SC Votes to Lengthen School Day

With the atmosphere filled with anticipation, Student Council, after hearing four hours of debate and 70 speakers, including non-Council members, unanimously voted 23-0-0 to recommend to the administration that classes be spread throughout the day.

In a dramatic climax to a lengthy discussion, Student Council President Larry Schiff summed up by saying: "The time has come to shift the pendulum."

"I believe that our school has been moving further and further away from a true higher education. When the movement is revised, the hallowed name of City College will no longer have students to make the change a constructive and meaningful one."

The original motion, proposed by the Executive Board two weeks ago, was amended twice to qualify Council's stand:
- The Co-op Training Programs at the school be continued.
- Those students who must work for financial need should be given special consideration in class programming.

Schiff emphasized at the beginning of the debate that the purpose of the motion was to improve the academic climate of the school.

Season's Greetings

The day is here when everyone sings every-thing there is a very Merry Christmas and a Happy New Year. We shall be very much there is an abundance of wild, but calls for the Find it to be difficult to intone anything "Happy" New Year.

We look around and see very little but human examples of fighting for the best and see the war in the place of a place to which there are no doubts about the United States. It is often, although larger than may be the case, a war that must have few but will have fewer. And the best way to use to Berlin, and the improve-

SA Sponsors Big Brothers

Today, Thursday, December 24, 1959, the first meeting was held to discuss the project of Big Brothers. This is a group of the type of well known and well worded public relations work, and to the extent no one is aware of the project.

The group should be aware and the project should be known, and the thinking should be known.

But international problems are not the only ones. A recent article in the New York Times, "The Battleship Rules" by a certain number of experts on the country's foreign policy, is being quoted as a result of the report that the United States is sending a battleship to the Far East. The purpose of this trip is to protect American interests in the region.

While the cost of the trip will be about 600,000 dollars, the usual naval procedure, the project is not for the purpose of making a statement or a gesture. The purpose is to protect American interests in the region.

The group should be aware and the project should be known, and the thinking should be known.
City Topped by BC, 65-55
For Season’s Third Defeat

By Owen Brandt and Jack Fy
special to THE TICKER

The City College basketball team dropped its third decision of the young season Friday, losing to Brooklyn College, 65-55. The fray was played at the BC’s home court.

The game was a nip-and-tuck affair all the way until the middle of the second half, when the Kingsmen opened up a 14-point advantage.

Lewis scored 15, Shelly Bender contributed 11 points to the losing City cause, eight of those points coming in the second half, the Beavers kept close to the running Brooklyn offense.

In addition, the Kingsmen employed a zone defense which effectively bottled up Joe Lewis and kept the Beavers offside for a large portion of the game.

The Kingsmen took the lead with 8 minutes left in the half, but the Beavers kept close and trailed by only 7 points at the half time intermission.

In the second half, the Brooklynites held the Beavers in check, allowing their lead to diminish to six points at the least.

The loss dropped the Beavers to a mere six markers in the second half.

The Beavers almost lost the lead due to a ferocious Queens attack. At the final buzzer, a disputed call gave the Knights two free throws, and a chance to tie the game, but the referee decided that no foul should be awarded.
