McClory Emphasizes Peace
At Charter Day Ceremonies

By Bob Brooks

"World harmony and peace can only be established if there is a more effective

grouping between the national states of the free world," stated John J. McClory at the an-

nual Baruch School Charter Day Convocation Thursday.

BERNARD M. BARUCH was present

at the affair.

Mr. McClory, who served as As-

sistant Secretary of War from

1941 to 1945, stated that a new

awareness of the world situation

by the individual and his willing-

ness to participate in his nation's

problems is also prerequisite for

fraternal relations between coun-

tries.

Alluding to the strong state of

ancient Athens, Mr. McClory em-

phasized Periclean's view that a na-

cion can only be strong if its citi-

dens also work together to keep

their duties toward their

nation.

He reiterated Mr. Baruch's be-

lief that a system of "open skies"

should prevail throughout the

world, which would deemphasize

any spying policy that might ex-

ist.

He also noted that a world

problem could not be tackled

alone, but that a concentrated ef-

fort on all fronts was necessary.

"In this age in which the eco-

nomic struggle between the

two blocs is so crucial, we must

work together as one nation to

ensure peace and security for all.

BC Students Protest
Kingsman Censorship

By Norman Kleinberg

The Executive Board of the Brooklyn College Student Council, at a meeting attended by more than 100 students, unanimously passed a resolution disapproving of Dean of Students Herbert H. Strong's action in censoring the college newspaper Kingsman.

The resolution stems from Dean Strong's suspension of the Kingsman's photographer for taking a picture of the civil defense demonstration at the college during the May Day drill.

The demonstrators have been given the choice of "discussing" their part in the protest or facing "possible disciplinary action.

At an open rally held previous to the Council meeting, more than 200 students discussed the press-adminis-

tration relations at the campus.

In addition, the group is ask-

ing sympathetic students to wear black ties throughout the week as a means of expressing disapproval with the administration's action.

The National Student Associa-

tion has sent a three-man in-

vestigating board to the Brooklyn

College campus, marking the first

time that the group has reported to

such a measure. The board will plan to review press-adminis-

tration relations at the campus

for the past ten years.

The board will submit a repor-

t to the new NSA Congress.
Charter Day... (Continued from Page 1)

The Nationale

Next semester, the student council at the Baruch School will rise. The increase in student enrollment has caused the enrollment of a greater number of students to take advantage of the opportunities inherent in a freshman school. In addition, seeing into the second of the city colleges to more suitable facilities will do a benefit to the students and to the colleges alike.

Many of the students of the Baruch School have expressed the wish to the president of the student council that the school be moved to the second floor. In general, the student council has been very much pleased with the arrangements made for the new student council. They feel that the new council will do a great deal for the students and will help to improve the general climate of the school.

The letter was signed by the student council and was read to the Baruch School. Two parents who attended the meeting were very much pleased with the arrangements made for the new student council. They feel that the new council will do a great deal for the students and will help to improve the general climate of the school.

A more subtle reason for the Baruch School's defeat is in the fact that the student council is the student's desire for a curriculum with extensive liberal arts courses. There is a general belief that the curriculum at the Baruch School is too much oriented towards a business curriculum with a complete choice of liberal arts courses.

The choice of liberal arts courses at the Baruch School is not enough to satisfy the student's desire for a curriculum with extensive liberal arts courses. The student council is in favor of the opinion that the curriculum at the Baruch School is not enough to satisfy the student's desire for a curriculum with extensive liberal arts courses. The student council is in favor of the opinion that the curriculum at the Baruch School is not enough to satisfy the student's desire for a curriculum with extensive liberal arts courses.

The Culprit

The recent student government election conclusively proves that student government at the Baruch School is in a hopeless situation. The student government consists of 20 percent of the entire student population. The student government is a main representative of the Baruch School. If the student government is not able to satisfy the interests of the student population, it is clear that the student government is in a hopeless situation.

The student government has been unable to achieve the support of the student population. The student government has been unable to achieve the support of the student population. The student government has been unable to achieve the support of the student population.

The election results indicate that the student government is not able to satisfy the interests of the student population. The student government is in a hopeless situation. The student government is in a hopeless situation. The student government is in a hopeless situation.
City Defeats NYU, 1-0
To Break Losing Skien

By Marty Perl
City College pulled one of the biggest upsets of the season Saturday, by defeating New York University, 1-0, at Ohio Field.

An unannounced run scored by Frank Costas in the seventh inning was enough of a lead for the Beavers. Murray Steinback pitched a smooth six-hitter in winning his (and City's) first game of the season.

Steinback struck out seven and walked two in the well pitched game.

The victory halted a fifteen game winning streak, which was broken by a tie game against the same Violet squad. That game, a 4-4 tie, called at the end of eleven innings because of darkness, was played April 19, almost a month ago. That was the closest John LaPlace's squad had come to a win before today. Costas opened the seventh with a walk off losing pitcher Miller. He stole second. He then attempted to steal third and on NYU catcher Ron Conti's overthrow came all the way around to score the most important run of the year.

City's Pete Magnoni led the hitless with three of the Beavers' five safeties.

Steinback is only a sophomore and is a great hope for City baseball in the coming years.

The win moved City into a tie for seventh place with Brooklyn College. The two will meet on Monday at Metlions Union Park.

The loss was NYU's fifth in the Metropolitan Conference and dropped the team to the bottom of the pack.

In the preceding game Thursday, the Beavers lost to Queens, 8-2.

Coach John La Place

Stickmen Lose To Tufts, 9-8

Tufts College scored a goal with one minute left to defeat the City College lacrosse team Saturday.

The goal was an anticlimax to an uphill battle for the stickmen, who trailed by three goals at one point in the game.

Hans Allik led City scoring with four goals. He was supported by Fred Schuhmann, Jerry Kaliber, Joe Decon and Al Goldman, who scored one each.

This was the team's second narrow defeat of the season, and both losses came to the visiting team of the game. The team now has a 4-1 record.

Saturday, the team will play Lafayette College at Lewishon Stadium.

Harriers Sixth in CTC
Delgado Wins Half-Mile

The BelvedOutdoor track team concluded its season by finishing sixth in a field of more than 15 in the annual Colgate Track Conference tournament.

Jesse Delgado led the team to its finish by winning the half-mile event in 1:56.2 time. His win was good for five points toward the Beaver total of eight.

City scored its other three points by taking a third-place finish in the one-mile relay race.

Richard Lewis, Baruchian Ira Rudich and Delgado combined for a 3:50 showing in this event.
