The Next Four Years

In less than six weeks, we, the American people will decide which of two men to vote for as President. In two weeks, we will be determining whether Mr. Nixon will have four years more to serve as President of the United States or whether he will be leaving during the next four years, of which he has been in office for more than half.

Mr. Nixon seems to us, in these respects, to be the President of the past. He cannot pretend to be the future. The past, he seems to us, is a failure. Mr. Nixon has indeed had spectacular triumphs; he seems to us, however, to be a man who never seems to have a plan. His plans have never been carried out. He seems to us, in the direction of the American people, to be a failure.

Mr. Nixon has adopted policies that he had spent a lifetime in opposing. He has been taking during the past four years, or which he once spoke with such fervor, the opposite position. He has failed both in principle and in practice to do this.

Mr. Nixon failed to carry out his explicit promise to leave the gold standard. In so doing, he failed both in principle and in practice to do this. He failed both in principle and in practice to do this. Mr. Nixon failed to carry out his explicit promise to leave the gold standard. In so doing, he failed both in principle and in practice to do this. He failed both in principle and in practice to do this.

Student Power Strikes Again

The re-opening of the Student Center at 8:00 A.M. is an example of successful Student Power. The administration's decision made last week to keep the center closed until 11:00 A.M. during intersession was reversed by students who managed to get 115 signatures on a petition to change the policy. The petition was submitted to the Vice President of Student Affairs, Dr. Robert Zalkind, who ruled in favor of the students.

The Student Center was occupied day and night, according to TICKER's reporter Tony. A larger elevator and new jokes were announced as the improvements. Tony also reported that several students serving on committees is the strongest committee the college has ever had. And what of the Student Body? We call on you, in your capacity as Stalwarts of the University, to respect their students should they wish to express their grievances.

TRICK OR TREAT

OCT. 25, 1972

Dear Miss Madsen,

This letter is in response to your letter and the one before it. I am afraid that you are not going to find any new information from me. In the first place, I want to make it clear that I am not interested in discussing the facts of the case with you. I believe that my position as head of the organization is not in question, and I am not going to discuss that issue with you. I am also not interested in discussing the implications of the case with you. I believe that my position as head of the organization is not in question, and I am not going to discuss that issue with you.

With hope in my heart for a better world,

- With love and detachment. It will come eventually.

It's nine o'clock and the city is awake. The streets are filled with people, the shops are open, and the air is filled with the sound of cars and trucks.

I live in a small apartment in the heart of the city. The view from my window is of the busy street below.

I've been here for a long time, and I've seen it all. The people, the places, the things that happen here. It's a city that never sleeps.

This morning, I saw a group of kids playing in the street. They were laughing and shouting, completely oblivious to the world around them.

It made me think of my own childhood. I remember those days, when I was young and carefree. I used to love to run around and play in the streets, just like those kids.

But as I got older, I had to grow up. I had to learn responsibility and take on the weight of the world. It's not easy, but it's necessary.

I'm not sure what the future holds for me. I know that I'll keep on living in this city, but who knows what will happen? Maybe I'll move, maybe I'll stay.

But one thing is for sure, I'll always be a part of this city. Because no matter where I go or what I do, the city will always be with me.
Eastern's Leisure Class. Sometimes it's Coach. Sometimes it's First Class. Sometimes it's Free.

Usually you pay Youth Fare and you get a seat in Coach.

After you buy a Leisure Class ticket at the regular Youth Fare, any of these things can happen:

- Since Leisure Class is a Conditional Reservation, it's possible you won't get on the flight you made a reservation for. But, if you do, you'll usually get a seat in Coach.

If Coach is full and First Class isn't, you get First Class.

You'll get a seat in First Class. Drink First Class drinks and enjoy First Class service.

And you still enjoy the Youth Fare. 11% of all the people who bought a Leisure Class ticket last year got a First Class seat.

The Annual Growth Rate has accelerated in the past six months. This means that the working people need more help to cut the dead weight of inflation and unemployment. George McGovern for President. McGovern is right on the issues McGovern is right on the issues.

The Real McGovern

In his presidential campaign, George McGovern will reverse mis mistakes, cut the dead weight of inflation and unemployment, and run the country in a better way.

The concept of the Vietnam war has driven George McGovern to solve the economic problems of the land. The original concept was to lift the dead weight of inflation and unemployment. The Vietnam war was to be the agent of change.

George McGovern is the only one who can cut the dead weight of inflation and unemployment. George McGovern is the only one who can enable West Virginia to lift the dead weight of inflation and unemployment. George McGovern is right on the issues McGovern is right on the issues.

Leaf Through Leaflets

By JOYCE ROSENBERG

As everyone knows, New York is full of people who are interested in politics. In fact, it is somewhat difficult to find a person who is not interested in politics. The last presidential election was particularly important, and many people were concerned about the outcome. As a result, there were many leaflets doing the rounds, and I decided to take a look at them.

One of the most interesting leaflets was from the headquarters of the Humphrey campaign. It was called "The Humphrey Platform." I read it carefully and was impressed by its cogency and persuasiveness. Especially good at persuading me was the section on foreign policy. The leaflet stated that Humphrey would continue the policies of the Kennedy Administration, including the war in Vietnam. I was not sure about this, but I was interested in hearing more.

Another leaflet, from the headquarters of the McGovern campaign, was called "The McGovern Platform." I read this one carefully, too. It was quite detailed, and I was impressed by its clarity and consistency. I particularly liked the section on education, which stated that McGovern would provide more money for schools and libraries.

I also read a leaflet from the headquarters of the Sargent Shriver campaign, called "The Sargent Shriver Platform." This leaflet was more difficult to understand, as it contained a lot of technical jargon and complicated ideas. I was not sure about this, but I was interested in hearing more.

Overall, I was impressed by the quality of the leaflets I read. They were well-written, well-researched, and well-produced. I hope that in the future more people will take the time to read and think about these leaflets, as they provide valuable information about the candidates and their policies.
