Examinations Schedule

Gallagher, Mehta Discuss Summer Use of Center

The Student Center will be open during the summer from Monday through Friday. There will be a special cultural program at least one evening a week, it was announced by Gurven Mehta, both of the Department of Student Life.

Dr. Greger noted that the Center program would be geared more toward the evening students who normally spend their day session school counterparts, he stated, the Center will be open from 9 a.m. until 6 p.m. Monday, Wednesday, Thursday and from 9 a.m. in the afternoon Tuesday and Friday.

However, Dr. Greger noted that the cultural program is held the building would remain open until 10 p.m. The weekly cultural program will mainly under the direction of Mrs. Mehta, who is a former cultural director for the United States Information Agency and has recently joined the Baruch School staff.

The major feature of Mrs. Mehta's program will be working with the students from the student body to present exhibitions of cultures of their respective countries. The first intercultural evening will be held Thursday, June 28 and it will be open to all students.

Mrs. Mehta has stated that any interested in working on the program should see her in the Student Center.

She noted that these programs, which are planned by the students and faculty members, are important to the students in the summer months as many of the foreign students are in New York. Ms. Mehta will also help to bring about better relations between students of different nationalities and make the campus more home-like.

If there is enough interest in the program it will be expanded to two evenings a week, Mrs. Mehta concluded.

Stein noted that in addition to such features as free punch and tickets to London Stadium concerts, dances may be held. He added, however, that some neighboring residents have been complaining about the noise from the Student Center and unless air conditioners are installed in the main rooms of the building so that the windows can be closed, no dances can be held.

When queried about the air conditioners, Dr. Greger stated that there was a good chance of obtaining them.

Concerning the club program, he said that if any organization wants to carry on activities geared towards summer session students they are more than welcome.

Final Examinations Schedule

Tuesday, May 31

Final examinations will be held beginning May 28 until 11:00 a.m.

By Marilyn Karlin

Student Council, at its Friday night meeting, defeated a motion proposed by Ken Klein '62, which stated that any matter brought before the student body in a referendum could not be brought up again for referendum vote during the next four years. The vote was 10-12-

The proponents of the motion stated that students should not have more than one vote on a measure during their stay at the School. They believed that frequent referenda are a farce. In addition, they contended that such votes of the entire student body should be used to set down basic policy and thus must be consistent, not subject to change each term.

Those against the charter amendment stated that it would deny students their right to woot
The Proletarians

By Norman Elmsberg

No, this column is not about that kind of proletariat. But it may explain the meaning of the term 'proletarian' which has been bandied about since the School began to develop the January Movement. The term was coined by the German socialists in the 19th century to describe the working class who were exploited by the capitalist system.

The students at our school are a part of this movement, and their struggles are just beginning. They are fighting for their rights and for a better future.

The Psychology Society

The Psychology Society is currently working on a project that aims to help students understand their own emotions and behaviors. They have been conducting research on the psychology of motivation and how it drives people to take certain actions.

A.C.B. delegate

A.C.B. (Association of College Bookstores) delegate was present at the meeting. He discussed the importance of the role of bookstores in providing students with access to educational materials.

The Student Center

The Student Center has been in use for one academic year, and some students have noticed improvements. However, there are still areas for improvement.

The notice from the Main Building's sixth floor and the student activities office on the fourth floor have both been noticed by students. They have noted the lack of space and the need for better organization.

The Recycling Program

The Recycling Program is well-organized and efficient. However, more students need to participate in order to make a significant impact.

The Math Department

The Math Department is working on a project that aims to improve student performance in mathematics. They have developed a new curriculum that focuses on problem-solving skills.

Jaspers Beat Beavers; Team Won Two Games

By Steve Rappaport

City College's baseball team ended a dismal campaign Wednesday, losing to Manhattan, 7-0, on Ohio Field. The Beavers won only two out of twelve games in Metropolitan Conference play.

Despite the poor showing, City finished in seventh place in the league, a match above Brooklyn College. The team had a .400 average, one of the highest in the conference.

Coach Al DiBernardo has held a second-division hitter. He has led Manhattan to a .500 average, but this year the team was marred by injuries and only one hit. Jasper pitcher Ron Petro, a sophomore, right-hander, yielded a Manhattan to catcher Korthe.

Despite the poor showing, City players throughout the season. The stellar performers included Howie Friedman, a sophomore, second baseman, and Bob Davi, first baseman Bill Catterson, shortstop.

Director of Athletics, Coach Al DiBernardo will have to find replacements for senior Botwinik, first baseman Bill Catterson, shortstop.

Junior Murray Steinbank absorbed his fourth loss of the season against one victory.

Petro, who also plays basketball, struck out eighteen batters in going the entire game.

The Beavers' showing against Manhattan was marred by nine errors and only one hit. Jasper pitcher Ron Petro, a sophomore, right-hander, yielded a Manhattan to catcher Korthe.

The double matches were split 1-1 with the third match being cancelled by mutual consent. Howard and Monette defeated Smith and Gerhardt 6-1, 6-4; and Silver united with Borowsky to conquer Najar and Bob Davis 6-3, 6-1.

Poly Tech Tops City For Second Setback

The City College tennis team ended its season Friday against Poly Tech at the latter's home courts, suffering its second setback of the season, 5-3. With the absence of Stanley Freundlich, City was severely handicapped.

Alan Smith was beaten by Jack Howard 7-6, 6-1, 6-0; Sy Silver and Bob Davi, City stars, lost their first four sets of the year, respectively. The Big Five beat the previ-ous-city scoring record of twenty-eight goals in Metropolitan Conference play.

Junior Johnny Orlando scored six goals against Lafayette, was named to the All-League team. Orange is one of the top collegiate lacrosse scorers in the country.

The loss of many seniors, the Lavender stars due to the June and January graduations, prompted first-year varsity coach Howie Friedman to find at least fifteen replacements.

The Beavers started the season off poorly after last year's 5-3-1 record with a double reverse to Harvard and Adelphi by 23-3 and 6-3, respectively.

Following these reverses, the Lavender stars were injected with C.C.N.Y., culminating its first entire season as coach of the var-

Lacrosse Team Victorious In Final Contest of Season

The City College lacrosse team culminated its season with an 11-6 victory over Lafayette College at Easton, Pennsylvania. The win brought the overall record of the Beavers to 5-4.

Junior Johnny Orlando scored six goals against Lafayette, was named to the All-League team. Orange is one of the top collegiate lacrosse scorers in the country.

Thus, Baron, a former All-American lacrosse player while attending C.C.N.Y., culminated his first entire season as coach of the var-

Chief Miller had been the lacrosse mentor for twenty-eight years before illness forced him to retire. Baron was coaching this freshman lacrosse team at the time of Miller's retirement.

WHY THE BLUE SUIT WITH GOLD BARS?

You're needed...just as your father and grand-

father were. It's an obligation that a lot of qualified college men have to meet...that of serving your coun-

try, when and where you are needed.

And the Air Force needs college-trained men as officers. This is caused by the rapidly expanding technolo-

ogy that goes with hypersonic air and space flight.

Your four-years of college have equipped you to do a complex job. You have the potential to profit from advanced training...then put it to work.

The normal way to become an officer.

First there is Air Force ROTC. Another program, relatively new, is Officer Training School. Here the Air Force commissions certain college graduates, both men and women, after three months' training. The navigator training program enables you to win a

flying rating and aviation commission. And, of course, there's the Air Force Academy.

An Air Force officer's starting salary averages out to about what you would expect as a civilian. First there's your base pay. Then add on such things as tax-free rations and quarters allowances, free medical and dental care, retirement provision, perhaps flight pay, and 30 days' vacation per year. It comes to an attractive figure. One thing more. As an officer, you will become eligible for the Air Force Institute of Technology. While on active duty, many officers will win graduate degrees at Air Force expense.

Why not contact your local Air Force Recruiter, Or write to Officer Career Information, SC15, Box 7608, Washington 4, D.C., if you want further information about the navigator training or the Officer Training School program.
