HELPING HAND (Fall): Eli Mason, President of Baruch College Fund, presents check for $3,000 to President of Phi Delta Theta, a student organization. The proceeds will be used to aid students. The gift was the first to be made out of an as-yet general fund.

The gift is to be used by the Financial Aid office as a revolving fund to make interest-free loans to students for the purchase of textbooks. The loans are repayable when the borrowers submitting an application of family financial need are approved.

Freshman Viewpoint
by Kevin Howard Dubrow

I'm the freshman representative on the "Ticker" and will write in this column every week. I have complete journalistic freedom to print what I feel is necessary. If you have a problem or complaint dealing with Baruch, drop it off at the "Ticker" third floor in the Student Center, and at the very least it will be read. I am also running for Freshman Representative because of my strong opinions about representation of students in their school. Before I discuss why I'm running and what I intend to do, I want to primarily deal with why you should vote at all.

Voting is a fundamental right of all in a democratic society. It is the method that allows everyone to work within the system. The only way Baruch will become the college you desire it to be will be by electing the official that best represents you. The job first begins with you voting and sponsoring the candidate of your choice, then to make the winner know your opinions. The freshman representative is your voice in the student council. A large turnout is essential for all and especially for freshmen. With cries of students controlling their schooling all over campuses today, this may be the most direct way to show the administration you want to be a part in deciding your future is to vote.

The job of the Freshmen Representative as defined in my school is to vote in the student council. The rest of the job is to help you; I feel that I am capable of doing this job. I believe that if we spend some of our time—my part of our day at Baruch and the day should run smoothly, not just evolve into existing cycle. Remember to vote on any day you have a chance. If you have to use some of your valuable free-time—then do it. Decide inside yourself if you feel it is worth it; I most certainly do. If you feel that I will represent you best and I will serve to the best of my ability (which is one thing I can promise) then cast your vote for me. If you feel my advice by individual and group personal interviews. Suggestion boxes are too easily passed by with the busy schedules most freshmen must adjust to. The job of the Freshmen Representative as defined in the school is to vote in the student council. The rest of the job is to help you; I feel that I am capable of doing this job. I believe that if we each spend some of our time at Baruch and the day should run smoothly, not just evolve into a system.

Meet the President
