Voluntary Membership Lists System Voted Conditionally by Faculty Group

The General Faculty by a 51-45 vote reversed itself Thursday and voted to institute a system of voluntary membership lists for a one-year trial period. As in its last meeting, the balloting was secret.

The reversal came about as a result of two factors: an increase in the number of faculty members who attended the meeting, and the presentation of a compromise amendment which restricts the benefits of clubs declining to submit membership lists.

The compromise amendment, proposed by President B. Gallagher, was passed after Professor Samuel Hendel of the Government department, a proponent of the plan, moved to reconsider the action of the previous week.

Three Announce Candidacy For Presidency of Council

By Martin Jacobs

Three people have announced their candidacy for President of the Student Council. They are: Bill Dinkelacker, Student Council vice-president, Irwin Feller, Council treasurer, and Bernard Medoff, chairman of the Inter-Club Board.

Elections for Student Council, Class Council and National Student Association representatives will take place Wednesday, December 11.

Betta Gamma Sigma Elects Rosenberg, 43 Baruchians

The election of Gustave G. Rosenberg, newly-elected chairman of the Board of Higher Education, and 43 Baruch Students Life Trustee for the Class of '60, is run.

Council Votes Reversal Of Enforcing C-Ruling

Student Council reversed itself Thursday evening.

In an unusual move, the Council voted not to enforce a Faculty Committee on Student Activities ruling requiring students who are club executives to have a grade average of C or better.

At a meeting of the Student Council October 11, a motion passed by acclamation called for a review of all club membership lists and the sending of letters to each organization informing them that the Council would, beginning next semester, enforce the FCSA ruling.

FCSA is the organization which regulates most student activities.

At Thursday's meeting, a motion by Ted Tourt passed to delete the corresponding bylaw.

After the key vote which reversed the body's decision, Professor William L. Finkel of the Speech Department, presented the amendment which had two sections:

1) Only those organizations which submit membership lists will be considered chartered student organizations at the College.

2) Non-chartered organizations not submitting lists from receiving allocations from student fees. A Board of College Education ruling states that only chartered organizations may receive funds.

At its meeting November 14, the General Faculty rejected Dr. Gallagher's proposal, 48-36. Twelve additional members were present at Thursday's session.

According to one member of the General Faculty, "we lost two to one."

The first provision excludes those organizations not submitting lists from receiving allocations from student fees. A Board of College Education ruling states that only chartered organizations may receive funds.

Baruch School Requirement
Lowest in City, Says BHE

A municipal college program offered for Thursdays

By Bessie S. Byrd

The Baruch School has the lowest entrance examination requirement of all the city colleges, it was announced last week by the Board of Higher Education.

Admission to the Municipal Colleges

Baruch College requires a minimum score of 159, this year's requirement.

"The entrance examination is a test of the high school experience and the entrance requirements of the Baruch School are lower than that of any other college in New York City," Dr. V. W. B. Davis, dean of the college, said.

The entrance requirements for the Brooklyn Polytechnic Institute were 159, and for the City College of New York, 165.

The committee made the following recommendations to improve the entrance examination: 

1. Admissions policies must be tightened.

2. In college, the number of full-time college students without university degrees is increasing. This is the result of a full-time university system.

3. The study shows three possible solutions: "More emphasis should be given to the number of full-time college students without university degrees."

4. The study shows the rate of improvement in mathematics and science.

5. The rate of improvement is higher. This is the result of a full-time university system.

Russian Leadership in the News

Education in Education

Ward, in Nation-Wide Reaction

By Charles C. Gropp

The recent wave of nationwide demonstrations last week illustrated a widespread national reaction to the increasing demands of Soviet education, the result of the recent wave of school students who have been asked to do more, to work harder, and to study longer. This is the result of a full-time university system.

The committee made the following recommendations to improve the entrance examination: 

1. Admissions policies must be tightened.

2. In college, the number of full-time college students without university degrees is increasing. This is the result of a full-time university system.

3. The study shows three possible solutions: "More emphasis should be given to the number of full-time college students without university degrees."

4. The study shows the rate of improvement in mathematics and science.

5. The rate of improvement is higher. This is the result of a full-time university system.

The current membership list controversy has been troubling for a number of reasons. President Richard B. Saxe's proposal to approve a new membership list is not well received by many, especially those who have been excluded from the past lists. The voting process is voluntary, and there may be a concern about the fairness of the outcome. The president's plan is designed to address these issues.

The purpose of college is to get an academic education. Dean Emanuel Saxe, one of the College's top administrators, has been involved in the debate. He states, "The academic values must transcend the 'extras.'"

The ruling will remain in effect for one year. We hope that this decision will be a step towards resolving the issues raised by the membership list controversy.

Letters To The Editor

To The Editor of THE TICKER:

I am writing to express my concern about the administration's decision to form a membership list. I believe that this decision is not in the best interest of the College.

Sincerely,

[Name]

El Cabaret Planned By Lamport House

By Florence Michelson

Tickets for El Cabaret, a dinner-dance, scheduled for December 7 at Lamport House, are now on sale at House Prices.

Five finalists in the Sweetheart of Phi Alpha contest will be chosen as the new Sweetheart over the Thanksgiving weekend by the brothers of the fraternity.

This will be selected on the basis of the qualities the fraternity considers necessary for the office. A Phi Alpha girl at the Cornell University promenade and the school will be chosen. The Philanthropic Project is a charity for the nation of El Salvador. The contest is open to all Cornellians.

According to Freda Raisman, editor-in-chief of The Queens, the Sweetheart contest will be held on the evening of December 8 at Lamport House. The contest will feature a variety of talent from the nation of El Salvador.

Queens Paper to Answer Charges on Theobald

A student newspaper of Queens College, edited by Kurt H. Theobald, has been charged by its faculty, students, and staff with "dangerous and irresponsible" practices. The newspaper is accused of publishing false and misleading information, and the faculty considers necessary for the publication of Theobald's newspaper to be "dangerous and irresponsible." The paper, The Queens, is being published by its student editors under the supervision of Kurt H. Theobald, faculty member at Queens.

According to Freda Raisman, editor-in-chief of The Queens, the paper has published all charges leveled against it, point by point, although the paper has leveled charges against the publication of Theobald's newspaper.

A temporary injunction was granted against the publication of Theobald's newspaper by the Student Court last week. The injunction was granted on the basis of a finding that Theobald's newspaper is a danger to the public welfare.

Bootees Beat Schuyler for Title, 3-1

By Mary Levy

Playing in 35-degree weather and intermittent snow flurries, the City College booters won their fifth straight Metropolitan Soccer League title by defeating Fort Schuyler, 3-1, Saturday at the Queens College field. The title was their sixth Met crown in the past seven years.

The win climax an undefeated and untied season for the Lavender and gives them claim for national recognition.

With the Beavers ahead, 2-1, in the middle of the second half, the Mariners pressing the attack, Billy Sund scored the clincher with eight minutes remaining in the game. Sund, racing down the sideline, took a pass from the City Club and placed the ball past Schuyler goalie Bob Irwin.

This goal broke the Mariners' hopes and put game out of reach of the Beavers during the second half. Coach Harry Kartin's charges had difficulty on the narrow field, and had trouble with unusually poor passing.

The scoring opened with 6:10 gone in the game, when Marco Wachter feinted two Mariners defenders out of position and drove the ball into the goal with Irwin on the ground after a melee in front of the twines.

GET THAT BALL: An unidentified City College player applies the big boot in an attempt to score during Saturday's title game.

SAA Slates Football, Hoop Intramural Championships

The Student Athletic Association proposed Tuesday to look into the feasibility of having the Baruch School and Upton Center intramural championships in football and basketball meet to determine a City-wide champion.

The Baruch School's intramural football tourney was won by the Newman Club "Gold" team, which triumphed over the "Red" team 25-0, Thursday. The scoreless but nevertheless competitive-looking football tourney currently is in progress. Both Upton meets are still being held.

The plan, as proposed by the SAA, would have the site of the championship game alternate between the Baruch School and Upton each term, which is hoped to have the championship basketball game this semester preceded by a varsity contest, if permission can be obtained.

All details of the plan have yet to be worked out.

The SAA proposed that an annual Olympiad be held, with both team and individual winners crowned. The teams would represent the Baruch School and Upton Centers. Tentative events include broad jumping, sprints, obstacle race, push-ups, bar lifts and sit-ups. The Association hopes that the City College Club will donate a trophy to the winner.

Lack of Experience Plagues Frosh ‘Five’

Facutly Vetoes Plan For Springfield Game

By Mel Winer

The Faculty Committee on Intercollegiate Athletics has voted down a proposal allowing the soccer team to play a post-season game against Springfield College.

The request for such a game was made by the team. Springfield was the team selected because the New Englanders defeated the Lavender, 2-1, in a post-season game last season.

The reason given for the decision was that under the rules set down by the Intercollegiate Association of Soccer Coaches, no team is allowed to play more than nine games plus any necessary playoff contests in a single season. In addition, no team can play a post-season game unless invited to a recognized tournament.

Since the Beavers have already played nine games and a playoff contest, and there are no recognized post-season tournaments, the committee felt that it would be unfair for the Lavender to participate in any post-season contest.

The post-season national championship playoffs were discontinued this season due to a decision made by the Association of Soccer Coaches.
