This term a strange thing is going to take place on Wednesday October 16th. In Class elections for Don, Second Student Government will be held. That’s right, ‘In Class’.

In order to insure a thirty percent (30%) vote it has been decided by the Elections Committee that In Class elections will be held this term. Promotions are also being made for those who will not be in class during the designated hour. Further details will be available in the next issue of TICKE.

The other strange thing about the elections will be that the Student Government being voted in will be for one (1) term only, that is till February. The reason for this short period of office is as follows:

Student Government this term will be functioning under the old constitution. However, that constitution is being changed and the new one will become effective January 1st. The new constitution changes the structure of Student Government so as to make it more effective and also so as to comply with the new Baruch College Governance Plan. Some may feel that this one term government is a ‘lame duck’ government and will therefore not vote. Well there is some basis to that argument however, it is hoped that those elected to Student Government this term will take the position that this term be a stepping stone for the next term and will therefore be interested in initiating programs that can carry on to next term.

Speaking for the Elections Committee, we feel that this is the best possible system that can be instituted this term. The fact that we must comply with ‘Governance’ by January there is no other feasible way that Student Government can work.

The new constitution changes the best possible system that can be instituted this term. This year could be the turning point in the history of Baruch.

The divergent groups in the school environment, Student Government against the corruption of the Administration, which is a product of the problems may be the result of the corruption of school government and the administration’s lack of concern for the betterment of the Baruch environment. Student Government shouldn’t just be an organization for fees disbursements, but a viable group fighting for your betterment. Let good government return to you. Student government can work for you. VOTE AL FISHER FOR CHANGE.

HENRI FRANKFURTER

As a Viet Nam era Veteran I have achieved a modicum of administrative expertise, which is essential in dealing with a bureaucratic structure.

As Chairman it is my express purpose to integrate the various factions present on campus into a harmonious, student community. Another stated purpose of my platform is to establish myself as liaison between the student body and the Administration, which is sorely needed. As a student aid in the Registrar’s office, I have established valuable contacts and friendships throughout the administrative structure of the college. This will provide an invaluable service to both campuses in terms of student needs.

FREDIE J. GREENBLATT

Vote for someone to dean up the shit we’re all in. Not someone who will make the pile bigger. Do yourself a favor.

GREENBLATT FOR CHAIRMAN.

PAUL JOSEPH

I listen when others speak and that’s the only way to bring the divergent groups in the school together. While running for council so their clubs get bigger budgets I’m running as an Independent without ties to any organizations. I want to deal with all areas of student affairs and to try relieve some of the conflict that is occurring within the college. Let us make this college an institution that works for us rather than against us. So let us begin by voting for a Student Government.

LEWIS TUCKER

The student council has in the past not truly represented the student body. The only change we can make is if we wish to have a strong student government body and this can only be achieved if it stands freely of student interest. Polarization like that must not be permitted by the college because it hinders all students. I shall try to quell all the student and find the usual wants and needs. Please Vote.

ELLIOT 2iMMER

Eight dollars of your sixty dollar tuition fee is given to the Student Government to plan activities for your sole and direct benefit. Last year the Student Government lost sight of its responsibility to you and functions were planned for a small, select group of students. This situation occurred because, the Student Government removed itself from the Baruchian mainstream of social thought and catered to the whims of the political elite.

To remedy the Student Government’s “unsociable” behavior, I submit that a review board be set up to hear all complaints and suggestions made by you, the students. This board’s responsibility would lie in summarizing and reporting its findings to the Baruch Senate, on a weekly basis. In this manner, the Student Government could become aware of the more pressing problems facing its students and take appropriate action to rectify situations as they arise. If elected, I promise that Student Government will stay involved with the Baruch students and always respond to its needs and desires.

A general statement of my proposals for the upcoming year is as follows:

The establishment of a book of discounts for Baruch students at local business establishments (e.g. drugstores, good stores, clothes stores, theatres, etc.),

the elimination of the 14 credits for dropping without penalty quota,

the addition of winter intersession to the school calendar.

To conclude, I stand for better communications between the Student Government and you, the Student Body. Vote ZIM-

MERMAN . . . . to give me the chance to support you!

Treasurer

ISSAC ETTESAMI

Last year, the Fees Committee chaired by the treasurer, conducted itself in an unfair and time-consuming manner which caused much dissatisfaction. The treasurer was very hard to find and the vouchers laid unsigned for many days.

I have had experience as a Senator, and as head of various committees last year. I served in the constitutional committee during the summer. I have experienced as a treasurer of various clubs. I am determined to have a fair, effective, efficient, and fast-acting fees committee. I will be in school everyday to sign vouchers and to be around for any other need.

JAKE JUTKOWITZ

To establish a fees structure that will fairly represent all students and student organizations. I feel this can be accomplished by initiating guidelines which are in the best interest of all Baruch students and having daily office hours so that I can help those seeking advice.

CAROL HABER

As a senior here at Baruch, I have experienced many facets of Baruch life. Most of my encounters have been positive, but some have been negative. If elected to Student government, I plan to work with a unified body of student government to create a completely positive environment for Baruch students, and voice the ideas and interests of the senior class at large.

BARBARA EKKOWITZ

State Representative-at-Large

MARVIN BAILEY

As a senior here at Baruch, I have experienced many facets of Baruch life. Most of my encounters have been positive, but some have been negative. If elected to Student government, I plan to work with a unified body of student government to create a completely positive environment for Baruch students, and voice the ideas and interests of the senior class at large.

JAKE JUTKOWITZ

NO STATEMENT

HILADEE CADET

Traditionally Baruch has never shown any interest in student activities and Student Government. This year we are going to show everybody that this condition does not apply to Baruch. Therefore, I urge you to vote and support your candidate in order to form a stronger Government. I feel that I can help solve some of the problems of this community.

CAROL HABER

NO STATEMENT

ANN MACK

My name is Ann Mack and I am running for the office of Representative-at-Large. My policy will be one of openness, honesty, and responsiveness to the students.

The only way I can get elected is with your support. After my one year as a student I decided that the student council was not being truly responsive to the needs and wants

For Your Own Good

By REYNOLD SELMA BERROD

Welcome back to our weekly column, "For Your Own Good," a device we employ to bring to the attention of those who have not taken advantage of the services available to them. Before I delve into today's discussion, allow me to express my gratitude to those who have made this happen. It seems only fitting that I should do this, as we are all here to assist you.

The purpose of this column is to educate barely post-pubescent human beings; to prepare human beings for the challenges they will face as they grow older. It is my hope that through the sharing of knowledge and information, we can help to form a more informed and capable society.

One way to achieve this is by educating people about the importance of education. Education is crucial to the success of an individual and to the success of society as a whole. It is through education that we can learn about the world around us and develop the skills necessary to live fulfilling lives.

Another way to promote education is by encouraging people to vote. Voting is a way to make our voices heard and to influence the decisions that affect our lives. It is through voting that we can ensure that our voices are heard and that our rights are protected.

In conclusion, it is important that we continue to educate ourselves and encourage others to do the same. Together, we can make the world a better place for all.

—Reynold Selma Berrod

TICKER

CUNY: GED Entrance

Under a newly-permitted state law, the City University of New York has now been given the authority to confer regular GED certificates to any applicants who have passed its own examinations. This means that students who have not yet completed high school but who have the ability to do so can now receive the benefits of a regular high school diploma.

The new law was passed in response to a growing concern about the quality of GED certificates. It is hoped that the new law will lead to a more rigorous and effective testing program.

The GED examinations are divided into five sections: reading, writing, mathematics, social studies, and natural sciences. Each section is scored on a scale of 1 to 9, with 9 being the highest possible score.

Those who pass all five sections of the GED examination will receive a regular GED certificate. Those who pass four sections will receive a limited GED certificate.

The City University of New York has also announced plans to open several new GED centers in the area. These centers will provide students with the opportunity to take the GED examination in a classroom setting.

—The New York Times

VOTE

Day Session Student Government elections are scheduled for October 8th. Participation in the student government is a way to have a voice in the decisions that affect the college. It is important for students to take part in this process in order to ensure that their needs are met.

Student Government elections provide an opportunity for students to run for office and to voice their concerns. It is through this process that students can gain experience in leadership and in making decisions.

In conclusion, it is important that students take part in the Student Government elections. Voting is a way to make our voices heard and to influence the decisions that affect our lives. It is through voting that we can ensure that our voices are heard and that our rights are protected.

—The New York Times

We Get Letters

The Ticketer welcomes all letters to the editor and to "For Your Own Good." Letters should be no longer than 300 words. They should be signed and give your name and address. Letters will be subject to editing by the Ticketer staff.

An important characteristic of the human being is his or her ability to think and reason. In order to do this, the human being must be able to observe the world around him or her and to form ideas about it. This is achieved through the use of language and through the ability to reason from cause to effect.

In conclusion, it is important that we continue to encourage critical thinking in our students. Through the use of language and through the ability to reason from cause to effect, we can help to form a more informed and capable society.

—The Ticketer Staff

Elevators

Elevators are an important part of the student experience. They are a way to move from one floor to another and to access different parts of the building. They are also a way to conserve energy and to reduce the strain on the building's structural integrity.

In conclusion, it is important that we continue to support the use of elevators in the student environment. Through their use, we can help to create a more efficient and comfortable environment for all.

—The Ticketer Staff

To: use the personal form in an editorial, I mourn for him, too.

I am writing to you in an appeal to the Board of Higher Education Services, which is responsible for the student elections at the college. I am appealing to the Board because I believe that the student election process is flawed.

At the time of the election, there will be no Student Government. This is because of the way the Board of Higher Education Services has distributed the money to the various Student Governments during the 1973-1974 academic year.

The Board of Higher Education Services has allocated their monies in a way that appears capricious and unfair to many: There is one way to return test scores in seven days. There is another way to return test scores in seven days. There is a way to return test scores in seven days.

Instead of universal voter registration, there is one way to return test scores in seven days. There is another way to return test scores in seven days. There is a way to return test scores in seven days.

The Office of Admission services, however, administers its own entrance examinations for the potential students. The Office of Admission services also administers the predictive tests for the potential students.

In conclusion, it is important that we continue to support the use of the personal form in the student elections. Through their use, we can help to create a more efficient and comfortable environment for all.

need to get into the proper classes, So remember, Vote Roseann Smaragdas.

FRESHMAN SENATOR
Liberal Arts
IRA SCHOENBERGER
Freshmen need an officer who will take time to listen and act when needed. All freshmen play a vital role in Baruch College. They are the stem of the college. It is they who will have to spend their first four years here. If elected, I plan to make the freshmen aware of what the administration and student council is doing for them. Elect me and I will try to make the administration listen to us.

CHRISTOPHER NILES
Stagnation could be the bane of any institution. Baruch college is no exception. Unless we pursue a policy of unremitting alertness for areas that need improvements, modifications and changes, and of pressing to achieve these goals, we shall inevitably experience a decline in the quality of education we obtain.

As a member of Student Government, I shall be in an attempt to unify the Baruch community. My efforts will be not entirely in vain and the voice of the Sophomore Class was heard at all times. I believe I was instrumental in getting several major things accomplished. If I am elected as Senator the voice of the Sophomore Class will also be heard; and hopefully their problems resolved.

MIKE SUCHER
To my mind, Student Government can be the most provocative, dynamic vehicle for student participation in the process of obtaining a higher education. It can be at the very forefront of that thrust which is necessary to create and maintain the special kind of atmosphere most conducive to the growth process. It is my intention to initiate, motivate, and sustain channels of communication towards this end. If elected I will continue towards this goal as I have last year with Student Government. Student Center Board of Governors, 212 Community, Lampert Leaders, and Self.

JUNIOR SENATOR
Liberal Arts
STACEE FEIN
NO STATEMENT

DOROTHY HYLMAN
Baruch has suffered at the hands of representatives who do not represent the community. We have a chance to put an end to this and elect an involved member of our community.

SOPHOMORE SENATOR
Liberal Arts
ROSEANN SMARAGDAS
Have you ever been in an elevator, packed like a sardine? Well, those things happen right here at Baruch, especially at 360 PAS. If I am elected to the Senate, I will see to it that the stairs are open, so that we will be able to walk down, if we want to. Also, that all elevators are open to the students. I also feel that this past registration as done very poorly. Upper classmen have already chosen their major and
