Liberation of Student Center Enters Fourth Week

THE ENEMY:
"Baruch College is better than some, but not as good as many"

"Much of what I do is what I don't do"
March On Washington
April 24

We are once again faced with a wider, deadlier war as the Nixon Administration presses ahead for military victory in all of Southeast Asia.

Despite promises of withdrawal, Nixon has escalated the war in clear violation of the sentiments of the people of this country and the world. Far from the fighting, Vietnamizing Nixon has "Americanized" the War throughout all of Southeast Asia.

BARUCH CHAPTER OF THE STUDENT MOBILIZATION COMMITTEE

Total majority sentiment must find expression in the streets on APRIL 24th!

Join us in demanding the immediate and unconditional withdrawal of all U.S. forces from Vietnam.

There is no more popular sentiment in this country than the desire to end the war in Vietnam. May we urge you, sir, to convey these views to the Mayor, the Board of Estimate, and the City Council as they now turn their attention to the budget negotiations which will inevitably create great pressure for some tuition increase.

Many thanks to Glenn Heffernan and Changes for the fine pictures of the strike.

Potential Energy

Before even attempting to delve into the complex, somewhat technical subject of Potential Energy, let me briefly mention the efforts of the Student Mobilization Committee to bring the war home to the campus of Baruch College.

BARUCH CHARTER OF THE STUDENT MOBILIZATION COMMITTEE

On Thursday, April 28, 1971, a meeting had been called by the General Student Body of Baruch College to discuss the student boycott of the City University. By approximately 3:00 p.m. that afternoon, this meeting had attracted an estimated 500 to 750 of the students who were assembled.

The meeting was called to order by President Killoran (Marketing Dept.) The faculty was in on the act too. Mr. Killoran (Marketing Dept.) announced that the faculty was in on the act too. Mr. Killoran (Marketing Dept.) announced that the faculty was in on the act too.

ADVICE OF THE WEEK: (To faculty and students)
1. Not a penny increase in fees.
2. Adequate appropriations for all projects for the fall semester but we fear we're just a little bit too late.
3. Adequate appropriations for all projects for the fall semester but we fear we're just a little bit too late.
4. Adequate appropriations for all projects for the fall semester but we fear we're just a little bit too late.
5. Expansion of the disciplines in the College.

Many thanks to Glenn Heffernan and Changes for the fine pictures of the strike.
