LEGAL ADVISORY

Changes Slated In Activity Fees Allocations

For the Spring 1973 term, there will be
semi-independent agencies for small-
and large-scale events. The new orga-
ization will be formalized under the
the Center for Student Affairs and
the Student Activities Board. All small-
and large-scale events will be under
the control of the new organization.

by Warren Brown

Theatre-touring students

Dee Lohman, L. Freedman, and Jeff Stadler, students who are now on tour with the play "The Effect of Gamma Rays on Man-in-the-Moon Marigolds," were recently interviewed by Warren Brown about their experiences. "As actors, we have become completely anaxi- tic. At times, we have felt a real sense of what is happening during a performance. We have to rehearse a lot to get the proper feeling into the scenes, and we have to make sure that our emotions are in sync with each other. It's a challenging experience, and I think it's a good way to learn about acting and about ourselves as well."

Thank you, Robert B. multiple people

Thank you for your response. We are making progress on the project. The next steps are to finalize the design and develop the prototype. We appreciate your continued support.

OPEN FORUM

"As for registration itself, here is a look at some of the problems that our students face. I would like to express my appreciation to the Registrar's Office for their hard work in making sure that the registration process runs smoothly. However, I have noticed that there are some issues that need to be addressed. One of the main problems is the lack of space in certain classes. This has caused some students to be unable to register for the courses they want. We need to find a solution to this problem so that all students can have access to the courses they need.

Another issue is the amount of paperwork that students have to complete. This can be very time-consuming and stressful. It would be helpful if the Registrar's Office could streamline this process and make it more efficient. This would allow students to focus on their studies and not waste time on administrative tasks.

Finally, I want to mention the issue of fees. The fees for courses and registration are quite high, and this can be a burden for some students. We need to find a way to reduce these costs or provide financial aid to those who need it.

In conclusion, I appreciate the Registrar's Office for their efforts to make registration a smoother process. However, there are still some issues that need to be addressed. I look forward to hearing more about the solutions that are being developed to improve the registration process.

Thank you."

Best of the Past Year

On Hell

One of the most impressive productions of the past year is "In Hell," now playing at the Ethel Barrymore Theatre. The play is written and directed by John Van Druten, and stars Laurence Harvey and Natalie Wood. The story is set in a secret research laboratory where Dr. Goddard (played by Harvey) is conducting experiments on a group of people who have been selected for a special project. The play is a masterpiece of suspense and horror, as the characters struggle to survive the conditions of the laboratory.

Medea

The Circle in the Square opened "Medea" with an electrifying performance by the remarkable actress Zoe Wanamaker. The play, based on the ancient Greek tragedy by Euripides, is a powerful exploration of the themes of love, power, and betrayal. The story follows Medea, a beautiful and intelligent woman who seeks revenge on her husband and his lover after being betrayed. The play is a timeless tale ofCRM

Debts and Credits
by William Kines

Recently, while riding the F train to
Brooklyn, I happened to overhear two
passengers discussing the issue of
student loans. One had no
intention of paying back her
student loans, while the other was
seriously considering her options.

This was a result of dropping out or failing,
and it was a testament to the high cost of
higher education. Many students are forced
to take on significant debt to cover tuition,
costs, and other expenses. However, the
cost of living is also on the rise, making it
even more difficult to manage financial
obligations.

Despite this, many students continue to
accumulate debt, hoping to secure a better
due to their education. The burden of student
loans can be overwhelming, and it often
leaves students with a sense of financial
uncertainty.

The issue of student debt is an important
one, and it is crucial for policymakers to
consider the impact of these policies on
colleage students. It is important to
acknowledge the challenges faced by
students and to work towards creating more
affordable and accessible higher education.

In the meantime, students must take
responsibility for their financial well-being
and explore options for managing their
debts. This may include seeking
consolidation or forgiveness programs, or
considering alternative forms of
financing education. Ultimately, the
solution to the student debt crisis will require
a collaborative effort from all parties involved.

The problem of student debt is multifaceted,
and it will require a comprehensive
approach to find a solution. It is important
to prioritize higher education and to ensure
that students have access to the tools and
resources they need to succeed.

This is not an easy task, but it is one that
we must continue to work on. Let us
resolve to do our part in supporting those
who are striving to fulfill their dreams.

Statesmen Beat Newark State, Evers

The basketball team, heading for its finest season, won its eighth game in 10 starts last Wednesday, January 31, as it broke loose in the final eight minutes to defeat Newark State, 71-57 at the 69th Regiment Armory.

It was the first game in 17 days for the Statesmen and the effect of the long layoff showed in the shooting. Baruch made only 31 of 83 shots for 37 percent. Newark State made good on 49 percent of its shots, but got off only 47, making 27.

The big difference in shots taken was Baruch's willingness to try to break the game open from the outside plus a Baruch pressing defense that forced 41 turnovers. Baruch turned the ball over only 20 times.

Baruch led for most of the game, but several cold spells cost them a 12 point lead in the first half and a 9 point lead in the second half. Leading 46-41 with 14 minutes left, Baruch went six minutes scoring just two points and fell behind 50-48.

However over the final 8 plus minutes Newark State fell on hard times and scored just one basket, plus a pair of free throws. Baruch got 21 points in that span.

Down by three, the Statesmen ran off ten straight points to turn the game around. Johnny Adams hit two free throws and stole the ball at midcourt and raced in to put the home club ahead to stay. Adams hit another free throw and put the home club ahead to stay.

Baruch returns to action Wednesday night, February 7, at the 69th Regiment Armory, 25th St. and Lexington Ave., against New York Tech. (1-2) at 8 p.m.

The Bears are another team which has shown promise and are 8-4 overall. They are led by 6'8 Hilton Armstrong, whose twice made the All-East weekly team, who is the team's leading scorer.

Saturday night, February 10, Baruch has another tough night and this one up in Rhode Island against Roger Williams. The Bears won eight of their first 16 games and have been winning by an average margin of nearly 20 points. They too will entertain Baruch with a three point lay-up to break the game open.

Baruch finished with 21 points, 10 rebounds, 4 assists and 3 steals in 32 minutes and 12 seconds.

John Adams lays it up for two points in the last half of the game against Newark State College.

Rick Wilson had 15 for State and Leonard Hill 14 along with 12 rebounds. Adams finished with 21 points, 10 rebounds, 4 assists and 3 steals in 32 minutes and 12 seconds.

The Bears have been getting good shooting from the outside plus a Baruch pressing defense that forced 41 turnovers. Baruch turned the ball over only 20 times.

For most of the game, the Bears have been winning by an average margin of nearly 20 points. They too will entertain Baruch with a three point lay-up to break the game open.
