TRUCK SPRAYS OIL ON WALL OF STUDENT CENTER

By LINDA ZUECH

Heating oil was sprayed onto the front wall of the Baruch Student Center building when a heating truck lost its balance and drove away from its filling point on a delivery truck on Monday Feb. 9, according to Marilyn Mikulsky, director of Campus Planning and Facilities.

The truck, from the Mystic Bulk Transportation Company of Astoria, Queens, was parked in front of the Student Center and making a normal delivery to 122 E. 22nd St., across the street.

David Baricho, a representative from Mystic explained how the spill occurred. "There is a deck hose which connects the trailor to the pump. One side of the hose sucks the oil up in the truck and the other pumps it out under pressure. One of those hoses broke under pressure."

Baricho said that the oil is pumped under pressure of between 40 to 50 pounds. He said, "It may be 90 pounds or so, but the average is 20 to 40 pounds. However, the hoses are rated for 150 pounds per square inch."

Mikulsky said, "(the hose) was under such pressure that it burst and sprayed not only the ground and sidewalk, but up onto the building."

A car parked in front of the building, belonging to Henry McLaughlin, director of security, was also sprayed. Daniel Kaufman, assistant director of Campus Planning and Facilities said the oil company should clean the car and the building at its own expense.

According to Baricho, "The frequency of a spill of this kind is very rare. If, over the course of one season (October - April), where thousands of deliveries are made, a thing like this happened, it would be unusual."

Baricho said that Mystic has a contract with another company for cleanup in the event of a spill. The cleaning company uses cleaning solvents and high-pressure steam to get rid of the oil.

Baricho said, "We did the cleaning of the car and the cleaning company did it again to make it doubly clean."

"When you are bending and bending the hose over a period of time, sooner or later you may develop a weak spot. You don't know when the hose may break, like you don't know how many porches you can drive a tire over before you get a flat," Baricho said.

Mikulsky said that "people (from the company) came the night of the tenth (February) and used high-pressure water to clean the wall. However, we are dissatisfied with it (the cleaning job)."

According to Mikulsky, the company stated that it was too cold for the method they used to work properly and they would have to use another method.

Kaufman explained that there was no danger that the oil could have caught fire before it was cleaned up because, "Number six oil must be heated between 180' and 200' before it could burn."

16,017 REGISTER FOR SPRING '87

By JACQUELINE MULHERN

A total of 16,017 students registered for Spring 1987 classes, an increase of more than 600 from Spring 1986. Thomas McCarthy, the registrar. However, only 3,291 of these students enrolled in January; the other 7,726 took advantage of early registration in December, the most since the program began.

Seniors and Baruch Scholars received first priority in registering and, therefore, were most likely to receive their first choices for classes. Juniors, sophomores and, finally, freshmen were then processed.

McCarthy said, "One of the biggest problems is not with the seniors, but sophomores and juniors and the problem is finding the basic business courses. Most of the courses are full."

DRUNK STUDENT INJURED

By NEERAJ VOHRA

An intoxicated male student received minor injuries outside the Student Union Tuesday morning. The student was involved in a fight with a student, according to Campus Police, who arrived at the scene.

A spokesperson for the police department confirmed that the student was injured but said the extent of the injury was unknown. The student was taken to a hospital and later released.

(Continued on Page 9, Col. 1)
EDITORIAL

Going Up?

What is immobile for 60 minutes, 15 inches below the first floor and filled to capacity? Any Baruch student concerned with arriving in class before the professor begins to lecture knows the answer.

Last week ninety-two students scrambled for an hour in an elevator at 17 Lexington Ave. At 360 Park Ave, South, the elevators escort passengers to the top floors and, without opening the doors, take them back down. These are simply a couple of the many incidents that delay students from reaching class on time, a problem that has become particularly annoying to those attending classes at Park Avenue South and below.

In addition to the aforementioned problems, the lines at Park Avenue South are long enough to intimidate the most casual vertical traveler, sometimes curling through the corridors.

In the past The Ticker has had two front page stories on this problem, and in the present issue, reports that students were "taken hostage" by one of the machines. Hopefully, the violations will be corrected in the near future, lest The Ticker be forced to run another front page story on the subject.

1984 ... + 3?

Although many of the members of the Baruch College administration are helpful in providing information to the staff members of The Ticker, writers and editors are invariably faced with the problem of faculty members who are not only unhelpful, but in many cases actually belligerent.

In the past, there have been countless examples of administrative members refusing to speak with writers, attempting to intimidate reporters, and trying to convince editors to allow them to read stories for approval before publication.

The purpose of a college administration is to meet the needs of the students as effectively as possible. The Ticker as "the student's voice" of Baruch would appreciate it if administrative departments would realize the difficulties we face and not hinder our effort.

LETTERS

KEEP COLEMAN

To The Editor: The Ticker's front page article had to do with the resignation of Professor Robert Coleman. Additionally, the editorial which followed stated that Coleman had a "pillowed presence on campus..." a few lines showed little understanding of how well Coleman publicized his work.

Coleman has a most extensive list of publications including numerous writings for the American Institute of Certified Public Accountants (AICPA), the New York State Board of CPA's, and The New York Times. In addition, he has been a visiting professor at Fordham University for the past five years.

Coleman has made it clear that he is a drawing card for Fordham and the college in the area of taxation.

Professor Coleman will be missed on this campus...in fact he has made a valuable service to this college and the students.

We feel that you are also a decent person who deserves to be treated with respect. Period.

A Positive Point About Breast Cancer

Now we can see it before you can feel it. When it's no longer on the dot page than on the tissue.

Breast cancer can be the best chance of saving the breast.

In the past year, a less invasive test may have the knowledge that some people have never realized.

I am not a racist.

Professor Goodman, I am the man who was called a racist for writing about myself and my own experiences and my own knowledge of the political and social climate. I blame the Howard Johnsons and Howard cakes for the demise of our national character and for the destruction of the American character. I blame the Howard Johnsons and Howard cakes for the destruction of the American character.

The Lasher

Black Rights, The Supreme Court

By EUSTACE FRANCIS

Until recently I was just another black lawyer with nothing to lose but my life and my freedom. Today I am a constitutional law expert, a professor of law, a member of the American Bar Association, and a graduate of Harvard Law School.

My name is now worth more than a dollar to me. With the help of the black struggle of a group of attorneys and others, I have been able to secure my freedom.

The Constitution is the supreme law of the land. It guarantees you that you will not be tried for a crime without a trial by a jury of your peers. It guarantees you that you will not be tried for a crime without a trial by a jury of your peers. It guarantees you that you will not be tried for a crime without a trial by a jury of your peers.

Nineteen students were stuck for approximately 40 minutes at colleges in the United States and Canada this week. Nine were held at the University of British Columbia, six at the University of California, five at the University of California, Berkeley, four at the University of North Carolina, Chapel Hill, three at the University of Pennsylvania, two at the University of Illinois, and one each at the University of Michigan, Brown University, and the University of Wisconsin. These students were unable to get out of their dormitory rooms because the power was out. They had to take the stairs to get to their classes. The power was out due to a snow storm on Jan. 10, 1985. The storm caused widespread power outages across the country, leaving many students stranded in their dormitories. The University of British Columbia was one of the worst affected schools, with over 300 students unable to get to their classes due to the power outage. The university had to reschedule classes and provide food and shelter for the affected students. This incident highlights the importance of being prepared for natural disasters and the need for backup power sources in critical situations.
CAMPUS CAPERS

DREAM TIME

National Collegiate Athletic Association (NCAA) bylaws limit athletes from being named as celebrity participants for any charity. Instead, O-J-O Jump organizers get the coaches to participate.

TOILET TALK

Campus advertising is going to pick up steam as the institutional students fight selling advertising space to public healthlers. "It's a cheap way to reach people when they are not in class," said one student. Nine percent of the campus population, who used the restroom, leave a 15 cent contribution on each advertising board.

RUBBER BANNED

A plan to give away condoms to U. of Wisconsin medical students who ask for them is currently being considered by the group. The plan is to teach them that sex is okay if it is safe and use- able.

Counseling Can Help You Achieve Your Goals!

Are you concerned about:

- Being pressured, isolated, or lonely?
- Making friends and maintaining relationships?
- Understanding yourself and your life goals?

The Baron's College Center of Counseling and Psychological Services has a staff of professionally supervised and trained psychologists and counselors who can help.

Our services include Individual and Group Counseling for personal problems, career planning, and academic skills development. These services are provided free of cost to all Baron's students. Every contact with the office is strictly confidential.

*Attention Students on Academic Probation:

The registration deadline for the Probability Session and Counseling Groups has been extended until Thursday, February 28, 1987. The Counseling Center has been designed to help individuals who are experiencing emotional difficulties to get off probation and stay off. All interested probation students who have not yet contacted the office should do so right away.

MACHINES INSTALLED THROUGHOUT

by JOHN RICARD

Students will benefit this summer from the arrival of new computing power throughout the Baruch campus, according to A. Morgan C. Avera, associate dean of students. "We have to make sure that students are well equipped," he said. The new machines are in place for the summer so that the students can use them for some kind of photography service right away.

The new machines will be placed in the library, in the college's main entrance, and once the students know what they can do with them, they will use them," he said.

work in a meaningful area of

(Continued on Page 9, Col. 1)

ACCOUNTING INTERNSHIPS

Working one-on-one, similar to the Big Brother program, each student in the program is assigned a counseling proffessor, who helps the student through the college process and follows the student through his years of college. The sponsor has no financial return in the student's education, and sponsors and students are paired on a nonfinancial basis.

SPOKE AT LIBRARY

Antonenora Berger Mendte, author of "The American, 1658 to the Present," an engaging record of rebels, reformers and scientists who paved the way for Justice Sandra Day O'Connor's appointment, has been scheduled to present it at 3:00 p.m. on March 11, 1987.

Mr. Little, who has written numerous articles about women and the law, is general counsel of the Metropolitan Assistance Corporation, New York City and New York University, a illegal Alien of the District of Columbia, I am sorry. We do not have a program.

The Half-Moon Swift Dancers, who have performed in the New York City area since 1975, will perform some type of sexual orientation articles about women and the law, by general counsel of the Metropolitan Assistance Corporation, New York City and New York University, a illegal Alien of the District of Columbia, I am sorry. We do not have a program.
POST OFFICE LOSES DIPLoma-NOTIFICATION LETTERS

BEHIND THE SCENES

Many late January Baruch College students were unable to receive their diplomas because their diploma-announcement letters were misshipped and lost by the United States Postal Service according to Thomas McCarthy, the registrar. The diploma-announcement letters were mailed in late January 1986 and again in early February 1986 for the 1985 and 1986 graduates who were about to receive their diploma for the spring semester. Only after the fault was isolated into the diploma-announcement letters which were to be mailed around April 10, did the registrar's Office of student investigations begin to investigate the problem.

"I don't know who picked up first diploma," he said. McCarthy stated that students are supposed to get their diplomas at least two months after graduation, before they receive their transcripts. You have to wait a long time to get a diploma especially compared to other schools in the city. For instance, both the City University of New York and the City College of New York complete the diploma process about six weeks to six weeks before the student actually receives it. McCarthy didn't think the Baruch College diploma would be comparable to Columbia for being the first one to mail the diploma. The Student Management System at Columbia University, is presently being tested here at Baruch.

SPECIAL THANKS TO THE FACULTY & ADMINISTRATION OF BARUCH COLLEGE FOR THEIR PARTICIPATION & COOPERATION
You don't have to be of African descent to read Black History any more than you have to be European to study Western Civilization.

When some people think of racial antagonisms—such as those characterized by Howard Beach, The Citadel and Cummins, GA—stem in large part from a fundamental and often subconscious misunderstanding of peoples outside of the "American Mainstream." When a negative stereotype is exploited, a foundation of prejudice may be weakened.

To the extent that opportunity is exploited, the extent to which opportunity is exploited, a foundation of prejudice might be weakened. We hope that the material appearing on these pages will somewhat enlighten and inspire the reader to seek a broader understanding of the Black Experience.

Did You Know?
- *Ark* is derived from the Wolof word *dug*, meaning to misbehave or lead a disorderly life.
- *Tote*, as in the tote bag, comes from *rot*, a word from the Western Congo and Angola meaning "to carry.
- In 1883, Jan Matzeliger's shoe lasting machine so revolutionized the industry that Lynn, MA., Matzeliger's hometown became the "shoe capital of the world."
- *Juke* is derived from the Wolof word *dzug*, meaning to misbehave or lead a disorderly life.

The Kinks — "Foolish Act" (MCA)

When you see the Kinks, they're on a roll. The band's daughter, Joanna, is pregnant, and the Kinks have just completed a long tour and are about to launch their new album, which is expected to be a big hit. The band is in full swing, and the crowd is going wild.

The Kinks are a well-known band from the 1960s, famous for their catchy melodies and distinctive sound. They have released over 40 albums and have sold over 100 million records worldwide. The band consists of Dave Davies, Ray Davies, and the rest of the band members. They are known for their energetic live performances and their ability to connect with their audience.

The album "Foolish Act" is a great collection of songs that will appeal to fans of the band and those who are new to their music. It features some of their best-known songs, as well as some new material that is sure to please listeners.

The band members are looking forward to their next tour and are excited about the release of their new album. They hope that their fans will enjoy the music and that it will become a hit worldwide.

Rock 'n Rebellion

You've probably never heard of A.P.P.L.E. before, but they are a group of rising stars in the music industry. This album features a talented group of musicians who have come together to create a unique sound that is sure to appeal to fans of all ages.

The album features a variety of styles, including rock, pop, and hip-hop. The musicians have worked hard to create a sound that is both innovative and accessible. They have put a lot of time and effort into their music, and it shows.

Overall, this album is a great introduction to the music of A.P.P.L.E. and is sure to please fans of all ages. If you're looking for something new and exciting, this is the album for you.
Stupid Fashion

BY PAUL FINNELI

1873 wasn't a very profitable year for music. Antrock didn't even make $50 a week as a banjo player for a second-rate minstrel show. But life was about to change for many people in the world of music. The year saw the debut of the Go-Go's, the first all-girl rock band. Their first album, "Our Lips," was a huge success, and the band's catchy tunes and rebellious spirit became an inspiration for many young people. The year also saw the release of "Greatest Hits," an album that would go on to sell millions of copies.

In music, there are always new trends and changes. The 1873 album market was a reflection of this. While the Go-Go's were making noise, other artists were exploring new sounds and styles. The year saw the emergence of hip-hop music, with artists like Run-DMC and Public Enemy gainng a foothold in the industry. These artists were breaking down barriers and paving the way for future generations of musicians.

The year 1873 was indeed a turning point for the music industry. It was a time of great change and innovation, and it set the stage for the incredible developments that would come in the years to follow.
**ARTS**

**METAL**

By J. L. TREFPALT

The story of 1986 started out to be a huge one for heavy metal. Bands were getting signed left and right to the major labels. Underground bands were becoming a part of the metal scene. It was a time when metal fans were beginning to see their idols perform live and in person. There was a sense of excitement in the air that was palpable.

West Coast labels Metal Blade and Enigma were going to dominate the industry. The bands that emerged from this period were Slayer, Metallica, Anthrax, and Megadeth. Slayer's debut album was a game changer. It was a heavy, fast-paced album that set the stage for the band's future success. Metallica's *Kill 'Em All* was another album that was released during this period. It was a dark, brooding album that showcased the band's heavy metal roots.

**MADNESS**

**CIRM — Prince of Loud** *(Eleanorian Records)*

One of rock's rule-violatives, David T. Chang, is back with a brand new album. His band has remained intact and so has his eye for putting together electric and distinct sounds. This new album, *Prince of Loud*, is one that the fans have been waiting for. It's a powerful album that is sure to be a hit among metal fans.

**Keep Away From Parents**

By J. L. TREFPALT

The meaning of Christmas rock returns with their third offering. This album becomes a more diverse and polished effort. The songs show a maturity that was absent on previous albums. The mix of heavy metal and rock is well executed. The production on this album is top-notch. It's a must-listen for all fans of metal music.

**STRAINER, To Kill With the Devil**

Themen of Christmas rock return with their third offering. This album becomes a more diverse and polished effort. The songs show a maturity that was absent on previous albums. **THE GOLDEN PANTHERS — Gold of Silence** *(Coffin Records)*

_The best schemes of mice and men,_

as Shakespeare so eloquently put it, is often the worst. This is certainly the case with the band's third album, *Prince of Loud*. The band's previous two albums were critically acclaimed, but this one falls flat. The band seems to have lost its edge and the music is pedestrian.
