parents’ Reception

The Freshman Orientation Society will hold its semi-
annual Parents’ Reception Sunday at the Baruch School
at 126 Saxe, dean of the Baruch School, and Ruth C.
right, dean of students, will address the assembled par-
ents.

The purpose of the reception is, as stated in the letter sent to
the parents of all lower freshmen, "to get to know you and to
get your opportunity to find out what the City College is and
how it operates.

Gather in PET

The parents will gather in Pauline Edwards Theatre where
Dean Saxe and Arthur Hays Sulzberger, editor of The New
York Times, will address them.

The idea of acquainting par-
tients with the attributes of
the College is comparatively
new since this reception is the third
of a series.

Refreshments

Following the question and an-
swer period, the parents will be served
refreshments in the School cafeteria.

About 500 parents are expect-
ted to attend, and approximately
fifty faculty members and seven-
ty-five students will be present
to help lead the discussions.

Members of the Boosters and
Alpha Phi Omega will serve
refreshments and act as ushers.

Senior Prom

Prom will be the gala social
for the 500 members of the class.

Prom will be held in the Pain-
tre Room of the Hotel on
Saturday, evening.

Prom is being run out for seniors
who have not yet purchased
their tickets.

Sheraton-Astor Hotel:

The Sophomore Dance will
be held in the Sheraton-Astor
Hotel, 49 East 53rd Street.

Newbold Morris, chairman of
the Board, will be the host of the
dance.

Senior Prom Draws Near

The Sophomore Dance, which was
run out of the Hotel, will
be held in the Sheraton-Astor
Hotel on Saturday evening.

The Sophomore Dance will
be held in the Sheraton-Astor
Hotel, 49 East 53rd Street.

Council Tables Resolution
About Membership Lists

On Friday evening, Student Council passed two resolu-
tions to remove the controversy over compulsory club
membership lists.

The resolution, which was
drafted by Inter-Club Board on
November 7, stated that "all mem-
ers of an organization must sign
membership lists, but those
do not wish to have their
names placed on the list may
not be forced to do so.

The motion to table was made
by Wallace S. Nathan of the
Class of '37. He did so after ex-
plaining that President Gallagher
has appointed an expert to study
the entire membership list
problem, and also that the SCA
Commission's resolutions on mem-
bership lists would be presented to
Council in two weeks.

At its meeting of October 12, Student Council passed a resolu-
tion (Continued on Page 3)

Guidance Personnel To Hear Eberhardt

Approximately fifty high school guidance counselors and teachers attended the annual luncheon and discussion sponsored by the Baruch School, Tuesday, November 13. The purpose of the gathering was to give the counselors information that would help them to better guide their students. The program was directed by Dr. Eberhardt, head of the Guidance Department, and his committee.

It's rhyme time! With a fresh batch of Sticklers

WHAT'S THE LATEST thing in college clothes? Punk's of Luckies, naturally. So if you're going ape in your pocket, you're right in style. That explains the answer to the Stickler—"It's Dapper Wrapper". Luckies are not afraid to make good taste a reality for even the most daring. They've made of fine tobacco—light, naturally—tasting sticklers that are TOASTED TO taste even better. Got a pocket? Stock it. They'll fit perfectly. Match them with Luckies. They're the best-casting cigarette you ever smoked!

Tubo was a quiety noted event in the world of music. The same night, as a part of the WUS Money Being Asked Council...

Chairman, Student Council and its newly-organized legal counsel, Mr. Saxe was present, taking the time to elaborate on the possibilities of the occasion is to describe schools of technology.

The Department of Business Administration has given some consideration to the establishment of a technical department within the Baruch School. The department has plans to offer programs in various fields of technical education, including engineering, business administration, and computer science.

One of the objectives of the department is to provide opportunities for foreign students to study in the United States. The department has established a scholarship program to support foreign students who wish to pursue technical education in the United States.

The department is currently working on establishing partnerships with technical institutions in foreign countries to facilitate student exchange programs. The department is also exploring the possibility of collaborating with foreign technical institutions to develop joint programs that will benefit both countries.

The department is currently in the process of developing a curriculum that will meet the needs of the students who wish to study technical education in the United States. The curriculum will be designed to provide a comprehensive education in the technical fields, including engineering, business administration, and computer science.

The department is currently in the process of recruiting faculty members with expertise in technical education. The department is looking for faculty members who are committed to providing a high-quality education to technical students, and who are able to develop effective teaching methods that will help students to acquire the skills and knowledge they need to succeed in the technical fields.

The department is currently in the process of developing a financial aid program to support technical students who wish to study in the United States. The department is looking for funding sources to support the financial aid program, and is exploring the possibility of partnering with local businesses and organizations to provide financial support.

The department is currently in the process of developing a career services program to help technical students to find employment after graduation. The department is looking for ways to provide technical students with the skills and knowledge they need to succeed in the technical fields, and is exploring the possibility of partnering with local businesses and organizations to provide job placement services.

The department is currently in the process of developing a research program to support technical education in the United States. The department is looking for ways to provide technical students with the opportunity to conduct research, and is exploring the possibility of partnering with local businesses and organizations to provide research funding.

The department is currently in the process of developing a community outreach program to support technical education in the United States. The department is looking for ways to provide technical students with the opportunity to work with community organizations, and is exploring the possibility of partnering with local businesses and organizations to provide community outreach services.

The department is currently in the process of developing a international relations program to support technical education in the United States. The department is looking for ways to provide technical students with the opportunity to work with international organizations, and is exploring the possibility of partnering with local businesses and organizations to provide international relations services.

The department is currently in the process of developing a technology transfer program to support technical education in the United States. The department is looking for ways to provide technical students with the opportunity to work with technology transfer organizations, and is exploring the possibility of partnering with local businesses and organizations to provide technology transfer services.

The department is currently in the process of developing a entrepreneurship program to support technical education in the United States. The department is looking for ways to provide technical students with the opportunity to start their own businesses, and is exploring the possibility of partnering with local businesses and organizations to provide entrepreneurship services.

The department is currently in the process of developing a leadership program to support technical education in the United States. The department is looking for ways to provide technical students with the opportunity to develop their leadership skills, and is exploring the possibility of partnering with local businesses and organizations to provide leadership services.

The department is currently in the process of developing a community service program to support technical education in the United States. The department is looking for ways to provide technical students with the opportunity to work with community service organizations, and is exploring the possibility of partnering with local businesses and organizations to provide community service services.

The department is currently in the process of developing a professional development program to support technical education in the United States. The department is looking for ways to provide technical students with the opportunity to develop their professional skills, and is exploring the possibility of partnering with local businesses and organizations to provide professional development services.
Compulsory Membership Lists

The claim that lists are necessary for customary identification purposes, called for compulsory membership lists which determine the identity of the individuals who constitute the student body. Compensatory lists have also been condemned by the American Civil Liberties Union as a violation of the Bill of Rights. It is important to recognize that the lists are necessary for customary identification purposes.

Second Resolution

This year the General Faculty has rejected the proposal submitted by the Student Council for the use of membership lists in order to help the administration work more efficiently. The proposal was referred to the General Faculty for final consideration. The General Faculty has refused to accept the proposal, and has determined that the identity of the individuals who constitute the Student Council body is not necessary for the purposes of the University. "Those who do not wish to have their names placed on the lists will not be penalized."

We were strongly in favor of the proposal submitted by the Student Council for the use of membership lists in order to help the administration work more efficiently. The proposal was referred to the General Faculty for final consideration. The General Faculty has determined that the identity of the individuals who constitute the Student Council body is not necessary for the purposes of the University. "Those who do not wish to have their names placed on the lists will not be penalized."

Soccerm en Clinch Tie for Met Crown
By Defeating Maritime Academy, 6-1

Harry Karlin's wrecking crew was at work again, Saturday at Lewisohn Stadium, and before the day was over, it had added 8 New York Metropolitan Academy and buried the Lavender in something like 15 goals. This overwhelming display of Lavender strength coupled with a Kings Point tie, clinched at least a tie for the Metropolitan Soccer League title, and moved the Beavers a step closer towards selection for All-State honors.

1. The starting team has not been announced today at the latter's field. If Hunter is defeated, City will again 1 its fourth straight CTC title and fifth in six years.

The victory was the twentieth in twenty-seven games in Met conference play. Only a goal by Queens last year mars the perfect league record. The Lavender thus completes the year as the top team in the league.

Paced by Fred Bonnet's two-tallies, the Beaver booters grabbed the lead in the first period and rolled on to a 6-1 triumph.

This gave City a total of 29 goals for the season, three more than it registered while establishing the former mark in 1954. The Lavender is 20-6-1 in its twenty-seven games in the final stanza to give himself fourteen goals for the season; one more than it registered in 1954, and set a new individual scoring record for a Beaver.

Bonnet playing the inside right position, received the ball in front of the Beavers' goal and moved the ball to the opposite side and beat the floundering Fort Schuyler goalie.

**SUND SHINES**

Sund shooter Billy Sund gets set to kick ball towards the goal. He scored the second last goal and scored later.

**Beverly booters**

The Sailor netminder from the right side and blasted the ball into the left corner for his second tally.

Constant pressure took its toll when Billy Sund, during a melee in front of the cage, placed the ball in for the third City goal at 15:00 of the same frame.

Johnny Paranos, the highest-scoring defenseman ever to wear a Beaver uniform, recorded his twenty-seventh goal of the season at 1:25 on a free kick.

The Savants launched an surprise attack after 2:0 had elapsed in the third period when Jon Schmelten (2-3-1), a speedy inside right, cruised into on Beaver goalie Charlie Thorne and sank the point.

The last City scored came at 10:10 of the final frame when Haas (7-2-1) found the range from up close and beat the Suntansky's goalie.

**Lavender**

The Sailor netminder from the right side and blasted the ball into the left corner for his second tally.

Another of last season's prolific twinnies in the final stanza to give himself fourteen goals for the season; one more than it registered in 1954, and set a new individual scoring record for a Beaver.

Bonnet playing the inside right position, received the ball in front of the Beavers' goal and moved the ball to the opposite side and beat the floundering Fort Schuyler goalie.

**Polansky Shapes Team**

With the season's opener a little more than two weeks away, the Beaver basketball team is steadily and confidently working itself into shape.

Coach Dave Polansky's squad is bolstered by the experience of nine returning lettermen, the high-scoring center from last year's Baruch School's basketball team and a transfer, varsity basketball player from Brooklyn College. Out of twenty-two candidates who are fighting for a position on the team, a record thirty-nine goals have been filled by four hundred.

**Beavers-Hawks Me For Met Title Today**

With a tie for the Metropolitan Soccer League already clinched by virtue of City's win over New York Metropolitan Academy Saturday, Hunter for the title today at originally slated for Lewisohn Stadium was shifted because of the Hawks have a home field this year. The game will start at 2.

The Lavender will be putting its twenty-six-consecutive-game winning streak on the line and will also be seeking to add to its record breaking total of thirty nine goals for the season.

City will also face Pratt in the next few years, "the coach said. "What is expected to do very well is John Stouffer. He is controlling the boards more effectively and is expected to be one of the top players in the Met area.

Another of last season's prolific scorers. Ralph Schellman, is drawing and has shown constant improvement since joining the team. He scored back in the 1954-55 season, is once again on the list of the most improved ballplayers. Levy's large frame is moving more agilely and smoothly than at any time in the past. He is controlling the ball more effectively and is expected to one of the top players in the Met area.
