Baruchians To Hold Protest In Main Aud.

In view of the grave crisis facing Baruch, DSSG is calling upon all organizations to help the Baruch Community cope with the situation in the next few months.

DSSG urges members of organizations to attend a mass rally Thursday, November 13, 1975, at 12:00 noon in the main auditorium (23rd Street).

As DSSG says, "COME AND GET THE FACTS!!! We may strike Monday, November 17. We may close Baruch."

Baruch College will close if we sit back and do nothing about it. We urge and beg you to understand that your future is at stake. Do not sit back and think that it will not happen. Let us not take things for granted.

Many of us will not be here next term. Students are going to be dropped by the thousands!!!

We are calling for a strike on Monday, November 17, 1975.

We are sponsoring a rally around Battery Park and City Hall Monday, November 17th.

We will march on Washington, Wednesday, November 19, 1975. Buses will be provided free on both occasions.

Come down and let your voice be heard.

For more information — ATTEND THE MEETING ON THURSDAY, NOVEMBER 13, 1975, 12:00 NOON, SHARP, MAIN AUDITORIUM, 23rd Street Building.
Changina

Changing the world is a fine idea, but where do you start?

March Against the Bankers

PROTEST CUTBACKS

Our right to an education is under-attack by the Board of Higher Ed. The move to NO TUTION, NO CUTBACKS is considering plans by Chanceller Kibbe and CONY President Marshak that would eliminate thousands of students and faculty and would close entire colleges. We are being asked to bear the burden of the NY economic crisis by the bankers and politicians who run this city. WE SAY NO! WE DEMAND FULL FEDERAL AID FOR EDUCATION — SEEK OPEN ADMISSIONS AND SPECIAL PROGRAMS, FULL STATE AND LOCAL FUNDING FOR EDUCATION.

Mon, Nov. 17
Assemble: Noon, Battery Pk. (near South Ferry)
March to City Hall for a Rally

March On Washington Nov. 19

New York students and the University Student Senate (CUNY, City College, Hunter, Baruch, etc.) have initiated a MARCH ON WASHINGTON November 19. Students across the country and especially in NYC are in a life-and-death struggle to defend the educational gains that we have won already. Those gains include

- Ethnic Studies
- Women's Studies
- Fiscal Fair Aid

SEEK, College Discovery, Open Admissions, No Tuition, No Cutbacks. We invite all students in the U.S. to join with New York students in the nation's capital to tell the Ford Administration: EDUCATION IS OUR RIGHT! WE MUST DEMAND FULL FEDERAL AID FOR EDUCATION — USE THE $100 BILLION "DEFENSE" BUDGET FOR EDUCATION — NOT WARFARE.

For more information:

Baruch Feels CETA's Impact

By Carol Targos

The appearance of a CETA employment officer in a Baruch College classroom last week was symbolic of the impact the Comprehensive Employment Training Act is having on the City College system and Baruch College in particular.

The officer, a representative of the Department of Labor, was there to inform students that CETA has been established as a reality by the city of New York. The employment officer made clear that CETA is an important step to the solution of the unemployment problem by providing opportunities for training and employment.

From the viewpoint of the Baruch student, CETA is an opportunity to explore career opportunities and gain valuable experience in their chosen fields.

The Importance of Career Preparation

By Fred Aronowitz

CETA is a program designed to help students take the opportunities available to them in the world of work. Today's rapidly changing world requires educational programs which provide many opportunities for student involvement.

In terms of self-exploration and development, many students feel that CETA gives them the chance to learn about different careers and find the career that is right for them.

However, the impact of CETA is not restricted to the baruch students. It is important that all students be aware of the opportunities available to them through the program.

The Russians Are Coming

The article is written by Ingegman Bergman's.

Ombudsman

The Invisible Man

According to Baruch's Ombudsman, the Invisible Man is a non-existent person who does not exist. He is a figment of the imagination, created to mislead and confuse people.

It is written in the City College charter that all students are entitled to fair treatment and protection of their rights. Anyone who feels they have been wronged by the Ombudsman can call for a hearing at the Ombudsman's office.

Just three years out of college, laser technologist Jim Carroll didn't make senior research physicist at Eastman Kodak Company by acting timid. So when he had the courage to pit science against a dread disease, we backed him. Win or lose.

The medical community enlisted Kodak's help in training lasers on the war on cancer. We responded with a pair of 50 million watt laser systems. And left the rest up to Jim.
Next Semester: Fact or Fiction?

As the academic year winds up, it is a time when students and faculty are looking forward to well-deserved breaks. But for those who have not yet found a job, or are not sure what the next step is, the upcoming semester can be a time of uncertainty.

Baruch College, for its part, is working to help students plan for the future. The college has announced that it will offer a new course on career development, aimed at helping students find their way after graduation.

In addition, the college is planning to expand its summer program, offering more opportunities for students to earn credits while working on their degrees. This will be especially helpful for those who need to complete their studies quickly.

The college is also working to improve its student services, with a focus on providing better support for students who are struggling.

The new academic year will be a time of change and growth for Baruch College. But it will also be a time of challenge, as students and faculty grapple with the realities of the current economic climate.

In the meantime, we wish all Baruch students and faculty a relaxing and rejuvenating summer, and look forward to seeing you next semester.
Notice

Ad copy and articles due by Thursday at 2 p.m.

There will be a TICKER Staff meeting at 2:30 pm in Room 307A in the S.C.

Interview:

Tony, Dean of Transportation

By James Chaltis

Every week in a column written for students from Baruch. This week, he talks to Dean of Transportation — Mr. Tony Ermilio. He starts by asking some questions.

Q. — What is your first job?

A. — I was looking for a job in the summer of 1973. I found a job at the city transportation. It was a job that I really like.

Q. — What was it like to work there?

A. — It was very challenging. It was a job that allowed me to learn a lot about the transportation industry. It was a job that I really enjoyed.

Q. — How long have you been in the transportation industry?

A. — I've been in the transportation industry for over 30 years.

Q. — What's your favorite thing about the job?

A. — I really enjoy the sense of community that comes with working in transportation. It's a job where you can make a real difference in people's lives.

Q. — What do you think is the most important event that happened in this industry?

A. — I think it's the growth of the industry. The industry has changed a lot over the years, and it's very exciting to see how it's grown.

Q. — What do you think is the most important event that happened in the transportation industry?

A. — I think it's the growth of the industry. The industry has changed a lot over the years, and it's very exciting to see how it's grown.

Q. — How do you get your students to Baruch?

A. — We use a variety of methods to get our students to Baruch. We use buses, trains, and even walking.

Q. — What should you get for the students who go to Baruch?

A. — We should get the students what they need, and that's transportation.

Q. — Do you ever intend to be a transportation student on your own?

A. — I've thought about it, but I'm not sure if I want to.

Q. — What do you think is the most important event that happened in Baruch?

A. — I think it's the growth of the college. The college has grown a lot over the years, and it's very exciting to see how it's changed.

Q. — What should you get for the students who go to Baruch?

A. — We should get the students what they need, and that's transportation.

**Pink Floyd: Wishing You Were Here...**

By Larry Walshwick

Pink Floyd, England's greatest rock band, has long been a subject of fascination for music lovers around the world. Their music, characterized by complex rhythms, intricate harmonies, and innovative sound effects, is a hallmark of their unique style. In this article, we explore the history and impact of Pink Floyd and their album, "Wishing You Were Here," which is considered one of their most iconic works.

The band was formed in the late 1960s and quickly gained a following with their experimental approach to music. Their early albums, such as "The Piper at the Gates of Dawn," were lauded for their creativity, but it was with "Wishing You Were Here" that they truly began to establish their signature sound.

The album, released in 1975, features tracks that range from the haunting "Wishing You Were Here" to the up-tempo "Another Brick in the Wall." The lyrics of the album deal with themes such as escape, freedom, and the sense of being trapped.

The album's impact has been lasting. It has been praised for its emotional depth and musical innovation, and it has influenced countless musicians since its release.

In conclusion, "Wishing You Were Here" is a testament to Pink Floyd's ability to create music that is both accessible and groundbreaking. It is a true classic of rock music that continues to be enjoyed by audiences around the world.

**Interested in RETAILING?**

The Retailing Society

By Linda Pacheco

Hotline Helps Students

Hotline can be offered by the Student Center from 10 a.m. to 4 p.m. daily, but that all depends on the number of volunteers available.

Volunteers must first pass a screening process and may make a clear, concise, and helpful service. The Hotline is open to students through regular hours, but you are encouraged to answer a few questions.

It is not to affect this newsletter in a lack of volunteers.

Athletes After 30

By Marty Berkowitz

The idea that a professional athlete can reach the age of 30 and his prime at 30 is a myth. Geriatrics is a funny thing in sports. An athlete hitting the top of the world at 30, can find his status in question two years later when he reaches the age of 32. At this point his jets are not starting to build in wonder to wonder if he has any more. It's as if blowing out the candles on his 32nd birthday cake would produce in him an entirely new and weaker anatomy.

32 is a sample age here because it happens to be the age of New York Jet's quarterback Joe Namath. A pre-seasonal football scribble of note wondered at his age Namath would be in 1964. Namath, in 1964, completed 15 of 21 passes and four touchdowns in a 32-7 romp.

This only goes to point out that the football season is a demanding sport. There are countless other examples, and profession sportswriters will all of them marvel how those very few who have given their best when they were considered past their prime. Why not? Should Namath's release somehow be slower that it was when when he was 26 and leading Cincinnati. It was a comeback attempt in his life, and Namath did it magnificently.

A season comprised of a par season, giving rise to reminders talk from the corners of the baseball media. It seems as if the Brewer front office is playing a game of catch. How the Brewers are leading the Brewers into the end of the sea-

Tennis, Anyone?

By Doug Begelman

A backhanded compliment on a magazine called Tennis U.S.A. stated that tennis was by far the fastest growing sport in America. Since I have been a tennis enthusiast for many years, this "revolution" did not come as a surprise, but only reinforced my faith in the American economy. Actually, if you really want to see America pass up a good thing, you will have to watch the government regulations that can beneficial aspects can certainly be classified under this ubiquitous sport, that has found the way for its growth here in the United States, has become an integral part of our society.

Tennis Tip

INESS TIP

In the past few years interest in tennis at Baruch College has grown enormously. In fact, out of all the physical education courses today, tennis has become one of the most popular. Among the students is tennis. Since tennis is not consistently filled to full capacity, there are a great number of students who do not get an opportunity to receive instruction. For these deprived people, and for those lucky ones who are participating in a class but still would like to broaden their knowledge, and perhaps improve their technique in tennis, I will provide a tennis tip (each week), which will relay some important basics in the playing of the game.

The first, and one of the most important tips, is to watch the ball. It sounds simple, but you would be surprised at the number of people who take their eyes off the ball when getting ready to hit. As a result, the wood of the racket will often miss the ball. In order to use the facilities, proper dress is required of all participants at all times.

The only time you may wear shorts is while showering. Please do not wear shorts while exercising in the gym. Thank you.

Get Your Body In Shape

By Bonnie Kloc

Summer has just passed and Fall is here. By the end of Summer, many people tend to become less active and less conscious of their physical appearance. After all, how often do you wear a bathing suit in December, unless, of course, you belong to a Polar Bear Club.

Looking good in a bathing suit is a great reason for staying in shape, but feeling good in anything you wear is even a better reason for staying in good physical condition. With Winter coming, we are limited in the amount of exercise we get, and we all know that you can't burn off a Big Mac by watching a football game.

This Fall, the Physical and Health Education Department have made it possible for the students, faculty and staff to utilize the following facilities: the gymnasium, the weight room, and the swimming pool.

All facilities are located in the 23rd Street Building. The gym and the weight room are on the sixth floor and the pool in the basement. In order to use the facilities, proper dress is required of all participants at all times. Towel Lockers will be provided but you must bring your own lock. Lockers may be used only that period of time in which you are working out.

The schedule for the facilities are as follows:

Tuesday — 2-4 pm
Thursday — 12-2 pm
Gym:

Monday — 10-11 am & 3:45-4:30 pm
Wednesday — 10-12 noon & 3:5-4:30 pm
Thursday — 12-2 pm & 7-10 pm

Monday — 10-12 noon & 1-3 pm
Tuesday — 12-1 pm & 3-6 pm
Wednesday — 10-12 noon & 3-6 pm
Thursday — 12-2 pm & 10-12 noon

Whether you want to build up or slim down, we have the facilities that can help you achieve your goal. Play basketball in the gym, work out in the weight room with the universal gym equipment, or go for a swim. Just think, if you got involved in regular exercise programs you might not have to go on a crash diet when bikini weather comes around.

For further information, contact Bonnie Kloc or Tom Cra- covia in Room 709 (23rd St. Bldg.): Keep watching for future announcements of intramurals or tournaments.
