Rally In Albany (March 16)

February 25, 1976
TO: Members of the Faculty
FROM: Clyde J. Wingfield

The CUNY Student Senate plans a rally in support of the University's budget in Albany on March 16. May I suggest that you omit attendance on the date or otherwise excuse those students who are participating in Albany.

Student Government Meeting

By ISRAEL VICENTE

The Student Government held a meeting Thursday during club hours in the Student Center to vote on appropriations of funds for the rally in Albany.

It seemed as though this issue would never be discussed or even mentioned. As the members of the Student Government devoted a good deal of the afternoon to talks regarding punctuality at meetings,

the discussion revolved around the possibility of adopting a bylaw which would require each and every member of the DSSG to be present at the meetings no later than 15 minutes into the hour of which the meeting was scheduled. Also, once present, no member would leave before the meeting is officially over. This law, according to its advocates, would eliminate tardiness, early dismissals and would allow the assembly to get something accomplished.

In theory, this motion appeared both wise and auspicious. Also, there was no other alternative offered. However, looking at it realistically the assembly deduced that the law could not be enforced because

Students Rally Outside BHE Meeting

By RICHARD WARREN

On Monday, March 8th, thousands of students rallied outside the public library on 42nd Street, across the street from a building where the BHE was deciding their fate. The BHE again postponed making a decision, after Representative Herman Badillo (D-Bx), Bella Abzug, and Mario Biaggi testified against the cuts.

The crowd was very enthusiastic as several speakers, members of student government, PSC, students and congressmen spoke. Representative Bella Abzug (D-NY) spoke of the necessity of taking this fight to the streets, as was being done on this day. She also said, "People have talked about New York City having a heart. With these cuts, they are attempting to cut away our heart." Representative Herman Badillo (D-Bx) said, "Last year New York State was given aid by Congress, yet services still were cut. Congress will not give New York any more aid until we are assured that our essential services are not cut!"

Rep. Mario Biaggi (D-Bx) stated, "I am a member of Congress and a ranking member of the Congressional Committee on Education. When we appropriate funds from Washington, we do not intend to have schools altered." At one point he was interrupted by chants, and one student who had introduced Mr. Biaggi yelled, "Let the man finish his speech," to which Biaggi

These bills can save Baruch. Come to the rally and tell your legislators to vote for them.
Greetings because this is the Office (2nd floor, 24th Street) and to students have already passed far and that the rest of the academic year earlier. With that out of the way, apologies for not having written one on probation, have been given a make-up. On the other hand, for most of them. It is now too late to change grading options made last Fall.

By DEAN SELLO SERDEL

The latest (March) CPC Salary Survey is now available. For candidates with a technical background and an average GPA of 3.0, the average starting salary for jobs in accounting, auditing, and tax is $45,000. For candidates with a 3.5 GPA, the average starting salary is $48,000. The survey also includes data for candidates with bachelor's, master's, and PhD degrees in accounting, auditing, and tax.

By DIANA WILLIAMS

Student Government had no choice but to proceed. The Assembly had to be called. Members of the Executive Board argued that the student government could not continue without a quorum. The President declared that the meeting was adjourned without a quorum.

Dear Editor,

This is to assure you that I am a new student at Baruch and that I wish to protest against the behavior of the librarian at the library. I have always been a regular user of the library and have never encountered such inconsiderate treatment before.

I was recently charged with overdue books and asked to make a payment. When I went to the library to make the payment, the librarian ignored me and I was sent to the Bursar's office, where I was charged additional fees. I was upset and my experience has left me feeling disrespected.

I hope that you will take action to address this issue and ensure that all students are treated fairly. I also request that you consider my situation and waiving the unpaid fees.

Thank you for your attention to this matter.

Sincerely,
[Your Name]
B.T.O.:
Alive And Kicking

LUCAS COMMISSARY

Over the last two years, CBC (Canadian Broadcasting Corporation) radio listeners and fans of the Canadian folk-rock band B.T.O. have been waiting for a new album. Despite the band's success, there was no new release until their third effort, "Alive and Kicking," which was released in 1976.

Linda Ronstadt's latest album was written by Meil Young, summing up her career as far as Linda's singing is concerned. Some are used in private business, as is "The Tracks of MY Tears.* Other titles such as "Love is* a rosefBut you better wait about six weeks for the answer many questions about CB radio is answered in "Behind The Lines,''' which is a bit too loud.

The article by LOUIS CORRADI discusses how many mobsters are using CB radio to notify other hucksters of state knocked out traps and nackte
deck, unless some mobster is talking with columnist, author, andAC...$29.95*.

Why TI calculators are quick and easy to use.

The TI-1200 and TI-1250 are high-quality low-cost calculators with replaceable memory.

The TI-1200 gives you the power of the TI-1250 for the price of a TI-1250. It has an automatic constant, automatic memory, and automatic memory functions. It also has a built-in scientific calculator for performing repetitive calculations, full-floating decimal, and digit display. You can carry it to class or lab in your hand but don't have to worry about it. The TI-1200 has 13 keys and an easy-to-read display.

The TI-1250 does everything the TI-1200 does plus a full-function, four-key memory, and a change sign key. All for $119.95.* (Adaptable option.)

The TI-2550 is a versatile powerhouse with replaceable memory.

This eight-spread, 9-digit portable does everything the TI-1200 and TI-1250 do. It has 13 keys and an easy-to-read display. It is ideal for home use with the horseman's strides for easier use.

The TI-1500 ever performance. And it's rechargeable.

Quality you can trust...

Texas Instruments electronic calculators. More math power for your money.

You need math power no matter what your major. And TI puts more math into your hand, for your use, and for your money.

How can TI give you greater value? The answer is TI calculators. The mathematics department of your college or university has probably purchased or is purchasing a TI calculator. And, major technological advances have reduced the cost of TI calculators to lower and lower costs.

Why TI calculators are quick and easy to use.

All TI calculators described here are algebraic entry. This allows you to type the way you speak. The machine converts your own expressions into symbols. The TI-1200 will not hurt your fingers as does the TI-1250. The TI-1250 was designed for the horseman's strides for easier use.

For more experienced riders, there are few of the trappings of the "horseback riding."

Shoot, Slide, Serve Or Swim

By BRUCE J. MEYERS

This is it! I'm hanging up my basketball shoes and putting on my swimsuit. These are the words of a man who loved the game of basketball, andI hope you'll enjoy the story of how I became a Baruch swimmer.

The first year of my Baruch career was spent developing my skills as a basketball player. I worked hard to improve my game, and I did my best to help the team win. I would practice almost every day, and I never missed a game. It was not always easy, but with dedication and teamwork, we were able to achieve some success.

In my second year, I was offered a summer job at a basketball camp. The coaches there were impressed with my abilities, and they invited me to participate in their developmental program. I accepted the opportunity, and I worked even harder to improve my skills.

During my junior year, I decided to focus on swimming. I had always been interested in the sport, and I wanted to compete at a higher level. With the support of my coaches and fellow athletes, I trained hard and continued to improve. I had the opportunity to compete in various meets throughout the season, and I had some success.

My senior year was my best. I set personal records and helped the team to several victories. I was named to the All-Conference team and was invited to several national meets. It was a great experience, and I will always be grateful for the opportunity to compete at a high level.

Although I am no longer playing basketball, I will never forget the memories and friendships that were formed during my years at Baruch. I will always cherish the time I spent on the court and in the pool. I hope my story will inspire others to pursue their passions and never give up on their dreams.
