SC Awards Insignia

Brooks Captures Highest Honors

Five seniors were granted insignia awards for excellence in the co-curricular field by Student Council Friday. They are Robert Brooks, highest honors; Bonnie Oloff, Neil Palomba, and William Rosenberg, high honors; and Michael Kreitzer, honors.

Marilyn Karlin, a poet editor-in-chief of THE TICKER, and Mary Lou Williams, a special Insignia award. Mr. Brooks, a former editor-in-chief of THE TICKER, is now the President of Student Council, is now Chancellors of Sigma Alpha.

Miss Oloff is editor-in-chief of Luxe in and president of Boosters. Mr. Bergfield, the president of Student Council, was a coordinator of the Activities Committee, Board and Business Manager of THE TICKER. Mr. Brooks serves as a coordinator at-large on the board.

Mr. Kreitzer, currently a business manager of THE TICKER, was a coordinator of the Board of Finance last term. He is editor of the Barron Bulletin and a member of A.C.B.

Entrance Standards Increased at College

Associate Registrar Murgan confirmed yesterday that admission requirements will be raised next semester.

The present requirement of a 162 composite score, if a student does not present an eighty-five average, will be increased to 165. At the University Center, the composite admission requirement will be raised from 174 to 176.

Miss Murgan declined that the new score was necessary because "all the city colleges were hit with rising mienjar of additional personnel to enable the University to accommodate the 1965-66 academic year."

Press Conference: Convocation Speaker Supported

President Buell G. Gallagher, answering the objections presented by the thorny issue, "Obseervation Post," to the Charter Day speaker, Dr. Jaime Benitez, Chancellor of the University of Puerto Rico, said, "I can think of no idea which would undermine academic freedom more."

To follow the suggestion of "O.P.," the president said, "the only person who would be able to speak was the one whose point of view was congruent to the president of the College."

In reference to the case of Melvin Lesser, Dr. Gallagher remarked that the "results of this appeal are welcome to all of us at the City College and the City University. It is the right decision as far as I am concerned. Any other decision would be a violation of the fair opportunity principle we try to maintain."

Mr. Lesser is a student with an 84.3 high school average who was excluded from the court against Brooklyn College's refusal to admit him. The Appellate Division of the New York State Supreme Court rejected his appeal.

The lawyer for the Committee for the creation of a Hispanic Department at City College is currently presenting the case to the administrative committee of the College, the president said.

"If we can expect any Ph.D. programs at the Baruch School, President Gallagher stated that "at present there is no definite time schedule." He added that, in time, he expects that there will be a Ph.D. program here."

"The president also remarked that, "history is likely to be added to the Ph.D. programs at the City University next year."

In reference to whether the City College would follow Brooklyn College in raising entrance requirements, Dr. Gallagher stated that, "there will be no raising of standards. The entering class in the fall of 1964 will be the same."

"The city colleges were hit with rising mienjar of additional personnel to enable the University to accommodate the 1965-66 academic year."

SC Elections Set Tomorrow From 9-3 In Cafeteria, Center

By Jay Haberman

Student Council elections will be held tomorrow from 9-3 in the tenth floor cafeteria and the lobby of the Student Center. Voting on the club break referendum will take place simultaneously and will be held over until Thursday.

"Keansburg" Steamer Ready For Mountains

The "City of Keansburg" will leave Battery Park Sea Wall Sunday morning at 9, thus beginning the Baruch School's annual boating excursion to Bear Mountain, announced Robert Pitter, chairman of the Boat Ride Committee.

The following subway routes are available:
1) I.R.T. Lexington Avenue to Bowling Green;
2) I.R.T. Seventh Avenue to South Ferry;
3) I.R.T. South Ferry to Whitemall Street.

Tickets will be on sale today through Friday in the Student Center lobby from 10-3 and from student salesmen at $2.50 per ticket. A limited number will be available at the pier at $3 per ticket. No tickets are refundable.

The boat will be supplied with beverages and snacks from a large cottage on board the steamer.

Cafeteria and one volley ball area will be available to groups which apply for them. The steamer will leave Bear Mountain at 5:30 sharp and arrive at Battery Park at approximately 8:30.

Funds Sought To Construct Two Colleges

Dr. Gustave G. Rosenberg, chairman of the Board of Higher Education, went before the Board of Estimate and the Finance Committee of the City Council Thursday and requested $200,000 be included in the 1963-64 budget for the City University in order to construct two new colleges.

The new schools are to be established in Brooklyn and Manhattan and are known as the Brooklyn Community and Gotham Community, respectively. A total of 68,500 students are slated to open their doors in the fall of 1964.

"The restoration of $500,000 was requested in order to provide for additional personnel to enable the University to accommodate the rising number of students enrolling every year."

Let's Vote Tomorrow

Tomorrow, Baruchians will be given the opportunity to voice their opinions on two important issues. The Student Council will hold a referendum to determine student sentiment on whether to extend the school's current procedures for granting awards and to change the present method of electing representatives to the Inter-Fraternity Council. At the same time, the Finance Society will initiate a procedure for determining student representation to the Inter-Fraternity Council by means of the Insignium Committee. The Insignium Committee, which is headed by Dr. Bellush, is made up of students who are elected by their respective floor delegates to act as a liaison between the student body and the student council. The Insignium Committee will hold a special meeting on Thursday, April 10th, in order to discuss the referendum. All students are invited to attend this meeting, which is expected to last for about an hour. The meeting will be held at the Student Center, Room 401. It is hoped that everyone will be conscientious enough to comply with the school's regulations.

The Faculty Views Education

Liberal Arts vs. Business

The following article was written by Professor Harry Adler, who is a liberal arts specialist, and Dr. James Bellush, who is a business specialist. The article presents a debate on the merits of liberal arts education versus business education.

Steven Evans

There are many qualities that a D.A. student must possess in order to be successful in college. Chief among these are a desire to learn, a willingness to work hard, and a commitment to the liberal arts curriculum. In all cases, the student should have a clear understanding of the importance of the liberal arts curriculum to the student's future success.

In conclusion, it is clear that the liberal arts curriculum is essential to the student's success in college. Any student who is considering a career in business should strongly consider the liberal arts curriculum. Only through a sound liberal arts education will the student be able to develop the skills and knowledge necessary for a successful business career.

Daniel Bauman

It is said that a maternal instinct is the most important quality of a mother. However, the truth is that the most important quality of a mother is the ability to love and care for her children. In order for a mother to be successful in her role as a mother, she must possess the qualities of a good mother, such as love, patience, and nurturing.

One of the important findings of the study was that a mother's ability to love and care for her children is directly related to the child's success in life. Children who are raised by mothers who possess these qualities are more likely to succeed in life than children who are raised by mothers who do not possess these qualities.

In conclusion, it is clear that the mother's ability to love and care for her children is the most important quality of a mother. Only through the development of these qualities can a mother be successful in her role as a mother.

Joseph Truman

When you vote for delegates to the Inter-Fraternity Council, you do more than just vote for representatives to the council. You are also voting for the future of the Baruch School. The council's decisions will affect not only the Baruch School, but also the entire city of New York. Therefore, it is important for every student to vote in the referendum.

In conclusion, it is clear that voting in the referendum is important for the future of the Baruch School. Every student should take the time to vote in the referendum, as the council's decisions will affect not only the Baruch School, but also the entire city of New York.
The President Speaks

St. Neill A. Pincus

Chairman

Today, May 7, 1963

Mr. President and Members of the Student Council:

I am writing to request that you consider the problems of the City Freshman Camp, a part of the Student Activities Program. This program is concerned with the orientation of the incoming freshmen class and is supervised by the Student Council and the Class of '66. The purpose of this program is to familiarize the freshmen with the physical and social environment of the College and to introduce them to the various activities and organizations available to them. The City Freshman Camp is a one-week program that takes place during the first two days of classes.

In recent years, the City Freshman Camp has faced several challenges. One of the main problems has been the lack of facilities to accommodate the large number of freshmen who participate. Another issue has been the coordination of the various activities and programs that are offered.

I am confident that with your support, we can address these issues and ensure a successful City Freshman Camp. I believe that the City Freshman Camp is an important part of the Student Activities Program and that it provides a valuable service to the incoming freshmen class.

Thank you for your attention to this matter.

Sincerely,

St. Neill A. Pincus
Chairman, Student Council

Statistics Help Management

BY: BERTY KAPLUN

Mathematics and statistics lend strength to the world today. They have been around since the beginning of human life. In ancient history, the first mathematical calculations were done by the Egyptians, who used them to measure land and count crops.

Statistics help management in various ways. They are used to analyze data, which allows companies to make informed decisions. For example, a company may use statistics to determine which products are selling well and which are not. They can also be used to predict future sales, allowing the company to plan accordingly.

In addition to helping companies, statistics are also used in research and development. Scientists use statistics to analyze data from experiments and to determine whether their hypotheses are supported. This information can then be used to develop new products or improve existing ones.

In conclusion, statistics play a crucial role in modern society. They allow us to make informed decisions and to understand the world around us. Whether you are a business owner, a scientist, or a student, statistics can help you succeed.

Letters to the Editor

Dear Editor,

I am writing to express my concern about the recent decision made by the Student Council. As a member of the council, I have observed some questionable practices and believe that the students' voice is being ignored.

Firstly, the decision to change the meeting time of the Student Council has been made without proper consultation. According to the rules set by the Student Council, changes in meeting times should be voted on by the council members. However, the vote was taken without proper discussion on the matter.

Furthermore, the decision to increase the tuition fee for next semester has been made without adequate justification. While I understand the need for additional funds, the increase should be justified through a thorough analysis of the budget and the needs of the school.

I urge the Student Council to reconsider these decisions and to involve the students in the decision-making process. It is important that the students' voice is heard and that their concerns are addressed.

Sincerely,

[Your Name]
**Beaver Diamondmen Divide Doubleheader with Jaspers**

The four hit pitching of Howie Friedman and the timely hitting of Marty Antonelli and Bart Frazier enabled the City College baseball team to trounce Manhattan, 7-2, in the first game of a Metropolitan Conference twin bill Saturday at Van Cortlandt Park. Manhattan edged the Beavers, 4-3, in the second contest.

The split left the Beavers in second place, but only 1 1/2 games out of the first division with four games remaining.

City College Winning Skein

**Ended by Colgate Stickmen**

By Jeff Pais

Colgate University ended the City College lacrosse team's five game winning streak Saturday with a 12-7 triumph at Lewisohn Stadium. City's record is now 5-3. The defeat severely hurt the Beavers' hopes for sectional ranking. C.C.N.Y. was hampered by the loss of co-captain defensemen Harvey Leshnick, who did not play because of a pulled hamstring muscle.

Markoe Plays Splendidly

Goalie Andy Markoe played splendidly, making fifteen saves, but the Beaver defense could not stop the rugged Red Raider offense.

Andy Mueller and Emil Castoled two goals each for City. Colgate scored six goals in each half.

Earlier in the week C.C.N.Y. defeated Lafayette, 11-5, on the Leopards' snow covered field in Easton, Pa.

Mueller Offensive Star

Mueller was the offensive star with four goals and one assist. He now leads the team with twenty-two goals.

The freshman lacrosse team lost to the Peekskill Military Academy, 8-2, Saturday, making its record 2-2.

The Lavender resumes action Saturday against Wesleyan at Middletown, Connecticut.

**Tennis Team Wins Again**

By Ken Freeman

The Beaver tennis team extended its winning streak to eight Saturday by lashing the United States Merchant Marine Academy, 9-0, in a Metropolitan Conference contest on the Finley Center courts. City's record is now 8-1.

The team still have a faint hope of capturing the league title. An Adelphi loss and a City win result in a two-way tie for the crown. This would necessitate a playoff.

Earlier in the week, the Lavender humbled Hunter, 8-1.

The Beavers' shutout over Kings Point (U.S.M.M.A.) was surprisingly easy.

In one of the unexpected highlights of the Kings Point match, the number three doubles team of junior Joe DuVinsky and senior Jeff Zupan won easily. Ken Wang and Karl Otto, comprising the number one doubles team, and Leon Rappaport and Mike Seiden, number two doubles, helped sweep all the contests.

**Masters Stars For City As Harriers Retain Title**

By Stu Kaplan

Paced by sprinter Owen Masters, the C.C.N.Y. track and field team captured its fourth consecutive title in the Metropolitan College Championships Friday at Lewisohn Stadium.

The Beavers finished far ahead of the field by amassing 101 points. Queens placed second with thirty-nine, followed by Brooklyn and Hunter with twenty-five and eighteen, respectively.

Masters, a junior, shattered two meet records as he took the 220-yard sprint in 22.1 and the quarter mile run in 48.8.

Also outstanding for the Lavender was Lenny Zane who set a new meet mark in the mile at a time of 4:23.3.

In the field contests both Hoyt and Paul Bronstein turned in fine performances. Hoyt scored an impressive victory in the hammer throw while Bronstein was the meet's high scorer.

Coming up for the trackmen is the C.T.C. championships ( intercollegiate Track Conference) at Adelphi Saturday.
