Budget Unit Defers Action on Chancellor

A move to create the position of Chancellor of the five City Colleges was temporarily delayed Thursday when the Board of Estimate, under fire from the City College Alumni Association, postponed any action until May 23.

Speaking for the Alumni Association, Murray A. Gordon, '41, attorney, charged that to set up the office of chancellor as proposed would revolutionize the present structure of the municipal college system.

Referring to reports that Deputy Mayor John J. Thedford was dining rooming the Chancellor, Gordon asserted that his organization was seriously disturbed by this indication that a black deal was in the making.

Two other speakers, urging action on the bill, were Joseph Adolfo, executive secretary of the Bronx Board of Guardians, and Mrs. Myra E. Barnes a member of the Staten Island school board.

Need Brevity's Summarization

While the School of Cooperative Education's space survey reveals an additional office shifts, the Baruch School was closed Thursday by Deans Elijah Saxe.

The library on the third floor will be moved to the fourth floor in place of the Maintenance Department office. The Library Room, 305, and the Classroom, 401, will be intervened.

As a result, the third floor will virtually be a room of bookshelves.

The chemical preparation room will be added to the fourth floor, and the Social Science Class will be moved to the fifth floor.

As a result, the sunlight will be available for all classes on the fourth floor.

The space will be a room of bookshelves.

Reflections of the Last

By Helen Schalman

The two years I have been at the Baruch School seem to me to be the best two years in my life. I have been very fortunate to be surrounded by many wonderful people who have contributed to my happiness and to my growth.

I have been involved in many activities during these two years. I have been a member of the Student Council, a member of the Baruch School Student Government, and a member of the Baruch School Student Senate. These activities have allowed me to develop my leadership skills and to gain a better understanding of the student government process.

I have also had the opportunity to travel to many places during these two years. I have been to New York City, Chicago, and Washington, D.C. These trips have allowed me to experience different cultures and to meet new people.

I have been involved in many service projects during these two years. I have volunteered at the American Red Cross, the Salvation Army, and the United Nations. These experiences have allowed me to give back to my community and to help those in need.

I have learned a lot from my experiences during these two years. I have learned about myself, about other people, and about the world. I have gained a deeper understanding of the importance of education and of the role of the student in the educational process.

I am grateful for the opportunities that I have had during these two years. I am excited to see what the future holds for me and for the Baruch School. I am looking forward to what the next two years will bring.
'9' to Play Hofstra In Met Test Today

City College's baseball team will face Hofstra College today in Hempstead, Long Island, in a Metropolitan Baseball Conference game.

This is the second meeting of the campaign for the two teams. Friday, the Dutchmen pounded two Beaver pitchers, Stew Weiss and Fred Guittari, for fourteen hits in registering a 10-2 win.

In addition of Weiss, a southpaw, struck out thirteen lavender batters as he limited them to six safeties.

City co-captain Pete Troia returned to the outfield for the first time since the fourth game of the season Wednesday, in the Beaver's 9-0 loss to Manhattan College. Troia, who filled in at first base while Tony Piscatello sat out some games on the bench for weak hitting, is the Beavers' clean-up batter and is a student at the Baruch School.

Lucich Gone

Tony Lucich, City's other co-captain, is probably lost for the season. Lucich suffered injuries to both legs. He recently dislocated the crutches he was using.

A league game with New York University, was called off Saturday due to wet grounds.

Sport Shorts

City College's lacrosse team, idle this past weekend, will journey to Easton, Pennsylvania to meet Lafayette College Saturday at 2. This will be the Beavers' last game of the season. Their record stands at 1-4.

The only undefeated team for City College this semester has been the outdoor track squad. The tracksters face Brooklyn College tomorrow afternoon at Lewishohn Stadium in their last dual meet of the campaign. Coach Harry de Girolamo's crew has beaten Hunter College, Adelphi College, and Fairleigh Dickinson University in dual meets.

Pete Troia

The tennis team lost to Fordham University Wednesday. 9-0.

The setmen played Pratt Institute yesterday.

Rejuvenated? Faculty Readies for Student Tennis Match

In what amounts to the grudge game of the season the Baruch School faculty will take on the students Thursday at 12 in Hansen Hall. The faculty will be looking for its eighth victory in a row.

Leading the all-star array of faculty "performers" will be Gerald "Bled" Klot, who has starred for the faculty for several semesters. A year ago, he was an award for his sportsmanship and play in the game. Others to play for the "elders" include "Bony Poly" Banhand, "Elbows" Siralis, "Hurry-up" Henderson and "Lollypop" Lender.

Varsity Players

Also expected to play for the "experienced hands" are varsity men Marvin Rose and Mike Gomshay. They will play whenever the "old men" need a few points or run out of steam. It is felt that the latter will win first.

Starting for the students will be "Skinny" Brand, "Mike Panda" Kwartler, "Psycho" Kampenmacher, "Big Strum", Jack Ross and B. Sobovinsky.

Last semester, the faculty won seven games in a row. It scored 20 points to lead squads, while Jack Ross led with seventeen to pace the students.

Thursday, THE TICKER, the Intra-Mural Board

"Business and pleasure do mix..."

ROBERT H. WENTORF, JR., Ph.D., University of Wisconsin, 1951

"Until I joined General Electric's Research Laboratory in 1951, I never realized science could be such a challenge — or so much fun. My job involves research in physical chemistry, the investigation of new ideas which can lead to new and better products. In industry, one can use a company of this size, I have the unique advantage of having the tools and facilities I need and the experience of others close at hand. And in return, of course, I'm expected to apply myself to the best of my ability in each new job. As I see it, if a big company like General Electric invests time, money and faith in my creative ability, and if I respond by creating, then we both benefit. To me, at General Electric business and pleasure do mix."

The achievements of 31-year-old Robert Wentorf speak well of his ability to make the most of the opportunities offered at General Electric. He recently created borazon — a completely new, diamond-hard substance which promises far-reaching effect on industrial processes and everyday living.

There are more than 27,000 college graduates at General Electric. Each is provided the opportunity for self-development in the hope that his creative ability will bring forth new ideas. As General Electric sees it, these new ideas, stemming from man's native curiosity, will lead to the development of countless products as yet undreamed of for our nation's defense, industries, and homes.

A physical chemist at General Electric conducts studies of the atomic structure of matter, and of the way atoms and molecules interact under a wide variety of conditions.

Progress is Our Most Important Product

GENERAL ELECTRIC
