budgetary allotment for 1956-1957 athletic season. The total figure of $22,446 was derived from athletic fees received from part of the student activity fund.

Basketball will receive the largest allocation, with four Colleges basketball teams, varsity, freshman, Baruch and women’s, receiving money. Varsity basketball
doorments, a new coach and with only four veterans returning from last year’s season, is also a probable starter.

and for other expenses money came from a previous vacation for the boxing program.

The baseball team goes to.
