Gallagher Declares Faculty Requests Conference Delay

In a letter to Uptown Student Council President Bob Sag, City College President Buell G. Gallagher indicated that a general faculty was in favor of postponing the All-College Conference until next term.

The letter said that "the belief of the general faculty is that it is in the best interest of the students to postpone the conference. This conference is needed because we have a number of students that are not satisfied with the current situation."

The conference, which was called by the Board of Regents to discuss the future of the college, is scheduled for May 29. Gallagher said that he would like to see the conference postponed until the middle of the summer so that all students can attend.

"I believe that the conference should be held in the fall," Gallagher said. "I think that the students should have a chance to express their views on the future of the college."

The letter also said that the faculty is concerned about the lack of representation on the Board of Regents. Gallagher said that he would like to see more faculty members on the Board of Regents.

The letter concluded by saying that Gallagher would like to see the conference postponed until the middle of the summer so that all students can attend.

BHE Tuition Rights Approved by Senate

The State Senate approved Governor Nelson A. Rockefeller's tuition plan Friday, and with it the group approved the plan which gives the New York City Board of Higher Education discretion as to whether tuition shall be charged at the four municipal colleges. The city colleges are presently tuition-free by statute.

The bill will now go before the Assembly.

A BHE spokesman indicated to THE TACTER that if the bill is passed in the House of Representatives and the Senate, it will be sent to the Governor for his signature.

Free Tuition Threatened

We are disturbed by the action the State Senate has taken in its recent resolution. This resolution, while a step in the direction of providing free tuition for all students, will not meet the full demands of the situation.

We are opposed to any legislation which will permit a tuition charge at the municipal college system. Such a charge would enable the governing body to impose a tuition charge at the municipal college system and we hope the Assembly will not achieve an idea of the purpose of free tuition.

We expect that the Governors agents on the board would then force that the tuition be paid for in full by the students. The money would then be used for other purposes.

Dr. Arluck spoke on Zen Buddhism at the C.G. Jung Institute. During 1957-1958, Dr. Arluck delivered two series of seminars and a special seminar was held between September 24 and October 8. The topic of "Social Responsibility" before the Society for the Study of Religions.

The next meeting of the Education Society will be on March 24 at the Student Center. The topic will be "The Problems of Education." The luncheon will be served, refreshments will be served.

Letter to the Editor

To the Editor of THE TICKER:

We are writing to express our opposition to the proposed tuition charge at the municipal college system. We believe that tuition should be free for all students.

Sincerely yours,
