NCLE Presents Testimony Of Abuses

By THE NATIONAL COMMISSION ON LAW ENFORCEMENT AND SOCIAL JUSTICE

The National Commission on Law Enforcement and Social Justice (NCLE) presented testimony this week at the National Study Commission on Records and Documents' hearings held in New York City. Chairman of the NCLE, Joyce Gaines, presented documented testimony to the Study Commission on the abuses of the current governmental dossier system in this

Numerous case histories from our files were presented to the Study Commission to show the abuse that can occur in such a large computer file system as we have in the U.S. at this time," stated Ms. Gaines.

With an estimated 6 billion files, the U.S. government is the largest single creator and collector of information in the world. The U.S. General Accounting Office estimates that it costs $15 billion per year to maintain these records. We never had to look far to find thousands of records that were destroyed and incorrect information put into the files in its place. 2. That legislation be passed making it a mandatory procedure for students to vote for C.B.S. candidates, or not vote at all.

These charges were denied by M. Lewis Temares, head of the Registrar's Office. Temares stated, "As far as I am concerned, no student has the opportunity or ability to change their grades. We have set strict guidelines of what the student can and cannot do. If a student comes to our office and asks to change their grades, we evaluate records. We have complete records on students last Friday." Temares continued, "Nobody's changing their grades, unless the student is seeking a job. If we find something that is wrong, the student is asked to come to the Office and we will investigate."

The C.B.S. paper presents no evidence to back up its accusations. We have mentioned before, these are questions that we are raising to the student body and are not intended as accusations until, that is, further evidence is discovered. In other words, you're being asked to consider an accusation that merely came off the top of the head of some C.B.S.'s leader's, head. Their charge is based on a rumor, which they probably started themselves.

They further attack Harry Gobbs, insinuating that the Gobbs, in getting that Nimbus Telegrams Carter

By ROBERT STEINBERG

Last Monday DSSG President Chris Niles sent a telegram to President-Elect Jimmy Carter requesting an audience. Niles asked that Carter meet with representatives of CUNY students in his home in Plains, Georgia to discuss the current CUNY situation. The representatives also plan to ask Carter to lend us his support after taking office and to assist us in rebuilding the CUNY system. The effort to meet with Carter is being centrally coordinated by the Day Session Student Government of Baruch. Niles has not yet received a reply to his telegram.

C.B.S. Accuses Registrar Of Changing Grades

By RICHARD WARREN

In a paper being distributed to Baruch students by the "Convo-minded" Bilechh Students' Committee, present student government leaders are accused of having the Registrar change their grades. The paper specifically alleges, "The value of your diploma and your future is at stake. Are student government leaders' changing their grades and thereby devaluing the legitimate and hard-earned grades that you have studied and worked to receive. The rumor is that they are ..." The paper then goes on to say that students to vote for C.B.S. can make a difference and that "in your place ..."

INVESTIGATION OF MAYNARD DELAYED

Evidently, the investigation of funds used by U.S.S. Chairperson Maynard Jones for his trip to California last August will not be completed for at least a month. The investigation concerns charges levied against Jones that he misused BHE and BMCC funds on his trip to the National Students Association Congress.

Joan Rome, BHE Director of Student Activities, stated that she has not yet received receipts from Borough of Manhattan Community College (BMCC). She will shortly be going on vacation, so the investigation will not resume until she gets back sometime in mid-January.

Ms. Rome sent a letter to BMCC Dean Gonzales, dated Dec. 3, requesting the receipts in question. Also, Vice-Chancellor for Administrative Affairs J. Joseph Mang has sent Ms. Rome a memo bluntly stating, "Wrap this up quickly, I'm hearing a lot of noise about it." Both letters were shown to me by a reliable source.

DSSG ELECTIONS

Don't forget that DSSG elections will take place on January 5 & 6, 1977. VOTE!

RETURN TO SCHOOL

School lets out for Christmas vacation beginning this Friday, December 24. Classes resume January 3rd through January 8th. Finals week runs from January 10th to the 21st.

HAPPY WHATEVER

We of the TICKER extend out best wishes for the holiday season to all. We thank you for your readership over the past year and hope you pick us up again in the Spring.
For Your Own Good

BY DEAN SELKA BERROL

Although these policies probably will be another note in the social page archives until April 2, they are worth talking about. They are designed to help all students who need help and to provide financial aid to those who need financial aid. We hope to get a better idea of what we can do with the system when we have more information about how it works.

Registration last September, however, was not the only change this year. The University has made an effort to provide a more flexible and accommodating atmosphere for students who want to take classes during the day or after work. In addition, the University has established a part-time program that allows students to take classes during the day and work during the evening. This program is open to students who need to work during the day, and it has been especially useful to students who need to work during the day and go to school in the evening.

Many students have signed up for this program, and they have found it to be a great way to balance their work and school schedules. Some students have even found that they can work part-time while attending school and still make ends meet. This program has been particularly helpful to students who are working during the day and have a limited amount of time to study at night.

Although there probably will be some negative reactions to these changes, we hope that they will be welcomed by most students. We believe that these changes will help to make the University a more accommodating and flexible place for students to learn.

TYPING SERVICE
O & M ProfessionalTyping, Inc.
Student papers, legal documents, figures, tape envelopes, labels, manuscripts, resumes, etc. 
(Possessionally, one per class, good read)
Free pick-up & delivery
2 Penn Plaza, Suite 1500
(Not to Massachusetts Avenue)

POET'S CORNER

POEM FOR A Q.P.

I love you
Because of the way you say my name, and
I feel about myself.
Through you I have a mirror to myself,
And I see what I see.

I am in love, and I need you
To be with me, and I will be with you
For as long as I live.

TICKER

Registration goes more smoothly when appointments are made in advance.

The Student Center to join this group.

Helpful Weekend Workshop

The weekend of the 10th, the Baruch Action Caucus will be offering its first annual scholarship award contest. The award will be given to the 12 most talented students, those who have made significant contributions to the Baruch Action Caucus.

The award will be open to all students, regardless of their financial status. The award will be given to the 12 most talented students, those who have made significant contributions to the Baruch Action Caucus.

The members of the Baruch Action Caucus will be distributing a list of times and places, and these classes will be well distributed over the day and week. Many a session student should consider the options offered in many departments. It is to your financial advantage to take as many credits as possible each semester and to work in the morning and go to school in the evening.

Although you need only 12 to 15 credits to register for the semester, it is to your financial advantage to take as many credits as possible each semester and to work in the morning and go to school in the evening.

**Letters-to-the-editor**

**By Richard Schickeman**

With so many films and commercials being filmed in New York it is sometimes hard to believe that it is the same city in which you work. However, it is true that the commercial filming that is done here is vast. I am constantly amazed at how little art is shown in some of these productions. It is either too much of the same old thing or not enough of the unknown. I am sure that the people who work in this field are interested in the same things that the rest of us are. The summer I tried to work on doing a film was a special experience for me. I could never get into a film that was being shot at the Trade Center near our campus.

My first attempt was at the "Pepsi vs. Coke" spot. The paper called the "Pepsi" people to come emerge from the construction and meet me there. I was able to get to the right spot and was accepted for the right position. The next day I went to the "Pepsi" people and was accepted for the right position. The next day I went to the "Coke" people and was accepted for the right position. The only thing that I had to do was to show up at the correct spot and at the correct time. I was able to get to the right spot and was accepted for the right position. I was able to get to the right spot and was accepted for the right position. I was able to get to the right spot and was accepted for the right position.
Inside Books

By BRUCE BARON

The Holocaust, the most inhuman event in history which began in Germany, with its dreadful remembrance points to the present day. In Nazi Europe, the extermination camps served as horrifying reminders of the engineerings of a monstrous crime. The fact that the monstrous crimes which befell six million Jews and other victims of the Nazi reign of terror could have been prevented is the tragic realization of the lessons of history.

Another book that deals with the holocaust is "The Life in the Camps," by John Gutman, published by Knopf. This book is a companion to "Witness," the first book which Gutman, a former Professor of History at City College in New York, has fashioned an impressive ensemble to tell us how human beings can live during the most inhumane and terrifying of circumstances.

A book that is sure to hit high on the wave of success generated by Alex Haley's "Roots" is the Diary Family in Steen and Freedom, 1970-1980, published by Leonard and Smith. Gutman, himself a Professor of History at the University of Wisconsin and an expert in family history, has fashioned an impressive ensemble to tell us how human beings can live during the most inhumane and terrifying of circumstances.

"The Life in the Camps" is a very human kind of stories in this book will contribute nothing to the instant reminder that we must afford to forget. The lives of many survivors should be a credit to mankind.

The Jewish experience — because of the Nazi's destruction of the Jewish community, there is still a family relationship within the heart of today's Afro-American population. Gutman does not ignore the many victims of the Nazi reign of terror, the victims of the atom bomb, the victims of the Stalinist purges, the victims of the Nazi Germany's and the victims of the Japanese occupation of China. There are many victims who have not been mentioned in this book.
