Basketball Team Ends 5 Game Winning Streak

After winning five straight games, the Baruch Basketball Team ended its winning streak by losing its sixth game of the season.

The Baruch basketball team ran its season-opening winning streak to five games, but the team couldn't hold onto the momentum as it lost to New Hampshire, 76-66.

Baruch had been on a roll, with wins against New Hampshire College, 85-72, and Williams College, 87-79, in the first two games of the season. Then, Baruch faced New Hampshire, which was coming off a loss to Williams College.

The game started tight, with both teams scoring 10 points in the first quarter. Baruch led by four points, 16-12, after the first quarter. In the second quarter, New Hampshire took over, scoring 20 points while holding Baruch to 11. The halftime score was New Hampshire 56, Baruch 34.

In the third quarter, New Hampshire continued its dominance, scoring 24 points while Baruch could only manage 20. The score after three quarters was New Hampshire 80, Baruch 54.

The fourth quarter was a disaster for Baruch, as New Hampshire scored 22 points while Baruch could only manage 12. The final score was New Hampshire 92, Baruch 66.

Baruch was led by John Kiernan, who scored 20 points. New Hampshire was led by Prince Robinson, who scored 20 points.

The loss to New Hampshire ended Baruch's season-opening winning streak. Baruch will now focus on its conference games, starting with a home game against Hunter College on January 10.

STUDENT GOVERNMENT REFERENDUM

Read it and VOTE

In the 1st floor lobby of the main building,
Defeat The Referendum

The Student Senate will soon present a referendum to the student body. This referendum must be approved. This is no question for this referendum. It is argued that it will benefit the student body. However, this is not the case. The referendum will not be re-elected, due to the poor performance of this student's senate. It seems that the referendum should not make that decision.

A Letter From Roberto Rodriguez, Chair of the Student Government

Dear Editor,

We are writing to respond to the recent letter which appeared on page 1 of the January 2 issue of the Student. While we agree that the Senate should approve the referendum, we do not believe that the Senate should approve the referendum without further discussion. We believe that the Senate should consider the following questions:

1. What is the purpose of the referendum?
2. Who will benefit from the referendum?
3. How will the referendum affect the student body?

We believe that the Senate should consider these questions before approving the referendum.

Sincerely,

Roberto Rodriguez

I would almost find it a sin 
To use software without 
Making sure that it's even 
Without a doubt a sin.
