ANTICIPATING THE DEMANDS OF THE MODERN BUSINESS WORLD

TICKER

BARUCH COLLEGE, SEPTEMBER 21, 1973

STUDENT GOVERNMENT ELECTIONS
THIS MON.,TUES., AND WED.

HERE ARE THE CANDIDATES

CHAIRMAN

Bill Fox

Why does a person want to run for Chairman of Student Government? There is hard work and difficult decisions to be made. I feel that the student body at Baruch deserves a better deal than they've been getting. I believe that Student Government (and especially its Chairman) should take more active roles in making Baruch a better place (both academically and socially). I feel I can best represent other students with these same beliefs and aspirations in the betterment of Baruch College.

Lance Duane

I will push for the abolishment of many of our now famous required courses (swimming, etc.). I will push for the extension of club hours to Tuesdays as well as keeping open our already existing Thursdays. I will look for ways to improve our existing registration procedures or lessen built in obstacles that our present one brings.

And lastly, I intend to always be open to your suggestions, criticisms, and hopefully your praise.

Harry Gibbs

If we want to have some thing done at Baruch, we have to be united. Otherwise, we can forget it. It is also time that the needs and interests of the students be taken care of. We have to sort priorities and stop wasting our time and energy on fumes and stupid hang-ups. Let's get on with the business which is our common goal here: a better FREE EDUCATION and a BETTER ENVIRONMENT for all of us!!!

Alma Brundage

This is notification of my candidacy in the coming elections for Student Government. My name is Alma Brundage, and I am a junior here at Baruch. The platform that I will defend and represent, in regard to seeking the nomination for Chairperson, consists of a straightforward no nonsense program geared toward the student body in general. I believe, through my past personal and academic experiences, that I can accomplish the task of being "Chairperson of the Student Government!!!"

Allan Fisher

The year is 1973, yet for the students of Baruch College the academic environment is more reminiscent of that which existed in the early 17th century. Our previous representatives have not met the challenges of the 1970's, yet the buck must STOP NOW! The road to progress must be begun.

This year a man with a desire for change is running for chairperson.

TICKER

There have always been misinformed or uninformed about all student matters, we only hear what they want us to hear; we only know what they want us to know. This has got to stop now! today! this semester!

The needs of the students of Baruch have always been minimized or unprogressed. We represent the students at Baruch not the faculty. We are here to work for and represent the students and nothing else.

Carmen Flores

President and I understand that our school is not one of the finest in the country. But the present mentioning of our school evokes laughter particularly among its own students. Its time we students take pride in our school and attempt to regain our previous high status as a major learning institution. The student government can help in this endeavor with the aid of proud Baruchians as myself. Let's put Baruch College and its students back on the map.

Rosie Hodge

As a Representative at Large, I hope to help bring about changes in the student government, as it presently stands. Many of the members of the student government do not have any concern for the students in this school and are looking out for their own personal advantages. Because of this, they have neglected to represent the student body and carry out their responsibilities to the student body.

Kevin Dubrow

I am the most qualified individual in Baruch to serve on TICKER Association! Much work involving hundreds of hours and experiences allow me to make the above statement. I have served on TICKER for three years. Reporting and a column were my first jobs and I moved up to Associate Editor for two different editors-in-chief. This semester I am Managing Editor and I was on TICKER ASSOCIATION last year. I have approximately a hundred stories and many experiences. My goal is to make changes for changes and progress in the college and on the paper.

REPRESENTATIVES AT LARGE

This school was recognized as one of the finest in the country. But the present mentioning of our school evokes laughter particularly among its own students. Its time we students take pride in our school and attempt to regain our previous high status as a major learning institution. The student government can help in this endeavor with the aid of proud Baruchians as myself. Let's put Baruch College and its students back on the map.

Representing the juniors and the student body in Student Government one of my goals is to follow up on some unfinished work done by last year's senate. Example is the teacher evaluation, results where so much time and money was spent on it and nothing was published. Also I would keep in contact with the student body about issues that concern us the students, example: the security guards in the student senate. So with your support I will be able to inform students about these important issues that affect all students.

Eric Renda

Student government has for too long served primarily to hear recommended club requests automatically reduce them, and eventually approve the remaining skeleton.

If we want to have some thing done at Baruch, we have to be united. Otherwise, we can forget it. It is also time that the needs and interests of the students be taken care of. We have to sort priorities and stop wasting our time and energy on fumes and stupid hang-ups. TICKER
Student senate representative to the executive board of Baruch College, I have been balloting on some new educational policies that affect students. I have also been representing students in various advisory committees and working on new legislation. I am proud to represent the student body at Baruch College and to be a part of the Student Senate.

One of the problems many freshmen first encountered was registering for classes. The system of Student Government, which is run by the students, sometimes leaves our own courses and we are given our own programs and courses which we did not use. I have noticed many things that need changing and adjusting. I believe that student government can be improved, and I am running for the Senate for the future. Look past the superficial questions and listen to the students and not their own personal conflicts.

Kevin Howard Dubrow

As an incoming Freshman, I have experienced many things that affected the overall atmosphere that has existed in Baruch College. I have seen the need to create a more effective student government. I am running for the Senate to help make the school as liveable as possible.

Baruch Students, as members of the community, in addition to their rights as set forth in the "Joint Standards of Freedom of Students", should be able to participate in our school's policies and activities. The Senate is the organization that allows students to share the exercise of responsibility and authority on and off campus. Despite the fact that the Senate is composed of too-old, conservative old students, we can be more liberal than any other group of students. I am a member of the Arts & Humanities class and I am a member of the Sophomore Senate. I believe that as a senator, I can help improve the Senate and also improve the student government as a whole.
