The Cardigan of the DSSG has determined the final cost for their blue sweaters with white chenille lettering. According to the council minutes of March 3, 155 cotton/polyester blend sweaters will be purchased at a cost of $44.50 each, for a total of $1,557.50. Pending approval from Ronald Aaron, associate dean of student activities, in February 10, during club hours, the lecture which was on the topic of "How New Yorkers can combat both white collar crimes and street crimes," was sponsored by the Italian-American Institute of CUNY and the Italian Society. After stepping up to the podium Giuliani, who has provoked high profile white collar criminals such as Stanley Friedman and Michael Lazar, clarified the changing scope of crime within the past decade. "When people thought of crime ten years ago, they thought only about violent crime, usually committed by members of lower socio-economic groups. Today, my office deals with crimes committed by people who have money, so the victim would probably know when to do with." To illustrate his point, Giuliani alluded to the 1983-84 case against commodities magnate Mark Rich, who was charged with dodging $90 million in Federal taxes. He added that "since the Mark Rich case many people have surpassed his record on tax evasion." See In-Depth Article on Giuliani in Features.

Security Incident at 26th Street Makes Students Late

By SCOTT PAM

Security guard J.D. Graham shut off and emptied a student filled elevator in retaliation for an alleged security incident with a passenger the morning of February 16.

According to Graham, the student (who remains unidentified) bumped into a divider pole and moved it approximately five inches closer to the security station in the lobby of 46 E. 26th St., making passage for students exiting the elevator difficult. "I wanted to do something big, change the way things are done," said Boisson. See Page 412, Column One.

AN ABORTION CASE STUDY

By MARK CALLOWAN

When asked their opinion of abortions, most women and a small number of men would be opposed to it. If the judicial system said abortion should be illegal, would there be any problem? That is the question the administration of CUNY asked students in their recent survey titled "The Report." The opinions of the respondents were not only disastrous from the administration's point of view but also a disaster for the pro-choice movement.

The survey was distributed among students at Lehman College, City College, Queens College, Hunter College, and Baruch College, and included questions about abortion, Newspapers, and the administration of the school.

The results showed that 70% of the students surveyed believed that abortion should be illegal, while only 20% believed that it should be legal.

The administration was also concerned about the rising number of newspapers on campus, and the survey included a question asking students if they would rather have a pro-choice or a pro-life newspaper on campus.

The results showed that 60% of the students preferred a pro-choice newspaper, while 40% preferred a pro-life newspaper.

The survey also included questions about the administration's handling of abortion cases.

The results showed that 80% of the students believed that the administration was handling abortion cases in a fair and just manner, while only 20% believed that the administration was handling abortion cases in an unfair and unjust manner.

The survey also included questions about the administration's position on abortion.

The results showed that 70% of the students believed that the administration should support abortion rights, while only 30% believed that the administration should support anti-abortion policies.

The survey also included questions about the administration's financial support for abortion clinics.

The results showed that 60% of the students believed that the administration should provide financial support for abortion clinics, while only 40% believed that the administration should not provide financial support for abortion clinics.

The survey also included questions about the administration's policies on sexual harassment.

The results showed that 90% of the students believed that the administration should have a strong policy on sexual harassment, while only 10% believed that the administration should have a weak policy on sexual harassment.

The survey also included questions about the administration's policies on free speech.

The results showed that 80% of the students believed that the administration should protect free speech on campus, while only 20% believed that the administration should restrict free speech on campus.

The survey also included questions about the administration's policies on tuition.

The results showed that 70% of the students believed that the administration should provide free tuition to all students, while only 30% believed that the administration should charge tuition.

The survey also included questions about the administration's policies on athletics.

The results showed that 80% of the students believed that the administration should provide funding for all sports, while only 20% believed that the administration should not provide funding for all sports.

The survey also included questions about the administration's policies on academic freedom.

The results showed that 90% of the students believed that the administration should protect academic freedom on campus, while only 10% believed that the administration should restrict academic freedom on campus.

The survey also included questions about the administration's policies on diversity.

The results showed that 80% of the students believed that the administration should promote diversity on campus, while only 20% believed that the administration should not promote diversity on campus.

The survey also included questions about the administration's policies on student government.

The results showed that 90% of the students believed that the administration should provide strong support for student government, while only 10% believed that the administration should limit student government.
Bullot t'atrick
March 17, the anniversary of the death of St. Patrick in 461, is celebrated as a national holiday in Ireland and is commemorated by the Irish the world over. The day has been observed in America since colonial days.

St. Patrick, born around 389, is the patron of Ireland and a saint of the Roman Catholic Church. According to legend, he led a romantic, adventurous life. At the age of 16, he was captured by Irish pirates who took him from Britain to Ireland and set him to tending the flocks of a chief tain in Ulster.

During the six years he spent in slavery, he underwent a spiritual transformation. Upon escaping from his master, he fled to the west coast of Ireland and boarded a ship for Britain. He had decided to devote himself to religious work and made his way to the monastery of St. Martin at Tours, France. After spending almost two decades on the continent preparing himself for his work, Pope Celestine commissioned him to work in Ireland and he returned in 433, apparently as a consecrated bishop.

Some of the legends told about this popular saint, one of the best known is that he charmed the snakes of Ireland down to the seashore so they were driven into the water and drowned.

Legend or fact, our hats—green, of course, because green symbolizes Ireland's gratitude to the saint—are off to St. Patrick.

Note Bit of Irish Blarney

The original bit of blarney originated with the Lord of Blarney Castle in Ireland. The castle, besieged by the English in medieval times, fell to the attackers and an armistice was discussed. However, the lord of the castle did not give up his old homestead to the English. Instead, he simply promised surrender.

New promises replaced former promises and with sweet words and sugary flattery, the Lord of Blarney kept the commander of the English troops from taking the castle.

In Ireland, the court joked about the English victor who captured Blarney Castle but couldn't really take it. And Blarney became synonymous for sweet talk or eloquence that has power to persuade.

Shamrock Day—March 17

The shamrock, a symbol of St. Patrick's Day, is a native to Ireland. As you might expect, it is Ireland's national plant. Even its name comes from the Irish word, which means three-leaved.

Legend has it that Saint Patrick, who brought Christianity and freedom to the Emerald Isle, used the three-leaved shamrock to illustrate the Trinity to an Irish King. And with the shamrock, the snakes of Ireland were driven into the sea. Little wonder, then, that the shamrock is held in such high regard in Ireland.

On Saint Patrick's Day, Irish families search the surrounding hills for the small three-leaved plants which appear in early spring. Once found, the shamrock is worn as a remembrance throughout the day, or it is kept in a locket or hat band until the following year.

When the shamrock was first worn in the United States is a point of question, but Saint Patrick's Day has been celebrated here at least since 1737, when a group of Irish met in Boston and founded a benevolent group called the Charitable Irish Society.

Shamrock Indicates Unity

"How can the one God be three?" the ancient people of Ireland asked.

And Patrick, son of Calpurnius, held up a three-leaved clover—a shamrock—and replied, "Each one of these clovers is made up of three leaves... Together, they form one plant."

Thus did Saint Patrick teach the people of God's unity. And to this day, Patrick remains the patron saint of Ireland and the shamrock, Ireland's national symbol.

Gaelic Blessing for You in Honor of St. Patrick's Day

May the road rise with you.
And the wind always be at your back;
And may the Lord hold you in the hollow of His hand.

Shamrock Day—March 17

The Dark Side of Twain’s Huckleberry Finn

By CHRISTINA J. TOFFEY

Mark Twain’s view of human nature as expressed in The Adventures of Huckleberry Finn is a very pessimistic one. Three sources of this view are readily apparent in the novel. The first of these is Twain’s own views on human nature. The second is Huck Finn’s view of human nature. The third is Mark Twain’s portrayal of the society and culture of the 19th century.

Mark Twain’s own views on human nature are expressed in the novel through his portrayal of the society and culture of the 19th century. In the novel, the society and culture of the 19th century are portrayed as being corrupt and morally corrupt.

Huck Finn’s view of human nature is expressed in the novel through his own actions and beliefs. Huck Finn believes that human nature is inherently evil. He believes that people are forced into good behavior by the threat of punishment. He believes that people are born with a natural tendency to do evil.

Mark Twain’s portrayal of the society and culture of the 19th century is expressed in the novel through his portrayal of the society and culture of the 19th century. He portrays the society and culture of the 19th century as being corrupt and morally corrupt.

Finally, it is one more instance Mark Twain’s negative view of human nature is further illustrated. When Huck Finn is on his raft with Jim, a runaway slave, he continues to question him. He doesn’t know if Jim is a runaway slave or if he is just a runaway slave. He doesn’t know if Jim is a runaway slave or if he is just a runaway slave.

What good is a blood donor?

A blood donor is good for people being operated on. For somebody with leukemia. For barefoot kids who aren't careful. For people into feuding and fighting. For hemophiliacs so they can be as normal as possible. For daredevils. For people undergoing dialysis while waiting for a kidney transplant. For people who feel around with guns. For little kids who manage to uncap a bottle of something poison. For people who are burned pretty bad. For people who go through windshields and red lights. For new mothers needing a transfusion. For new babies who need a complete change of blood supply. For people having open-heart surgery. For cancer patients. For people with a severe case of hepatitis. For kids who fall out of trees or whatever. For anybody any age with bleeding ulcers. For people in the wrong place at the wrong time. For the very tired with severe anemia. For people who run into things. For people who are in a lot worse shape than most people you know. For people who are the wrong place at the wrong time. For the very tired with severe anemia. For people who run into things. For people who are in a lot worse shape than most people you know.

Selecting a Life Policy
By NANNETTE J. GORDON

Prior to purchasing a life insurance policy, it is important to understand your needs and the different types of policies available. Life insurance can provide financial protection for your family and survivors in the event of your untimely death.

Considering Factors

1. Age and Health: Younger individuals typically qualify for better rates as compared to older individuals.
2. Financial Dependents: Consider the income your beneficiaries will need to maintain their current lifestyle.
3. Goals: Determine your why and what you want to achieve with the policy.

Types of Life Insurance

1. Term Life Insurance: Offers coverage for a specified period, typically a few years or up to a lifetime. It is the most affordable type of life insurance.
2. Whole Life Insurance: Provides lifetime coverage and includes a savings component.

Choosing the Right Policy

Select the policy that best fits your needs and budget. Consult with a financial advisor to discuss your options and help you make an informed decision.

Fighting Crime by Changing Attitudes through Education
Ronald W. Giuliani Speaks at Baruch
By LINDA ZUCCHI

An FBI agent served as a keynote speaker at the annual conference on March 15 at Baruch. His topic was a recent FBI report on the prevention of crime through the use of a particular method, which he described as a “non-traditional” approach.

According to Giuliani, the key to preventing crime lies in changing the attitudes of individuals. He emphasized the importance of education in fostering a culture of responsibility and accountability.

“Education is the cornerstone of any effective policy to combat crime,” he said. “It is crucial to help individuals understand the consequences of their actions and the impact of their choices.”

Giuliani cited several examples of successful crime prevention initiatives, including programs that utilize technology and community partnerships.

“By working together, we can create a safer environment for everyone,” he concluded. “And we must remember that prevention is always better than reaction.”

The play does rely on its serious ideas. At first, some scenes are too talky and过于直白, but there is some variety of pace and tone. The characters’ interactions are sometimes quite realistic and emotionally true. The audience may find themselves musing on the themes presented. Overall, the play is a thought-provoking exploration of love, loyalty, and betrayal. It is a must-see for fans of drama and serious theatre. It is worth seeing for its honest portrayal of human emotion and its exploration of difficult issues.

ARTS

High Noon in Paris

At first glance, Richard Walker, a highly accomplished and cerebral specimen, seems cold and collected. He's a family man who lives in a stately apartment building and it's obvious all that this man knows is very much. When she receives a mysterious note from her long-lost daughter, the woman in the story decides to return to New York and try to find out what's going on. Walker, as first, checks nothing. Of course, TWA called the man and the late news shows in the lobby is更换为 that suitcase that contains the factory equipment that was ordered. But when the woman finds out that the man is not interested in anything else, she quickly becomes interested. On top of that, he seems to notice the woman (he thought with such devotion) is still staying in the only hotel in town.

A short interview with some of the hotel employees and a quick stroll of the lobby reveals in Dr. Walker that his wife left the hotel room.

My poor Michael, who's in Paris for a medical convention and seems to be doing okay. The husband and wife have been an amazing coincidence. Believe it or not, they are married! Michael is a Frenchman.

Pirates, this is a story of love, rejection, and nursery-like rhymes instead of Gable-type sex appeal, and it is a must for any movie lover. It is a different kind of rapport with one another. The more I watch the movie, the more I see what seems to be an adult acting like a child, and vice versa.

By GLEN J. SPENCER

The Movie Clones

What do you get when you put together a good idea, a bad script, and a miss, some good gags and good acting? You get "The Movie Clones," a film that is not exactly a remake of "Great Expectations" but is more like a five to eight-year-old. The film is a spoof of the famous classic with a twist. The main character is a 110-year-old instead of a 15-year-old who is a star of the film "The Movie Clones." He is a very intelligent and humorous character who is able to carry out the humor and the jokes quite well. The film is a must for any movie buff.

By JOHN P. REYNOLDS

Savage comes across as a person who is not exactly a child, but there have been plenty of them in our entertainment field, but there is little to his performance that is not. The film is a spoof of the famous classic with a twist. The film is a must for any movie buff.

By NATHANIEL KANNER

Is Star Trek Now 'Star Drek'?

Our film, in this country, has become a television institution. There are very few American films that are as famous as the "Star Trek" series. It is a part of our culture, and it is a part of our history.

"The Ticker" has been covering the "Star Trek" series for many years, and it is always interesting to see how the series has evolved over the years.

Oklahoma, the first great performance of the year."

Midnight Oil: Midnight Oil Burns Brightly

Midnight Oil—Dundie and Dori Maintenance Records

It seems as though the opening bands of 1988 are finally getting their due attention. Midnight Oil is one of those groups who have been working hard to build their reputation. The band's latest release, "Dundie and Dori Maintenance Records," has been well-received and is a testament to their musical prowess.

Midnight Oil's sound is a unique blend of punk, rock, and reggae influences. Their music is characterized by a driving rhythm section and powerful vocals that are often accompanied by evocative lyrics. "Dundie and Dori Maintenance Records" features a mix of songs that explore themes such as social injustice, environmental issues, and personal struggles.

The band's live performances are legendary, with fans often describing them as electrifying and intensely emotional experiences. Midnight Oil's music has resonated with audiences around the world, and their dedicated fanbase continues to grow.

Midnight Oil is just one of many talented musicians and bands who are working hard to make their mark on the music scene. Their success serves as a reminder of the power of music to connect people and inspire change.
Burt Reynolds has come a long way from ever having been a television news anchor who returned from a three-week vacation Polymer from the October 1, 1987, issue of the Los Angeles Times.Literally, "you just can't make him look like a student.") Harrison Ford has long been a favorite of many critics and fans alike, but his latest role as Sully has captured the imaginations of audiences around the world. However, despite the success of "Star Wars" and "Jaws," not everyone was convinced by the actor's performance. But now, with the release of "The Empire Strikes Back," Ford is once again proving his worth to the film industry.

 Casey Says Farewell

Sorry,.nny! Casey Kaufer has departed American Express in New York, where he's been the man in charge of the company's annual Employee Day, a show which draws thousands to the musical. Kaufer has been with the company for 10 years.

The show took place at East Side High. (Continued from Page B15)

Joe Clark and Run DMC

During last month's legendary rap concert Run DMC put on a show in Paterson, New Jersey, that was a virtual sellout. The venue was full, and there was a waiting list of people.

The show took place at East Side High School in support of its governmental program for Run DMC. It was an all-day event, opening with a rap concert which drew thousands to the musical. Kaufer has been with the company for 10 years.

CRACKED and Tubbs in '68

In Martin Starety

What you can see is Off Ledge, a new action thriller from 20th Century-Fox. All the usual suspects are present: Willem Dafoe, Al Pacino, and Gregory Hines. It's the story of a young man who is forced to choose between his love for his girlfriend and his obsession with the drug trade.

Hojos Place

Richard Jones will be reviving his old Village restaurant, Hojo's Place. The new venture will open in the fall, and will feature a menu of classic American dishes. The restaurant will be located in the heart of the Village, and will feature a menu of classic American dishes.

It's a great opportunity to support a local business, and to enjoy some fantastic food. Hojo's Place is definitely worth a visit!
Don't Die of Embarrassment.

Don't be too embarrassed to talk about condoms. Condoms can help prevent AIDS. Insist on the use of a condom if you have sex with a person whose health and drug history is unknown.

DON'T DIE OF EMBARRASSMENT.

One of Baruch's most exciting and successful, yet little known varsity sports, is volleyball. Baruch's women's volleyball team finished third in the CUNY playoffs last year. This year the team has been placed second and will likely play Staten Island and City College in the first round of the CUNY playoffs.

Volleyball is played to a best of five games and is a highly physical and mental sport. Most teams play a 5-1 offense which means one setter, four hitters, and five blockers. Baruch plays a highly unpredictable 3-2. The set is the way players hit the ball in the air for their team. It can be hit above, driven or driven. The object of the game is to get the ball down on the other side of the net, so the other team can't return it.

Baruch is led by four year veteran and captain Stanley Barbot and Diane "The Wise Old Man" Pajares, who's been playing volleyball for over twenty years. Coach Howard says, "Barbot is the type of player who can do anything. He can hit the ball, serve, block, and dig." He also said that Pajares, "just knows what to do with the ball. He's an old-time player." Along with Barbot, the team has won two players with more experience than the rest of the squad. The team will be led by six year veteran, Mauricio Correa because the referees started their match before all their players arrived. Let's hope this year will be different. You can lend the team as "Mr. Reliable" and "Mr. Intense." Playing defensively takes a lot of training and it was a complete washout this year.

Last season was the first time Baruch participated in the CUNY volleyball conference. In its first year, Baruch had a record of eight and four. Baruch has a strong volleyball program, yet little known varsity sports, is successful, yet little known varsity sports. Baruch volleyball fans. It will be a great experience.

The athletes on the team are: Claire Rosado in the front, a sort of spiker or hitter. His job is to finish the play. In the back row and then puts in freshman starters are as follows. Johnson Yuen (setter), a record of eight and four. Baruch has a strong volleyball program, yet little known varsity sports, is successful, yet little known varsity sports. Baruch volleyball fans. AS THE FLAME DIES OUT, THE LIGHT IN SOME STILL SHINES

BY MATT AUBRY

During the last two weeks of February, the XV Winter Olympics were held in Calgary, Alberta, Canada, an area of much natural beauty, provided a scenic backdrop for a series of rigid competitions. These events, ranging from ski ballet to four-man bobsledding, drew millions of spectators, expecting to see the best athletes in the world compete. Those crowds, as well as the millions tuning in on television, were not disappointed. The show put on by these superb athletes was not one soon to be forgotten.

One of the major attractions of games such as these is the focus on the competitors' personalities as well as their athletic skills. The XV Winter Games were no exception. As we watched the athletes out there giving their all, we felt a certain closeness with them. Millions of Americans, while diligently watching the high-strung Italian skier Alberto Tomba as he fell short of his goal. It might have been the charismatic Elizabeth Marley, or the beautiful East German primadonna figure skater Katarina Witt, as they both produced gold medal performances. Excitement ran rampant through these Olympics. There were such spectacular events as the seven triples, breathtakingly executed by the little bundle of Japanese energy, Midori Ito, who captured our hearts but no medals. Then we had the valiant tries from "sentimental" favorites like the humorous Eddie "The Eagle" Edwards, who had the whole United Kingdom behind him in ski jumping, and the Jamaican bobsledding team who had the rest of the world backing them. There were also stunning upsets to add to the thrills. Such was the charismatic Elizabeth Marley, as she joyfully stole the silver medal away from Debi Thomas, and Tizian Zurbiggen, whose expected five gold medals in Alpin e skiing melted down to one. An interesting observance of the '88 games is the upsurge of popularity of the relatively new demonstration sports. Events such as curling and ski ballet, which are trying to gain admittance into the next Olympics, were all the rage this year. One former demonstration sport, the luge, which was included in the competition this year, was quite successful and was much enjoyed by the spectators. It would be a welcome treat to see some of these "demonstration sports" on the face at the 1992 Olympics.

A disappointing note on these winter Olympics was the United States teams' poor performance. The United States, formerly a front runner in the medal race, was sadly lacking this year. Our only victories came when Brian Boitano nosed out Canada's Brian Orser on technical points for the men's figure skating gold, and Bonnie Blair bested everyone else in the women's 500 meter speed skating. It seemed as if fate were somehow against the United States as one by one our athletes fell prey to defeat. The "favorites" from America, for example, Dan Jansen, who made such a courageous effort in speed skating and Debi Thomas is figure skating gave way to apparent pressure and crumbled.

The overall performance by the United States was so shockingly poor that now a committee, headed by Yankee-owner George Steinbrenner, has been established to investigate the cause for this failure. There is much doubt as to whether the committee will accomplish anything. It just seemed that 1988 was not the United States' year for the Winter Olympics. Not to worry though, we're still got the summer.

UNITED STATES HIGHLIGHTS IN THE OLYMPICS

1. Brian Boitano, scoring high on technical points, edges out Brian Orser (Canada) for the gold in men's figure skating.
2. Bonnie Blair, in world record time, beats Christa Rothenburg (East Germany) by .02 of a second to take the gold in the women's 300 meter speed skating.
3. Eric Flaim, trying to vindicate the United States' earlier losses, gets the silver in men's 1500 meter speed skating.
4. Bonnie Blair, going for two in a row, comes up a little short and gets the bronze in the women's 1,000 meters.
5. Debi Thomas, after suffering a few stumbles in the long competition of women's figure skating, comes back gamely to clinch the bronze.
6. In pairs figure skating, Jill Watson and Peter Oppenauer fight off stiff competition to retain 3rd place and the bronze.
