Gallagher Asks City Agency To Restore New Site Funds

City College President Buell G. Gallagher appearing before the City Planning Commission last week requested that they restore the funds needed for the acquisition of a new site for the Baruch School.

Earlier this month, the sum of $465,000 had been deleted from the 1960 Capital Budget by the Planning Commission. The Board of Higher Education for new projects had requested the money for necessary engineering studies for the proposed site.

After leaving Thursday's meeting, Dr. Gallagher informed THE TICKER that the City Planning Commission probably would vote on the plan for restoration of the funds in three or four weeks.

He refused to comment on the probability of the Planning Commission granting the money.

Under the Board of Higher Education's proposal, $5.9 million would be needed for the construction of a new building on the site presently occupied by Mabel Dean Bacon School and the adjacent buildings.

The Board of Higher Education had requested that $59,000,000 for construction of the site be included in the 1960 Capital Budget. After the request had been denied by the Planning Commission, the BHE then unsuccessfully tried to secure funds from the City's Budget Bureau.

Last year the request for $50,000,000 was prioritized second on the Board of Higher Education's list of new projects. This year, however, the request has been prioritized fourth.

In granting funds for new projects, the Planning Commission must first and second prioritize new projects.

In total, the Planning Commission, which has been hard pressed for Capital funds, granted the municipal colleges $655,000 for new projects. They had requested more than $2 million.

It was for situations similar to this that a $590,000 school bond issue, which was proposed, is hoped by many City officials that the Board of Education pass, by a vote of 6-11-4, once again defeated an amendment which would allow upper juniors to serve as president.

The defeat of the proposal marks the third straight semester that an attempt to allow upper juniors to serve as president has failed.

The majority on the amendment, argued that the charter, which limited the presidency to the junior class, created an unworkable situation.

The university's constitution to the proposed revision, including SC President Joe Ficurelli, argued that the office of Student Council President demanded a person of maturity and experience who could command respect from the faculty and administration.

Other business, Council voted to eliminate the alumni from the Insignium committee.

They also decided that a vacant Class of '61 Council seat will be filled by the Class Council of '59, October 6th, the vacancy occurred when Bedir resigned.

Only 40 Students Attend:

Blau Discusses Business Ethics

By Robert Brooks

Speaking before only forty students, Dr. Joseph Blau, president of Philosophy of Religion at Columbia University, said that "a profound concern for the public interest is the business ethic."

Business and Public Interest

Dr. Blau presented the first of two lectures on business and the public interest. His second lecture will be held Thursday at 12:30 in 42.

Professor Blau gave a brief resume of the history of business and commerce in the United States, emphasizing the public interest.

He pointed out that the economic condition of Europe was a distinct change after the middle ages. The subsistence local trade was replaced by the beginning of worldwide trade. Because of this, the business practices formed, and systems of mutual

Discrimination Found in Uptown Sorority; Club Changes Policy

An Uptown sorority, Sigma Tau Delta, denied a Negro the opportunity to pledge the sorority because of her race. Three out of twenty members opposed against the girl since she was a Negro, October 16.

At a second meeting, the twenty girls decided unanimously that they would again judge a girl on her race or religion in a statement released to all newspapers. President E. M. Gallagher has said that the bond is likely a portion of the bond issue, the last of a group of three. The Negro Board of Education has two million annually for schools.

President Buell G. Gallagher

Spriug Kudlowitz, past head of STD, gave reasons after the first meeting, and that she was pleased with the outcome of the meeting. Every girl, she said, can see what could be done about the situation in spite of their feelings.

This excluded girl, and I had always wanted to go to City. I had thought that no matter what happens elsewhere there cannot be no discrimination here, I wanted to join STD because I thought a few Negro girls. What has happened has not changed my mind," she said.

Dr. Blau emphasized that all students are encouraged to become involved in this sort of work and also to consider the impact on the community.

It was also announced that a $465,000,000 school bond issue was proposed. It is anticipated that a $40,000,000 school bond issue would not be needed for schools.

It was also announced that a $40,000,000 school bond issue was proposed. It is anticipated that a $40,000,000 school bond issue would not be needed for schools.

The Plague

All college students anticipate the fall semester. The Baruch School Annual Registration for Student Loans under the 60th Anniversary of Lamport House.

Information: Professor Keller. Writing an essay on "Imports — A11 college students who are interested in the topic must attend a meeting at the POS bulletin board."

This incident is a mere reflection of the sickness that is responsible for the Baruch School. In conclusion, the Baruch School's numerical superiority in college students will automatically lead to a better education. How the students are to be arranged is a question. Professor Delaney, whose words were quoted earlier, comprehends the situation better than anyone else.

The Bond Issue

The Bond issue presented to the Board of Education is an attractive proposition to the students of the city. The Board of Education has charged that the Board of Education has failed to approve the issue. However, in the City's annual report for the year 1927, the Board of Education stated that the issue was approved. Thus, the Board of Education has charged that the issue was not approved by the Board of Education. The Board of Education expressed the belief that the issue was not approved by the Board of Education.

Leonard Berndes

Youth Department

Leonard Berndes, wrote in the Cincinnati Post that if the Board of Education is going to approve the Bond Issue, it must be approved by the Board of Education. The Board of Education is not going to approve the Bond Issue.

A loan of $500 million was offered by the Department of Education. A schedule for the loan was presented. The loan was approved by the Board of Education. The loan was not approved by the Board of Education.

Beavers Come from Behind To Defeat RPI, 5-3, Saturday; Minnerop and Wachter Star

By Larry Oringel

Trailing 3-2 at halftime, the Beaver soccer team Saturday, put on an amazing exhibition of soccer to outplay and out hustle Rensselaer Polytechnic Institute and defeat them 5-3.

In doing so they have extended their unbeaten streak in regular season play to 45 game. The last booster loss was in 1953 against Brooklyn College.

Star booster Heinz Minnerop said after the game “In all my four years of soccer at City, I never saw a team hustle as much as this one did in the third period.”

The playing conditions on the field were almost impossible. Players from both sides were slipping and sliding all over the field.

The Beavers took an early lead on half-back Carl Razevich’s first goal of the season, but the lead didn’t stand up very long. The RPI men scored a goal about ten seconds later. Heinz Minnerop took the Beavers ahead 2-1 with his first of two goals of the day by heading a corner kick into the net.

In the second period Razevich’s goal (a penalty shot) appeared to be a sure goal, but a penalty was called. RPI converted the penalty kick to tie the score 2-2. RPI added another goal to take a 3-2 halftime lead.

In the third quarter the Beaver attack started to blossom. Hugh Bobb, a native of Trinidad, was magnificent, being a constant threat in the RPI offense. He was all over the field and halted many of the threats RPI had.

In this period the Beavers put constant pressure on the RPI goalie. Minnerop scored his second goal to tie the score at 3-3, and Wachter scored the first of his two goals to make the score 4-3.

In the fourth period, Wachter scored the winning goal.

Minnerop Bob Razevich started his high goal game for the Beavers this season at halfback and played a very creditable game.

Coach Harry Kimm was very pleased with the Beaver performance in the game. This victory over RPI will give the team a chance for a very high national rating.

Rained Out Harrier Meet Scheduled for Today at 4

Because of the rainy weekend, the Beaver cross-country team will play today a rescheduled meet against U.S. Merchant Marine Academy.

The meet was originally planned for Saturday.

Also this week, the Harriers will play against Iona in the last of the season’s dual meets. The 1966 record was 3-7-2.

The Beavers also lost to the Merchant Marine Academy in 1966, but by the close score of 29-37.

Coach Harry Ostrazer said the Harriers have been having some trouble getting his teams started. He said the City lost its first two games.
