Admissions Frozen; "CUNY Threatened"

In an unprecedented response to proposed budget cutbacks for the City University of New York, the Board of Higher Education last night froze all new admissions to CUNY for the fall semester. The freeze will mean that an estimated 34,400 graduate and undergraduate students will not be admitted to CUNY for the fall semester.

Dr. Bowker, the 34,400 figure includes 1,000 high school graduates from disadvantaged areas who the university had planned to admit to its SEEK and College Discovery programs.

In a memorandum to the Board, Dr. Bowker asserted that CUNY’s administrative Council had voted unanimously for the freeze.

Allowing to the possibility of selective review of the proposed budget cuts suggested by legislative leaders in Albany last week, the Chancellor declared, “Although the Governor’s past actions have encouraged the growth of the university, as a public higher educational resource, we must realistically consider that our budgetary constraints for the coming year may very well be those set forth in the Governor’s proposal.

Dr. Bowker said the freeze would compel a 20 per cent reduction in regular admissions, so that admissions to SEEK and College Discovery and, “that in itself, is to some extent a freeze.”

After two years of planning, red tape and purchasing delays, Baruch’s campus radio station is finally preparing to go into operation. The station, which severely restricts the exposure, is to be heard in all areas of the university and in the dormitories.

The Board’s action also froze the regular admissions, no new admissions will be made in the areas of necessary curricular improvements; and as many other recommendations can be implemented by September, 1969.

Curriculum Committee Meets; Freedom of Choice Stressed

The Ad Hoc Committee which has seen several months of curriculum for the Liberal Arts, has seen its recommendations. According to Dean Andrew Lavender, the chairman of the committee, the group has been working with an eye towards the design of the freshman year. The Dean said that the committee worked on the requirements, that is to say, what a student will take first, when a student will take first, how many credits they will take first, and how many credits they will take second.

Utilizing the academic needs of the college as a foundation, plans for concentrated programs in each major subject are under construction. Examinations are being processed under the guidance of CUNY, and a freshman class at Baruch. Last year’s new graduates were circulared to get the students’ view of the college’s needs, but there was an extremely poor response.

In order to make the Baruch College experience a more relevant and satisfactory one for Black students, the Society of Koromante is making the following recommendations. The recommendations will be considered for their importance, and that they will be acted on in policy with the type of expediency that attached itself to the Black student struggle for relevance in his educational experience.

The recommendation is to be made in the areas of necessary curricular improvements; and as many other recommendations can be implemented by September, 1969.

The new college of Liberal Arts, the integration of these necessary changes should pose absolutely no problem in being included in the planning of the new Baruch College

Architect Designing B’klyn Site Plans: Atmosphere of Medieval Town Desired

In order to make the Baruch College experience a more relevant and satisfactory one for Black students, the Society of Koromante is making the following recommendations. The recommendations will be considered for their importance, and that they will be acted on in policy with the type of expediency that attached itself to the Black student struggle for relevance in his educational experience. We further concur that any one of these recommendations as is hardly possible be made available to entering freshmen in the forthcoming class of September, 1969.

Since the Baruch College is presently implementing a new school of Liberal Arts, the integration of these necessary changes should pose absolutely no problem in being included in the planning of the new Baruch College.

Prof Problem? Basement Talk Will Cure It

"What’s Wrong With Professors and How To Cure It" (or "Students Take A Dirty Look At the Role of Professors") is the title of a panel discussion which will "happen" at the Basement (18 E. 22nd Street) at 12:20 on Thursday. The program is to launch a series of discussions on this, the second program in this series will be entitled "The Professors Strike Back."

"The Basement, which is managed by the Ad Hoc Committee on Liberal Arts, is under the direction of Richard A. Hamlen, Chairman of the Basement’s discussion. He expressed the hope that the Basement will ultimately become a "Free University of Baruch." To accomplish this, the Basement will enlist student and faculty interest.

The panel will feature such experts as Lewis Strum (Editor of Ticker), Harold Fremer (President of Student Council), and Charles W. Emery (Chairman of the Student Council Curriculum Committee).

WBMB Turned On Soon; Disc Jockeys Requested

After two years of planning, red tape and purchasing delays, Baruch’s campus radio station is finally preparing to go into operation. The station is scheduled to be heard in all areas of the student center, presumably being the "campus music" system.

Several students, including Pauline Anderson, Bob Bowers, and Joe Swift, have already been selected as the first regular station's ambassadors. The station, which will cover all areas of the college, will be manned by students and faculty.

The tentative date for full broadcasting is February 25th or March 1st.
President Weaver Impresses at And is Impressed by Hillel

President Weaver was found to be a dynamic and imaginative speaker. Those present were impressed with his skill in delivering his ideas. Following the meeting, students commented on his ability to engage his audience.

-HILLEL MEETS PROF. FRAZIER

President Thomas D. Frazier, one of the foremost thinkers of the Yale Law School, gave a talk last Friday at Hillel House. Though a member of the American Bar Association, he is known for his ability to make legal problems understandable to students. He included a wide range of topics.

Malcolm X Eulogized At Memorial Ceremony

On Friday, the Secretary of the American Federation of Labor and President of the American Federation of Labor and Congress of Industrial Organizations, presented a speech in honor of Malcolm X. Malcolm X was known for his speeches on civil rights and his support for black liberation. The speech was well received by the audience.

The Role of the Faculty

Dr. Weaver feels that all higher education should be concerned with the university's distinctiveness in terms of the faculty. The faculty could meet with faculty members to discuss with the students present at the meeting. The meeting began at 8 p.m. on May 20th and lasted for an hour and a half.

Student Center to be Reorganized

Office Space to be Opened to Clubs

Students are being informed that the Student Center will be reorganized. Office space will be opened to clubs. This decision is part of a new trend at the university to facilitate student participation in decision-making processes.

THE PHILHARMONIA QUINTET

in a woodwind concert

Oak Lounge, Student Center
Thursday, February 27, 1:00-2:00 P.M.

This is a return engagement by Student Request, made possible by a grant from the Recording Industry Fund, with the cooperation of local 802, A.F. of M.

President Weaver was found to be a dynamic and imaginative speaker. Those present were impressed with his skill in delivering his ideas. Following the meeting, students commented on his ability to engage his audience.
Puerto Rican Studies Program Called for as P.R.I.D.E. Meets

Last week P.R.I.D.E. (Puerto Rican Institute of Defense Education) held its first meeting of the year at the Peace Q.C. to inform themselves of the Puerto Rican situation. It was described as a non-party group of Puerto Ricans in struggle for the liberation of Puerto Rico. The group was formed by members of the Committee to Defend Puerto Rican Rights, Radical Student League, Up Against the Wall and the Puerto Rican Student Association. The meeting was attended by about 50 persons.

The meeting was opened with Wilfredo A. P. Rivas, chairman of the group. He said that the group was formed to discuss political matters directly concerning the Puerto Rican struggle.

Emanuel M. Diaz, secretary of the group, read a statement from the P.R.I.D.E. "We appeal to everyone to participate in the P.R.I.D.E. meetings, because only this way can we become united in our struggle."

Meeting adjourned.

Advertising Rates

As of the next issue our Advertising Division will be reduced by 10.5% on all ads placed in the paper. This reduction will be effective as of March 1, 1969. The new rates will be published in the next edition of The TICKER.

The deadline for ads is 9 p.m. Tuesday for publication in the following week's TICKER. For more information, please contact our Advertising Department.

Money!!

The University is in a financial crisis, and the students are being asked to contribute to their final fees. We find it unfair that we are being asked to contribute when the entire University administration is not. We believe that the students should have a say in how their money is spent. We demand that the University administration be accountable to the students, and that the students have a say in how their money is spent.

Advertising by Aiko Delta Sigma

In order to save money, we are advertising in the newspaper instead of the University yearbook. This will allow us to reach a larger audience and increase our visibility. We believe that this is a more effective way to advertise, and we will continue to do so in the future.

Truth is An Other Emotion

As the title suggests, this is an essay about the nature of truth. The author argues that truth is subjective and that it is impossible to determine what is true. The essay is written in a poetic style and is a reflection on the nature of human understanding.

Long Time, Gone

by Russell Ferguson

At about two-thirty Friday morning, entering the sixth floor study lab, I was handed a simple flyer. The Society of Baruchans urged all students to boycott classes, and to attend a rally to be held the next day. The Society of Baruchans is the student government at Baruch College, and its members are elected by the students.

The flyer stated that the Society of Baruchans was protesting the University administration's decision to increase tuition fees and cut funding for student programs. The Society of Baruchans was demanding that the University administration make changes to its budget and focus on student needs.

I was surprised to see how many people were interested in the issue. At the rally, hundreds of students gathered to hear the Society of Baruchans speak. The rally was very emotional, and it seemed that everyone was united in their desire for change.

The rally was a turning point for me. I had never been involved in student politics before, but I was inspired by the students' passion and determination. I decided to become more involved in student politics, and to fight for the issues that I believe in.

Malcolm

by Andrew Rosenberg

Malcolm was a black civil rights leader who fought against discrimination and for the rights of black people. He was assassinated in 1965, but his legacy lives on through his ideas and his legacy. Malcolm was a complex figure, and his ideas continue to be debated by scholars and activists today.
And then something inside me gives way. I feel the child! See the child, or at least I think I see the child. Let him see you — for you are wondering about you. Feel the child! See the child, or at least I think I see the child. Let him see you — for you are wondering about you.

June

By how much do we change?

I can't even know its cause

I become

I am a junior at the University of Minnesota in Minneapolis. I am attending school on a work-study program, and I am working on a project in the field of computer science. My project involves developing a new algorithm for image recognition. The algorithm is designed to identify objects in images, such as cars, people, and buildings, with high accuracy. I am working on this project in collaboration with a team of researchers from the university and a private company. We are also working on a related project that involves the development of a new software tool for analyzing large datasets. The tool is designed to help researchers and data analysts to extract valuable insights from complex data. This project is supported by a grant from the National Science Foundation. I am also involved in a number of other research projects, including a study of the impacts of climate change on agriculture, and a project on the development of new materials for use in renewable energy applications. In my free time, I enjoy playing the piano and reading about the latest developments in technology. I am currently enrolled in a course on artificial intelligence and machine learning, and I am looking forward to learning more about the field.

First of all, something better to write about. I am now
about to disclose those trade secrets that have often baffled
me, particularly in the past. My favorite guitarist and
singer is John Lennon of the Beatles. I have loved
the idea of a musical duel, but knowing how
close their sound is, I never gave it a shot. Now
Lennon is stepping out alone, and I hear that
could be most interesting to see. If The Union Gap is in
the show, that would be interesting among someone
of the Balders, Stones, Stones, Stones, Stones, Stones, Stones,
Stones, Stones, Stones, Stones, Stones, Stones, Stones.

The “Big A” in this case is not Aqueduct, but big Lew Alcindor, all 7'2" of him. If not the best college basketball player ever to graduate, he is going to be the richest one.

The “Big A” will probably get at least one million dollars to sign a pro contract.

The “Big A” has stated publicly and often that he would prefer to play in New York. This, has caused many problems. The N.B.A. has given up fixing drafts and our beloved Knicks will not get the first draft choice. In the A.B.A. the New York Nets (their name this year) by chance won the coin toss from Houston and will have first choice. In the N.B.A. the team that will get him (Phoenix or Milwaukee) is not the richest club and how much it could afford to pay him is in doubt.

In the A.B.A. it has been agreed that all of the teams will chip in his bonus in order to save the league. Most ballplayers give the chance of playing in the city of their own choice and at a high price would grab at it. However, the “Big A” is not an ordinary ballplayer. I don’t think he could give up the chance of playing against great centers such as Chamberlain, Russell, Thumond and Reed, the A.C. will play in the A.B.A. It would be admitting he doesn’t have what it takes to be a great star. This is his chance to prove he is not only 7'2", but a great basketball player. It is for this chance that I feel Lew Alcindor will in the N.B.A.

(Continued On Page 11)

Bowling Tournament

The Baruch College Intramural bowling tournament will begin this semester at National Bowling Recreation Arena on Eight Ave and 81 St. on Tuesday, April 28, 1969 at 8:00 P.M. Anyone wishing to participate may sign up at the Baruch College intramural office and come directly to the bowling alley. There is no extra charge to bowl. All games will be scored per game. This will be a good tournament. Your averages is not important.

The Big A

By MIKE FUHR

Varisty Teams Being Formed

Prof. Wolfe Named Faculty Mgr.

Last week it was announced that Prof. George Wolfe has been appointed faculty manager of athletics. When questioned on the possibility of varsity teams, Prof. Wolfe stated that all teams that are being formed are varsity teams.

The Ticker

Tuesday, February 25, 1969

By LARRY BROOKS

It was V-D Day, V-J Day and New Year’s Eve at The Garden Sunday night. The Rangers handed the bibles of the National Hockey League a humiliating 9-0 whipping. The bibles specialize in hefty hockey, deep shots and obscene gestures. Sunday they specialized in being humiliated. The bibles are the Boston Bruins.

The 17,350 resident nuisances (otherwise known as Ranger fans) went berserk. They cheered on each tally and sent their minds during a thirty-eight second stretch in the third stanza when the Blueshirts repeated sputtering fire sleet addition added tally after tally to the Boston total score. That final score was registered by Garden favorite Brad Park — his first N.H.L. goal — only added fuel to the fans’ already well lit fire.

Everyone went wild for the Rangers. Emilie is back and he adds at least one goal to the club. Ed Gorman was in his usual form. His usual form is the best in the world. Red Gilbert, whose slap shot has been on vacation for much of the season, delivered one of the night’s best deflected bullets. Walt Tkaczuk, who, along with Park, is racing toward the Rookie of the Year award, tallied twice. Park excelled (again). Dennis Hextall netted his first big-league goal in a bad case of sunburn. Everyone played well. Even Eddie Leyton and Charlie Mees. Leyton led the crowd to cheers and whoops throughout the rout. With the scoreboard reading 9-0, he treated the Garden to a stirring rendition of “Happy Days Are Here Again.”

(But, maybe a little. But certainly not as bush as the score.) By game’s end, the Gardener had found some possibilities for a few of the teams. There is a difference under the Cat at this point. He will allow the Rangers to miss the playoffs. The Bruins will not. Finally they are not, as he rambled on, “tall, strong and well built.”

But best of all, the Rangers hit. And they hit. And they hit. And just as best, the Bruins were hit. And they were hit.

“When their last visit to New York, the Bruins totally humbled the then-Geoffrion-led Rangers, 4-2. The franchise was more meaningful; it is misleading. The Rangers players ran away with their own building. They were whipped, murdered and kicked. Even in the third period, they couldn’t be stopped.

Now they’re back. For one reason or another the Blue Shirts abandoned hitting under the Boom. Their play was off-times damn embarrassing to their fans; certainly it was quite frustrating. The loss of big Orland Kurtenbach has been a crippling blow to the Garden seniors. But that loss, in itself, was no excuse for their reluctance to bump a little. There is a difference under the Cat. For one thing, he will not allow the Rangers to miss the playoffs.

Case in point: Hextall played aggressive, strong hockey last season and showed well in the playoffs. This year, under Geoffrion, he was a different; hockey player. He seemed reluctant to hit anyone. A Camie Henrich-Tom Green or a John Ferguson. Hence he was shuffled off to Buffalo. Sunday he was last year’s Mel. The fact is that he may very well have turned around Sunday.

With New York up by a 4-0 count, and 5-0 being only a dream in the minds of only the most fanatic, I was following the score on the scoreboard away content to be hit hard, content to let his foe assume the upper hand. Not this time; not now. He immediately dropped his stick and gloves and swung away, decisioning his opponents from the Bruins. That was the change picked up. The Brins were beaten. Never again throughout the evening were the Boston able to physically beat up their foes.

Hextall then counted in the second stanza off a fine backhand. Twenty-nine seconds later he set up Marshall’s first marker. The rout was on. Unquestioned.

For the remainder of the night the crowd and Leyton were in a wild frenzy. Many days.

A few words about the Boston. They are a disgrace to hockey. They are not a hard-hitting team; they are a cheap-shot team. They are not tough; they are dirty. They are not, as Stan Fischer broadcast to the nation in The Sporting News, “invincible”; they have lost four in succession. It is not, as he also stated, “inevitable” that they will win the Stanley Cup; they will not. Finally they are, as he summed on, “the class of the league;” they are anything but.

Perhaps the fellow with the bullhorn voice in the mezzanine delivered the final line of the night. As the Bruins skated onto the ice he delivered the same line of the night. He xsi:ed them to get ready to hear the “Hey Eddie (Leyton),” he boomed, “Play Talk to the Animals.” The Rangers let their bodies do the talking, and walking, and they walked all over the team that used to lead the league.
