President-elect Views Prospects for Council

Neil Palomba '63, president-elect of Student Council, preside over a Council next term that is only two mem-

The charter amendment passed in the second time in as many

be an increase of sufficient student interest in action near capacity—even to

ishy of having full representation from each class.

A budget of $70,750,123 was requested by the Board of Higher Education to operate

the City University for 1963-64. The twenty-five per cent rise from this year was attribut-

ed to an expected surge in enrollment by Dr. Gustave G. Rosenberg, chairman of B.H.E.

Some of the highlights of the fiscal year were:

1. A supplementary budget request of $150,000 to improve student room and board;

2. A request to start new doctoral programs in biology, physics, and engineering;

3. A request to increase the student body by 250 in 1963-64.

BHE Requests CUNY Budget

For 1963-64 College Year

Our 1963-64 budget requests," Dr. Rosenberg said, "are in line

with our traditional determination to do our share in opening the doors to all youth who can profit

from higher education and to provide quality at the same time.

Included in the request, presented to City Budget Director Willi-

am F. Shea, are appropriations for the continuation of the four pres-

ent doctors' medical programs inaugurated in fall 1962. Besides these,

chemistry, economics, English and pre-mederny programs in new history,

biology, physics, and engineering doctorate programs will be started

in the fall of 1963.

A part of the new request will pay the salaries of the new 191 in-

dependent positions in the city sessions in the senior colleges.

They will accommodate the anticipated 1,500 increase in day ses-

sions.

Supplement

In this week's issue of THE TICKER the semi-annual Liter-

ary Supplement is included. The eight-page supplement is paid for in part by the Baruch School

Students' Council.

Among the contributors to the literary supplement are Mr. Er

win Cohen, Mr. Marvin Glassman, Mr. Samuel Och, Mr. Paul Hahn, Mr. Harry Yach, Mr. Isi Zasloff, and Mr. Ira Silverberg.

The contest began with a screening process at 1 a.m. held for all

entrants. The selection of the five finalists was the task of Dr. Irving Siegel, Dr. Andrew Lavender, and Miss Marcia Yonk.

Siegels Voted 'Miss Baruch' At SC Dance

Jane Siegel, a glamorous looking Cohen, was crowned "Miss Ba-

rch School" at the Student Council winter dance, December 21. The contest was held under the auspices of the Activities Coordina-

tion Board.

The winner received an A.M.

radio while the runners-

up, Hedda Cohen, Bonnie Farson, Marie Rosario, and Judy Segal, were presented with wallets.

entrants. The selection of the five finalists was the task of Dr. Irving Siegel, Dr. Andrew Lavender, and Miss Marcia Yonk.
Hillel Orthodox Group and Teachers of Jewish Life

The purpose of Yavneh, the orthodox group of Betta Alpha Psi, as their philosophy of life, is to prepare the students to become members of this society. After admission, students are invited to participate in the religious and cultural activities as well as to observe the traditional Jewish customs. The requirements for admission to Yavneh are quite flexible and are left to the discretion of the members. The Beta Alpha Psi's purpose is to provide a community where students can grow and develop as members of the Beta Alpha Psi.

Requirements for admission to Yavneh are set by the members of the Beta Alpha Psi. The requirements include a desire to participate in the religious and cultural activities, as well as a commitment to observe the traditional Jewish customs. The purpose of Yavneh is to prepare the students to become members of Betta Alpha Psi.

Benevitz Calls Arbitration Interesting Type of Work

"Arbitration is an interesting and socially useful type of work," declared Mr. Benevitz, a graduate of Baruch School. After attending law school in 1955, while attending law school in New York City, he joined the Baruch School. He then worked as a law clerk for a year, and then became a member of the Baruch School staff.

Mr. Benevitz explained that the Baruch School accepted and he was a member of the Baruch School. He then worked as a law clerk for a year, and then became a member of the Baruch School staff.

At the beginning of this semester, one of the topics I had in connection with THE TICKER was newsmaking. "Sales," molding the minds of the students, I could not say that I had not run up some. THE TICKER is a newspaper, known in journalism, that is about as difficult to control as a child. I knew that the editor was like a child in the classroom, but I now had some idea of the problems. I have used the editorial "we" for much of the first part of the year. I now drop it in the second part of my book, the two parts of which are not necessarily related.

I think that this is a very important book for me to have written as soon as possible. It is a very difficult book to write, but I think that I have written the best boy in the form of a newspaper. I have used the book "we" for the first part of the year. I now drop it in the second part of my book, the two parts of which are not necessarily related.

A Meeting Point

By Marvin Goodman

There is a growing feeling among many thoughtful persons, such as I. P. Newcomb, and Joseph Wood Krutch, that because the conflict between the sciences and the humanities is complete, they find it almost impossible to place them in their proper place.

The most disturbing point is that it is said a feeling is now so complete that they find it almost impossible to place them in their proper place. They have substituted mathematical and physical sciences for the beauties of music, literature, and art.

"A Certain Stage in the Able of Science"

The obvious reference is to "A Certain Stage in the Able of Science," by A. R. Black, which I have read. It is a book on the subject of science, and I have made some comments about it in the past. I feel that the book is a real contribution to the understanding of the role of science in our society. It is a book that should be read by all serious students of science.

Expansion of the Scientific View

By Eric Cohen

1-Presentation of Ideas

Most non-scientists believe that the physical sciences developed relatively recently, and that the humanities have always been a part of culture. They believe that scientific progress is theoretical, while the humanities are practical. They believe that the sciences are objective, while the humanities are subjective.

In contrast to this it is alleged that the physical sciences are relatively recent, and that the humanities have always been a part of culture. They believe that scientific progress is theoretical, while the humanities are practical. They believe that the sciences are objective, while the humanities are subjective.

The sciences, according to this view, are only a part of culture. They are only a part of the human experience. They are not the whole of it. They are only a part of what we call "humanity."

The above outline offers an introduction to the expansion of the scientific view. From this introduction it may be seen that the scientific view is not just as much more...

"The Sciences Are Not the Whole of the Human Experience"

"Science is not, of course, the whole of the human experience. It is only a part of it. But it is a very important part of it."

"Science is not, of course, the whole of the human experience. It is only a part of it. But it is a very important part of it."

The Ticker and The Times—1984

By Dr. Samuel E. Glick

In today's world of social movements and what seems to be constant social change, the role of the educator is no longer limited to teaching the students of the past. The modern educator must be prepared to lead the students of the future. The role of the educator has changed from simply imparting knowledge to teaching the students how to think and how to apply their knowledge to the world around them.

The importance of education cannot be overstated. Education is the key to individual success and social progress. It is through education that we can create a more informed and responsible citizenry. The education system must be designed to meet the needs of the modern world.

Ethics and the Businessman

By Dr. Samuel E. Glick

The Role of Today’s Businessman

By Dr. Ira F. Rabi

In September of '62
Baruch opened to student and public.

"It is not every year that we have the opportunity to establish a new school of business in the nation’s capital and to create something entirely new out of almost nothing. To do so is an adventure in teaching and an experiment in education.

...it is our hope that the School will be a leader in expanding the knowledge of business and that it will be a source of new ideas and new ways of thinking about business. It is our belief that the School will contribute to the development of a better understanding of the business world and to the formulation of policies that will serve the public interest.

We are aware of the challenges that lie ahead, but we are confident that with the support and cooperation of the business community, we will be able to meet these challenges and to realize the objectives of the School.
Ethics (Continued from Page 2-2)

interest involved may also arise from other sources, and any public good must be im-
portant in the context of the whole society. The public interest is the sum of the in-
put of the individual members of the society. The public interest is a collective ex-
pression of the needs and desires of the society. It is the basis for the allocation of re-
sources and the determination of priorities. It is the basis for the formation of poli-
cies and the implementation of programs. It is the basis for the determination of the
extent of government intervention and the degree of individual freedom. It is the basis for
the evaluation of the performance of government and the accountability of public offi-
cials. It is the basis for the protection of the rights and interests of individuals and
groups. It is the basis for the resolution of conflicts and the promotion of harmony and
cooperation. It is the basis for the development of a just and prosperous society. It is the
basis for the realization of the human dignity and the fulfillment of the human poten-
tial. It is the basis for the cultivation of the human spirit and the advancement of
human knowledge. It is the basis for the promotion of the common good and the
enrichment of the human experience.

Beavers Even Ledger at 3-3
By Toppling Knights, 53-47; QC Totals Nine in First Half

By Jeff Palca

The Beaver basketball team evened its season's record at 3-3, by defeating Queens College, 53-47, December 22, before a crowd of 800 in Wingate Hall. It was City's third win in its last four games, and second consecutive triumph.

The game was not as close as the final score indicates. The half-time score had City ahead, 28-9. A rout which, during the half-time intermission might have wound up 30-9. However, a long jump shot by Jerry Greenberg and foul shot by Don Sidat put the game out of reach.

The key to the Lavender victory was fine defensive work. Johnny Wiles, who has thwarted the opposition's high scorer several times this year, blanketed Charlie Heneke, holding him to four points.

Greenberg, with thirteen points, was high scorer for City. He has now been high man in four of City's six games. Blatt scored eleven, and controlled the boards. Irwin Dubinsky of Queens led all scorers with fifteen, most of his points coming late in the game.

(Continued on Page 7)

Parker, Sieberg Named To All-NY State Booters

Neville Parker and Tom Sieberg, the Beaver soccer team's crack defensive duo, have been given honorable mentions on the all-New York State team, Coach Harry Karlin announced Thursday.

Selections are made on the basis of a complicated point system, which includes ratings by coaches and officials and takes into consideration the caliber of opposition the aspirants face.

"The difference between making first team and honorable mention can be slight," Karlin said. "For this reason the coach feels that players have a chance for all-American honors."

Last month Parker and Sieberg were named to the Metropolitan Conference first all-star squad. Both are seniors and have one year of varsity eligibility remaining.

This is the second time that Sieberg has been named honorable mention. Tom, born in Germany, played soccer and the javelin at Stuyvesant High School. He is a physical education major.

Parker was born in Tobago, West Indies, and has played both fullback and also halfback, his speciality the place-kick.

(Continued on Page 7)

JV Cagers Resume Action

Ken Trell Paces Point Makers

The City College junior varsity basketball team will play their first game in almost a month when they meet Cathedral College at the Cardinal Hayes High School gym, Monday.

The cagers split their first two games defeating Queens and dropping a close one to the New York Community College. Scheduled contests with the Brooklyn Polytech, Nie Institute and the C. W. Post freshman club were cancelled.

Coach George "Red" Wolfe has had trouble getting his ten men squared into shape, as a result of the schedule problems and the inability of the players to attend the practice sessions.

Leading the team is sophomore Johnny Klein and Stan Holland (Continued on Page 7)

Triple Win For Agaronian, But Beavers Drop First Tilt

By Steve Rosenblatt

Despite a triple win by Leon Agaronian, the City College fencers were soundly defeated by a strong Columbia team, 17-10 December 22 at Wingate Hall. It was City's first loss after three straight wins.

The Beavers fell behind 7-2, at the end of the first round. After the Lions took the second round by a 6-3 margin, they replaced their starting team. City took the last round, 5-4.

C.C.N.Y. will attempt to regain its winning ways Saturday against Navy, the national champions, at Annapolis. Last year the Midshipmen won, 18-9.

Agaronian, a junior, who was the bright spot for the Beavers in the Columbia match, has lost only one of his twelve matches this season.

Sophomore Alan Turner won two matches for the Beavers in the foil. He is young and is developing quickly into a strong fencer.

Other Beavers who were victorious were Alan Lex and Jay Taskoff in the epee, Frank Appice and Bob Kao in the sabre, and Gerry Iskernik in the foil. Lex has continually come off the bench and has a season record of 4-2.

A disappointment was the failure of all-American Vito Mannino to win in his first matches. Mannino felled two of the best men in the country.

Attendance at the match was about 200, composed evenly of Columbia and City fans.

Following the Navy contest, C.C.N.Y. will resume action Saturday, February 2 at Princeton. City split the Tigers, 14-13, last season.

Other teams on the schedule in include Rutgers, Brooklyn, and New York University.

City Grapplers Crush Yeshiva

By David Hauer

Co-captain Harvey Taylor remained undefeated at the C.C.N.Y wrestling team defeated Yeshiva University, 32-0, December 20, on the losers' mats. It was City's second win against one loss and a tie.

Winning performances were turned in by Mike Bratkic (167 lbs.), Al Siegel (130 lbs.), Al Les -kepler (167 lbs.), Alan Fink (17 lbs.), and Bill Hodges (heavy weight), all of whom pinned their men. Mark Miller and Taylor defeated their opponents without pinning them.

During intersession the Beavers will meet two teams from Philadelphia. City hosts Temple Saturday, January 30 and Drexel Saturday, February 2. The meets will take place on the Uprtown campus.
