PETITION TO STOP CARIBBEAN PROGRAM
(Survey of the Caribbean Islands)

We, the undersigned, being duly registered, matriculated students at Baruch College, object to the implementation of the Summer Pilot Program in the Caribbean being given this summer of 1974.

We OPPOSE the implementation of this program because of the following reasons:

1. This program was presented to the Baruch Community last spring and was rejected by the students and the faculty for the same reasons stated below. It was then opened up to C.U.N.Y. and again failed to pass. The re-implementation of this already rejected proposal here at Baruch College is again another act of the administration's lack of concern, desire, and regard to meet the needs and demands of the students.

2. The course attempts to cover the Major Antilles and the Minor Antilles, a total of 14 islands, in a period of 3 weeks consisting of 45 hours.

3. It is academically impossible to cover the
   a. History in 2 hours.
   b. Culture in 5 hours.
   c. Economics in 6 hours.
   d. Polities and International Relations of the Caribbean Nations in 5 hours.

4. We feel that this is a TOKEN COURSE which overlooks the demands that the Black, Puerto Rican and Latin Students at Baruch have been making to this college during the past 5 years. We have submitted proposals to the President's office for the implementation of a Black Studies Department and a Puerto Rican and Latin Studies Department, and since 1969 nothing has been done other than the addition of one new course in the last 2 years which has one permanent Professor, and all other staff hold lines of lecturers or adjunct instructors. At the present time there is only one Puerto Rican Lecturer and two adjunct instructors.

5. We feel that this program was developed with NO students input and NO input from the faculty in the present Black & Hispanic Program, who would be the most qualified people to develop this type of a course since it involves their history and their lives directly.

6. The program can only admit a total of 40 students. Therefore, not only is the program a very selective one, but it does not satisfy the needs of the students here at Baruch. It does not make any allowance for the type of course that would make students more aware of the unique Caribbean culture, history, politics, economics, and geography.

7. The cost is about $400 which entails payment of room and board. However, it is our belief that the students entering this program will be more involved with a vacation oriented experience rather than an educational one. The time allotted for this endeavor is not sufficient to give the students a balanced, academically rewarding experience.

8. This TOKEN program was presented at City College and at Bronx Community College during the last two years and it was rejected by the students and the faculty. The program, was, therefore, not given in these colleges because of its deficiency and its political implications. To allow this course here at Bernard M. Baruch College is to OVERLOOK THE NEEDS OF THE PUERTO RICAN, LATIN, AND BLACK COMMUNITY HERE AND IN C.U.N.Y.

Upon signature of this petition please return to the tables either in the main floor of the student center or main building.

SPS Task Force Sub-Committees Report: Changes Proposed

By Nancy Bowker

On Wednesday, May 1, the President's Task Force on Student Personnel Services met in full session. Of the five subcommittee reports, two were discussed. The recommendations of the Evening Session Subcommitte were altered and then endorsed by the full task force. The consensus was that having six hours for evening students was desirable but difficult to schedule. The Subcommittee’s recommendation that SPS supervise cafeteria service was struck down, but the consensus was that there should be hot food service in the evening. After lengthy discussion the conclusion that students should have input into the choice of items sold in vending machines was arrived at. Alternative methods of receiving input were discussed, but no agreement was reached. The task force agreed that the summer needs and allocations of the Evening Session Student Council should be re-evaluated. The subcommittee felt there was a lack of the following services for evening students: counseling, financial aid, foreign aid, placement and medical services. Dean Alvis Puryear (Evening Session) explained the difficulty of finding qualified personnel to work in the evening.

The next report to be discussed was that of the Subcommittee on Financial Aid, Foreign Student Advisement Office and Placement Office. The subcommittee did not consider the Office of Career Counseling and Placement because there is another special task force studying it. The members recommended that the Financial Aid Office be transferred from SPS to the Administration of Business Affairs, failed. The task force felt that the types of financial aid available should be better publicized. The second recommendation, that all financial aid offices, including SEEK, be supervised by the college’s financial aid office, also failed. Instead the task force recommended that the present relationships between SEEK and Financial Aid be re-evaluated in the Spring of 1975. The subcommittee recommended that the Office of Foreign Students remain under the jurisdiction of SPS.

Discussion of the other reports on Student Activities, Counseling and Medical Divisions and Freshman Orientation, was postponed until the next meeting, which is scheduled for May 9th at 5:30 p.m., in the President’s Conference Room on the 5th floor of the 24th St. Building. The meetings are open to students.

Notice To All Baruch Students

The final Exam Schedule should be available later this week or early next week. Be sure to get a copy of the schedule from the Registrar’s Office.

All conflicts must be reported by next Wednesday, May 15. Ticker will carry the schedule in our last issue next Tuesday.

Notice The Last Issue Of Ticker Will Appear Next Week

So the editor may study for exams. There will be no issue the last week of classes.

All ads for the last week of classes must be submitted for next week’s issue.

Notice To All Baruch Students

The Spring Market Sale, sponsored by the Retail Society, took place on April 24th from 11 a.m. to 2 p.m. Students set up tables and sold jeans, cakes and cookies, stamps, candles, tocos, and jewelry. Not only was the fair a financial success, but a good part of the student body participated.
TICKER ASSOCIATION

ANNOUNCES

In Memoriam

There is no doubt that the news of the death of the principle to - the disappearing - is considerable. Thousands of people, artists, students, and friends, have all been involved in some way or another in the Baruch College community. The news of this disappearance is a cruel blow to the Baruch College community. No one can imagine what a loss it is to say goodbye to a Baruch alum. The death of a student is the loss of a potential, a loss for which, although I pretend to be nonchalant, I am very much in need. If I am in need, there will be a full week to this hard fact. The Yiddish proverb says that the world is for the enemy. The world has no choice to do with the Alumni Association. Those who have already passed away, but who will never be forgotten. Your article is valid, but my comments are not. My words "quality of life" funds were meant to be for the Baruch College. The funds, however, have not been spent on the college. I called him at the time and I was still angry. There were some I had reeled off. (see below) said he would take over the Alumni Association. He has the right philosophy, enough for the Baruch College. He has the right philosophy. Enough for the Baruch College. He has the right philosophy. Enough for the Baruch College. He has the right philosophy. Enough for the Baruch College. He has the right philosophy. Enough for the Baruch College. He has the right philosophy. Enough for the Baruch College. He has the right philosophy. Enough for the Baruch College. He...

EDUCATION NOTES

Student Activities Committee Working Through Semester

A new name, Student Activities Committee, is assumed by the group which formerly functioned as the Student Government Organization. The new name is an attempt to underscore the committee's role in organizing and presenting cultural and recreational activities on campus. Activities include a Student Film Festival, a Labor Week program, and a Junior Sophomore Show.

MEMO TO: Mr. Kevin Dubrow
Managing Editor, Ticker
FROM: Robert Chamblee
Faculty Advisor, Public Relations Society

In your lively "In the Streets" column (Ticker, April 30th) you make a statement or two about the proposed Baruch Spring Day which are contrary to fact. I'm sure that you, as a responsible journalist, will want to have correct information.

Dear Mr. Chamblee:

Unfortunately, various members of your society hold different opinions about circumstances regarding the cancellation of Spring Day and the role Baruch's Administration played in the cancellation (e.g., Dean Sencour). As an ad appeared in Ticker (April 30th) announcing SPRING DAY and I was personally asked, as a member of the 312 COMMITTEE, to help SPRING DAY, at a 312 staff meeting before 25 Baruchians. However, I am a responsible journalist and always interested in receiving feedback so I am printing your memo so that members of the Baruchian Community can see another side of the story. In my memo and my information, opinions may not be in your eye.

The members of the Public Relations Society on many levels. I further invite members of the Public Relations Society President Wingfield offered all possible support of the Society's activities to a committee from the Public Relations Society.

I think that you want to know that at no time did the Society have a realistic expectation of getting the block in front of Baruch closed. The Society also made it clear to the Administration that it was realized when it was thought that the 25th Street block between Lexington and Third Avenues would be available. When it was learned that that block would not be available all alternate locations were not practicable, the Society voted—before Spring Recess—to discontinue plans for a Spring event and to concentrate on other activities.
