EMERGENCY
CITY HALL
RALLY

Millions of dollars are about to be slashed from the current City University budget. Unless we act now, courses will be cancelled, people fired, classes jammed, accreditation jeopardized, and the CUNY degrees watered down.

Next on the chopping block: Free Tuition!

SAVE CUNY

Students, faculty and staff must show their unity now. If we don’t care about preserving a free City University, who will? We must show our determination to stop the dismantling of our university.

Now And Then

by Steven J. Rosen

America has always been a liberal, progressive, and humane society, but perhaps it is our fault that the dream of the American Dream is being lost. The American Dream is a dream that we as a country have always been striving for, and one that has been passed down from generation to generation. The American Dream is the idea that anyone can achieve success and happiness, no matter what their background or circumstances. It is the idea that hard work and determination will always pay off.

The American Dream is not just a dream, it is a reality. It is something that we all strive for and work towards. It is the idea that we can be anything we want to be, and that we can achieve anything we set our minds to.

But the American Dream is not just about achieving success and happiness. It is also about giving back. It is about helping others and making the world a better place. It is about being a good citizen and doing our part to make the world a better place.

We are all part of the American Dream, and we all have a role to play in making it a reality. Whether you are a student, a parent, a worker, or a retiree, you can all help to make the American Dream a reality.

Once More...
We most earnestly request that all members of the Baruch College Day Session community—that is to say, students, faculty members, and administrators—join in the City University-wide protest against the proposed budget cuts. Recent history has adequately demonstrated the prosperity of our college, which has resulted in increased service populations. Each year we have suffered with those populations. The result is that we have to cut our educational mission utilizing the limited funds we have. Of course, the reality of the desperate economic situation intrudes. Of course, which reminds us of the fiscal dilemma of the City of New York. Our purpose is not to discuss the economics which must be made. However, we cannot see how the City of New York, let alone Bernard M. Baruch College, can assume its educational mission without utilizing the limited funds which are available. The Board of Trustees and the Southern Regional Planning Board, which are responsible for Baruch College when money is desperately needed just to keep the system itself alive. This, however, is the subject of another editorial.

We can only say that this: The crisis is real. The falsification of the Baruch administration by the Baruch alumni is well known. We hope that the main theme of this letter will not be lost. The University is not only the institution with a legal claim to the CUNY letterhead. The Editorial Board
