The Administration Does NOT Care About YOU

The School of Business, Arts, Business, and Education have decided that 1) no closed courses can be opened at Baruch College, and 2) all courses are open to all students, regardless of the student's financial aid status.

The school administration is restricting the ability of students to enroll in courses that are not open to all students, regardless of their financial aid status.

Open Meetings?

The Committee on Committees has decided that all meetings should be open to all students, regardless of their financial aid status.

To the Editor:

I write as a student aide for the College of Business. I have had a few experiences that have made me wonder about the nature of our meetings.

Last week, President Wingfield called the editors cat. He was talking about the open meetings policy. He said, "Does NOT Care" and that "President!"

I was present at the meeting where President Wingfield made these comments. I heard him say, "Does NOT Care" and that "President!"

I have noticed that President Wingfield often uses this phrase, "Does NOT Care" and that "President!"

MOTION:
Student Government Workshop A Success

In beautiful Cuddalore, New York at the Bear Park Resort Lodge, Student Personalized Services sponsored a "workshop for Day Session Student Government." The November 16-18 workshop featured skills on working together as well as how to activate change for Baruch.

Under the direction of Mr. Ron Tren, the workshop gathered fifteen members of student government an opportunity to get to know their fellow Seniors better and to learn how to build a working Student Government. Mr. Tren, Marcia Fitzgerald, Jim Forrest, Dariel Irving Green, Donna Stool and James Johnson and Jose Rosety of the SPS helped make the experience a learning one and allowed the members of Council to learn what skills the SPS staff had to offer them.

Each participant was given a schedule of sessions, a notebook and a copy of "Journey to the Center of a Glance." The schedule of sessions was compiled by James Forrest, Marcia Fitzgerald and SPS staff. The workshops included: "Effective Problem Solving," "How to Use Robert's Rules of Order," "Mock Meeting," "Students and Faculty," and "The Making of an Appeal." The workshops were followed by a wrap-up and a sharing of what was learned.

On November 27, 1972 the above-mentioned committee awarded tuition waivers for the fall 72 to a number of students.

It has come to our attention the following:

- Although there was an increase in tuition effective September 1971, the amount awarded was never adjusted.
- The resolution stated that "each college shall seek to match the funds from outside sources." Either this was not done or the funds have not been utilized.
- Many students were denied waivers for lack of funds, unofficially. Officially they did not meet the requirements.
- We do not think it is too much to ask of you that you allow students to have tuition waivers.
- We ask you to allow the committee to have previously unallocated funds transferred to the Spring 74 funds.

Thank you in advance for your cooperation.
