Nineveh Scholarships Awarded to Students

Forty-nine scholarships worth $1,000 each will be awarded to students at the Baruch School in 1968. The students are selected by the committee of three faculty members, the chairman of which is Charles E. Eberhardt. Each of these students is the son or daughter of a member of the faculty at the Baruch School. The committee also has the power to award scholarships to students who are not members of the Baruch faculty. Some additional information on the recipients of these scholarships includes:

- William E. Miele '66 will receive the $1,000 scholarship for the first year of study at Baruch College. Mr. Miele is the son of William E. Miele, a professor of Economics at Baruch College.
- Jean Torres of Julia Richman High School will also be awarded a scholarship for the first year of study at Baruch College. Miss Torres is the daughter of Jeanette Klein, a teacher at Julia Richman High School.

The Morton Wollman grants, which are given to students in the first half of their senior year, have also been awarded. These grants are given to students who are selected by the committee of three faculty members.

More information about the recipients of these scholarships can be found in the senior yearbook.

Attention Queens Residents

PHI LAMBDA DELTA SMOKER

FRI OCT 12, 1962

303 AVENUE OF THE AMERICANS • BETWEEN 27 & 28 ST 1ST FL

KAPPA RHO TAU

Would like to meet you at our Smoker

THURSDAY OCTOBER 13 AT 8:00 P.M.

ATTENTION SENIORS AND GRADUATE MEN STUDENTS

Playing, drinking, and having a good time are the features of the Kappa Rho Tau Smoker, which will be held this Thursday at 8:00 p.m.

Sam Safran, J. T. I. C. M. A. President, and Amelia Giordano, J. T. I. C. M. A. Vice President, have been named to host the Smoker.

The Smoker will be held in the Student Center at Baruch College. The Student Center is located on the second floor of the Baruch College Building, at 250 E. 25th St.

The Smoker will feature a dance and a buffet dinner. The buffet dinner will include meatloaf, salad, and dessert. The dance will feature music by a live band.

The Smoker is open to all seniors and graduate men students. It is hosted by the Kappa Rho Tau fraternity and the J. T. I. C. M. A. club.

The Smoker is sponsored by the Dept. of Student Life of Baruch College.

New Site for School Needed: Report Asks Downtown Center

The ultimate objective of the New York City Board of Education is to reach certain conclusions regarding the future development of the Baruch School. The Board of Education has been considering the construction of a new site for the school, and has been conducting a study to determine the best location.

The study has included the consideration of several locations, including the Downtown Center. The Downtown Center is located in the lower Manhattan area, and is considered to be a promising location for the new site.

The Board of Education has been conducting a study to determine the best location for the new site.

Academic Freedom

By Mark Grant

Deep in the hearts of the students and faculty are those who feel the "School of Economics" name is contradictory to the true meaning of the word "Economics." Several students and faculty members have expressed their concern that the name is misleading and that it should be changed to "School of Business Administration." They argue that the current name does not accurately reflect the nature of the courses offered and does not attract students who are interested in the field.

The School of Economics is currently facing financial difficulties due to a decline in enrollment. The faculty and staff are concerned that the name change could have a negative impact on the school's reputation and its ability to attract new students. They argue that the name change would not significantly alter the nature of the courses offered and that the current name is, in fact, a more accurate reflection of the school's offerings.

The administration is currently reviewing the issue, and a decision on the name change is expected in the near future. The faculty and staff are hopeful that a decision will be made that will benefit both the students and the school as a whole.

American Tragedy

By Tom Nicosian

The main character in the novel "American Tragedy" is a young man named Clyde Griffiths. Griffiths is a factory worker who dreams of a better life for himself and his family. He is ambitious and hardworking, but he is also ruthless and manipulative. His desire for success leads him to make poor choices that ultimately result in tragedy.

The novel explores themes of ambition, class, and morality. It is a critique of the American Dream and the values society places on success and achievement. The novel highlights the ways in which society can be blind to the mistakes and failures of its members, and it raises questions about the nature of justice and accountability.

The novel is a classic American novel that has been widely studied and praised for its depth and complexity. It is a powerful reminder of the importance of considering the human cost of success and the need for compassion and understanding in a society that often values profit and power over people.

Prescribed Mathematics Leads In Spring Semester Failures

By Madeline Green

One out of five students who enrolled in prescribed mathematics failed last term. Math had the highest percentage, 36%, of students who failed. The failure rate was significantly lower in the other courses. For example, English had a failure rate of 10%, while history had a rate of 12%.

The high failure rate in prescribed mathematics is due to the lack of preparation in the prerequisite courses. Many students who enrolled in prescribed mathematics may not have had the necessary skills and knowledge to succeed in the course.

To address this issue, the math department is considering implementing a more rigorous prerequisite system. This would require students to demonstrate a higher level of proficiency in prerequisite courses before enrolling in prescribed mathematics.

Tennis

The tennis team is doing well this season, with a record of 6-2. The team is currently in second place in the league and is looking forward to the upcoming matches.

Science

The science department is planning to introduce a new course next semester. The course will focus on the latest developments in biotechnology and will be open to all students.

Sports

The fall sports season is underway with the football team leading the way. The team is currently undefeated and is expected to make a strong showing in the upcoming playoffs.

Bellush Calls for Disarmament To Alleviate Poverty in America

Professor Bernard Bellush declared that some aspects of the nuclear arms race cause great concern. He specifically noted that the United States and the Soviet Union are engaged in an arms race that is detrimental to the world's economies.

Bellush argued that the arms race is a waste of resources that could be better used to address the world's poverty and other pressing issues. He called for a halt to the arms race and for both nations to cease their nuclear armament programs.

The professor is planning to present his arguments at the upcoming United Nations General Assembly. He hopes that his proposals will be considered by the world community and that action will be taken to alleviate poverty and improve the lives of people around the world.

"Thirty Years of Responsible Freedom"

By Steve Eagle

Steve Eagle, one of the students who attended the Baruch School, wrote a strong and biting critique of the Baruch School in his newspaper article. Eagle expressed his disappointment with the school's administration and the quality of education provided.

Eagle's article highlighted several issues, including the lack of resources and facilities, the high student-to-teacher ratio, and the poor quality of some of the courses offered. He also criticized the school's policies and procedures, which he found to be outdated and ineffective.

Eagle's article was widely read and discussed on campus. It sparked a debate among students and faculty about the state of the school and the need for change.

Mathematics

Once again the list of failures in prescribed courses has been revealed by the school. The list includes courses such as Basic Mathematics, Advanced Mathematics, and Algebra. The failure rate in these courses is very high, with many students struggling to keep up.

The Mathematics Department is planning to introduce some changes to address these issues. For example, they are considering implementing a new tutoring program to help students who are struggling.

Cottrell

The article about the Cottrell Report in the November issue of the magazine was well-received by the community. The Cottrell Report is the most important work published in the field of social studies.

The report covered many topics including the role of the teacher, school administration, and curriculum. It provided new insights for the field and was highly regarded by educators and researchers.

PHI SIGMA DELTA

The University of the Teacher is a place of learning and discovery. It is where the intellectual journey begins, and the seeds of knowledge are sown. Here, students are encouraged to think critically, to question, and to pursue their passions. The University of the Teacher is a community of thinkers, where ideas are shared and debated. It is a place where students are challenged to be the best they can be, to think creatively, and to express themselves freely. The University of the Teacher is a special place, where learning is a journey of self-discovery. It is a place where students can find their voice and their purpose. The University of the Teacher is a place where dreams are made reality, where possibilities are endless, and where anything is possible.
**Booters Seek First Victory Against Inexperienced Hawks**

By Marc Nason

The City College booters, seeking their first win, host an inexperienced Hunter team in a Metropolitan Conference game Saturday at Lewisohn Stadium at 2.

**Putre Excels As Goalie In Historic Loss to LIU**

(Continued from Page 1)

The last time City's b. played LIU. in Brooklyn October 10, 1960. It was during the Big East tournament while the Blackbirds tallied three. Adolph Putre made three saves twice as many as LIU.'s goalkeepers.

No longer will City College b. to dominate the headlines through unchallenged conquests. But Putre will win as soon as line clicks. The Putre factor will be easy. They will be seeded to City College will win.

**Return of Veteran Player Brightens Baseball Outlook**

By Joe Rosenberg

The return of a veteran brightens the hope winning baseball season at City College this spring. Set of these players participated in the fall exhibition which the Beavers posted a 1-2 record.

Leading hitters were Bart Franzitia, a catcher, Richie Sol, a shortstop. Fran is the team's best power hitter, while the two hurlers who set this fall were junior Mike C. and sophomore Ron Muller. Muller, who picked up the win on Friday.

Grennen, a righthander charged with the two defeats. Errors hurt him in both tests. The team will also be at the return of John Ippolito, He batted .326 last spring. Ippolito is one of the team's best hitters, while Muller, who pitched, picked up the win on Friday.

**Fairleigh Thwarts Harriers' Quest for Undefeated Season**

By David Hauer

The Beavers bid for an undefeated cross-country season was foiled when Fairleigh Dickinson whipped City, 24-34, at Van Cortlandt Park Saturday. Hunter, the third participating school, had 84 points, but it was City's first encounter.

Excellent performances were turned in by Mike Didyk, Mike Lester, and Lenny Zane of C.C.N.Y. They finished in a three-way tie for third place with 29:21. This finish was within a minute of the College record of 28:36 set by Paul Lamprinos in 1961. Although the record was not broken, each runner attained an individual goal by finishing the five-mile run in less than thirty minutes.

The team was hampered by the absence of Lamprinos, who did not run. However, the course remained as an opportunity to work together Friday. As a freshman, Lenny did little in his debut at Van Cortlandt Park. State was the only team to "walk" hunter. City meets Brooklyn, composed mostly of newcomers.
