Baruchians March On Washington D.C.

By Bob Galliano

About 1,000 Baruch students climbed aboard twenty chartered buses which converged Lexington Avenue and 22nd Street on the morning of Wednesday, November 19, at a cost of $4,200 to our student government. The Baruch delegation consisted of students, faculty, and supporters who rode by bus to Washington, and then marched to the Capitol Building. There they listened to politicians, student leaders and other supporters of CUNY.

Representatives James Schueter (D-New York) mentioned that Rome has been bankrupt for 3,000 years, yet Italy has not abandoned it. Earl Davis of Medgar Evans College said if New York goes, then Washington goes, and urged all students to unite to save the City Universities and free tuition. Senator Henry Jackson (D-Washington) said: "If we provide aid to the railroads and Lockheed, then we can give aid to New York City." Richard Rizzo made the most points with his speech. He said "We're being accused of being selfish. But what about the politicians. They have created this mess but they are not affected by it." In response to a statement by new Deputy Mayor of New York Zicotti who said we should re-evaluate the role of the City Universities, Rizzo said: "We should re-evaluate the role of our politicians." He also lashed out at Governor Carey's proposal to make CUNY another SUNY, where tuition is paid. He urged "we must protest all cuts. We will not rest until we have stopped the enemies of our schools and cities."

Other speakers included National Student Association President Melissa Gilbert, a former CUNY student herself. She said "we have the support of people in Colorado, in Texas, and in California." She later said "you better help out because we're the people and we count." We got the support of the Student Association of the State Universities of New York. Its president, Robert Kirke, talked of a very strong endorsement of CUNY. He said "free tuition. The demonstration was peaceable...
**Mayor's Volunteer Program**

**By: Richard Warren**

As Baruch College students, we have many opportunities to get involved in our community. Are you aware of the many opportunities available to you? Are you aware of the innumerable opportunities that the Mayor’s Volunteer Office provides? If you’re not, then you’re missing out on a great opportunity! By volunteering, you can build your resume, gain valuable experience, and make a difference in your community. The Mayor’s Volunteer Office is the perfect place to get involved.

In order to connect students with opportunities, the Mayor’s Volunteer Office offers an online database called MyVolunteerMatch. This database contains thousands of volunteer opportunities, ranging from one-time events to ongoing commitments. To access the database, simply visit the Mayor’s Volunteer Office website and sign up for an account. Once you’ve created an account, you can browse through the available opportunities and select those that interest you.

In addition to accessing the database, you can also attend workshops and events hosted by the Mayor’s Volunteer Office. These events are a great way to connect with other volunteers and learn more about the different opportunities available.

Budget Cuts: CUNY Layoffs

More than 5,000 people are being laid off this week at CUNY because of budget shortages.

The chancellor, Robert J. Kibbee, reports that these cuts are part of a planned, precautionary move to avoid massive layoffs next year. He estimates that, if CUNY's budget is not restored, more than 9,000 full-time employees could be laid off by next March.

The cuts include reductions in faculty, staff, and administrative positions. The chancellor said that the cuts were necessary to prevent what he called "an economic backlash" that would result from widespread layoffs.

The chancellor added that the cuts were not made lightly, and that he had been discussing them with the faculty and staff for several months.

The chancellor said that the cuts were part of a larger effort to reduce CUNY's budget deficit, which he estimated at $400 million. He said that the cuts were necessary to prevent CUNY from going bankrupt.

The chancellor said that the cuts would be implemented next week, and that they would affect all CUNY campuses.

Letters To The Editor

TO: Aaron Blair, Administration
FROM: Harry Gibbs, Chairman
Date: October 30, 1975.

As per our conversation, I would like you to consider writ­
ing the college policies concerning the award of the above grants to part time undergraduate students. It seems that this has been past prac­tice of not awarding these grants because a majority of students in the College do not have the financial means to study. We would like to request that students be considered for these grants as well. If you please, notify us.

Thank you in advance for the cooperation and considera­tion.

Zionism: A National Liberation Movement?

By Art Fishman

10 months ago, on May 15, thousands of Pro-Palestinian demonstrators in Israel and the West Bank celebrated the 19th anniversary of the founding of the state of Israel in 1948. Zionism is the Jewish National Liberation Movement of the 20th Century.

For example, it appears that during the summer of 1978, the Zionists had one of their biggest anti-American successes in the Middle East. The American government was facing a severe economic recession. The Israelis were already at war with Egypt and were prepared to go all out against their enemies. The Israelis were already at war with Egypt and were prepared to go all out against their enemies.

In the American government, there was a lot of talk about "national economic stabilization programs" and "national economic planning." The Zionists were already at war with Egypt and were prepared to go all out against their enemies.

It was at this time that the Zionists were able to make peace with the Egyptians, which the Americans were unable to do. The Zionist state is an ex-colonial entity that has been confiscated. The Zionists have been involved in a series of "civil wars" that have nothing to do with the idea of achieving independence and freedom for the Palestinian people. The Zionists are not a "national liberation" movement, but a "national expansion" movement. Zionists are not interested in the freedom and independence of the Palestinian people.

There Are Many Correct Ways to Answer Test Questions

A 1-year-old has been found and returned to the owner. It appears she gave up the fight because she was too exhausted to continue. It's a good thing she survived because the owner was not expecting her to do so. She was given the name of the owner because it was not known at the time of her death. It is possible that she will be put to good use because she was found near the scene of the crime.

Jets Are Overrated Team

By Marty Berkowitz

The inevitable happened this week. The New York Jets fired Charlie Winner. The arrangement was ill-fated from the first moment. Winner signed a three-year contract to coach the Jets thus replacing his father-in-law Weeb Ewbank. There was only one way the set-up could have succeeded. The Jets would have had to become instant Super Bowl contenders, and given their inherent weaknesses and the strength of their divisional opponents, it was an impossible dream.

The Jets’ problem is rather simple to evaluate. Frankly put, they are an overrated team. There are two reasons for the high expectations that could never have been fulfilled. A) They are quarterbacked by Joe Namath, a man of superstar quality who has actually had only two winning seasons. B) They are a New York team, and in case you haven’t noticed, a pattern recently, the tendency is for New York teams to gather all the pre-season build-up and fold in time for the regular season. It happened to the Yankees when they hired Cuffy Hunter. It is a seasonal occurrence with the Rangers, and now the Jets have been victimized by the New York curse, possibly worse than any of the others.

The worst thing that could ever have happened to Winner and the Jets occurred in 1974, when the reversed 1-7 start and won their final six games. The result of this mentality among players and fans alike that they were a better club than they actually were. Thus, 1975 began and there were experts who actually believed that the Jets would win their division. A division that included Don Shula’s Miami Dolphins, an improving Baltimore team, and O. J. Simpson’s Buffalo Bills began its season with the Jets as favorites.

The reasoning for this was the same lousy we’ve spoken of the Jets for years. With Joe Namath at quarterback, they’d be in every game. Sure, they would give up a lot of points, but their offensive firepower would make them more than competitive. There is where the media pressure comes into the picture. What defensive firepower? Jet watchers would have us believe that Richard Caster and Jerry Long were the best receivers in football. This is hardly the case. They have gamebreaker potential, but have never showed the consistency one would expect from an Isaac Curtis or a Gary Palmer.

The combination of the returning starting line players, who are John Steuer, Scott Charney and Frank Matos, plus the teams talented freshman promises to make this season a very successful one for the Statesmen and for Baruch.

The planning for the season started as early as February. A strong defense will be the key to the season. The combination of the return of the defensive line, plus the teams talented freshman promises to make this season a very successful one for the Statesmen and for Baruch.

During the course of the season, the Statesmen will have the opportunity to play against other basketball teams from schools throughout the City. University, as well as various other universities in the Tri-State area. All home games are played in the Armory, which is located on Lexington Ave. between 115th and 116th Sts. and admission to the games is free. Students, faculty, and staff are all invited to attend. For your convenience this season’s schedule has been provided.
