DSSG Approves Budget

Government Asks For $500 Increase

The 1989-90 budget was approved by council last week, according to Day Session Student Government Treasurer Apollo Matthew. The budget was then before the Board of Directors on Thursday, Oct. 12 where it was approved without changes.

The DSSG's total operating budget this year comes to $84,225, roughly five dollars worth of eating utensils divided among the individual trades people had to take care of, according to Sean Mason, president of the DSSG and secretary. $1,000 for the conference, which includes the participation costs for the DSSG newsletters and tutorial services, $8,640 for leadership stipends, which includes the maximum $1,100 per semester given as a stipend to the four members of the executive board, the president, vice president, treasurer, and secretary, $1,000 for the conference which includes the participation costs for the DSSG newsletters and tutorial services.

Faculty Files Petition For Wertheimer Removal

"Off-White" Paper Raises Questions

By EDWARD ASANTE

The black and Hispanic faculty has filed a petition demanding the resignation of the Vice President of Development Stephen Wertheimer, because of the nature of his widely circulated memo that strongly opposed the establishment of a black and Hispanic alumni association in the school.

The memo that stated "the memo that bears the mocking title "Off-White Paper on the Black/Hispanic Alumni..." shows that "the Machiavellian cynicism of this man is character revealing" and therefore "as a result of the attentions that he reveals in his memo, we are certain that this man can serve the student body and the people of this city."

The memo is both insensitive and destructive to the advancement and promotion of the black and Hispanic students for freedom and respect in all aspects of life.

Wertheimer's memo was a response to the attempted formation of the Black and Hispanic Alumni Association in Baruch which sought to promote the majority of the school. The issue of the formation of the BAHAA has been a bitterly debated issue since 1984 due to which time the case has been through the United States District Court, the U.S. Court of Appeals and is currently still litigation at a decisional level.

Black studies Professor Arthur Lewin, a ten-year faculty veteran at Baruch and the author of a recent opinion article in the Oct. 3 issue of The Tickler titled "Absence of Color," said that he noted a pattern of exclusions since it bears "that he is only for the whites." In a response to the demand for his removal, Wertheimer, in a letter to all the signatories of the petition, said that the paper was "an exploration of possible, even outlandish, situations and scenarios and, in point of fact, hardly anything was implemented or ultimately discussed seriously."

Language was regrettably rugh and conversational and blunt and could be seen as insensitive. "He went on to say that a lot of time has been spent on litigation, and it could have been put to better purposes, and he did not intend to cause offense, but merely to explore theoretical

College Sustains Water Shutdown

By BARBARA A. EHRLICH

On Wednesday, Oct. 4, the Environmental Protection Agency ordered the temporary shut down of the college's 360 Park Ave. S. 46 E. 26 St. buildings water system in order to avert a break in the city's main line under repair.

According to Alphonse T. Zatorski, associate director, rehabilitation and construction, "Notification of the shutdown from the water system from the EPA was necessary for the repair of the water main." The department, he said responded to the emergency within half an hour of notification. "Individual trades people had to take care of the stoppage," he said. According to Zatorski, Baruch spent about 30 to 60 minutes in the process.

The shutdown necessitated the use of alternate facilities at the nearby locations, but according to Daniel Kaufmann, associate director of operations for campus planning, "it turned out that most people did not heed the notice," and some students did use the toilet facilities in the buildings despite the lack of water. He went on to say, however, that most students cooperated by using toilet facilities in the other buildings.

Due to the efforts of the school plumbers and the city, the water reception was restored 24 hours sooner than had been anticipated. He went on to say that no extraordinary costs were incurred by the college. "We anticipated having to go back to the water main for more equipment, but we managed to get approval to replace what was needed so we did not need another extra day," he said.

(Continued on Page 6)
HIGHWAY ROBBERY

The Day Session Student Government has submitted and approved their budget for the 1989-90 Academic Year. On Thursday, October 12, the College's Board of Directors gave the DSSG a "green light" to spend. Those in the Baruch community who have been around awhile know that the Board of Directors continued in their tradition of asking, few, if any, questions.

Unfortunately, a brief glance at the DSSG budget shows one that approximately 50 percent of their total funds are going to pay for "perks" for government members. This includes $8,864 for executive member stipends, $1,400 for "fringe benefits," which is actually the tax on these stipends, $2,250 for office refreshments (lunches for weekly meetings), $250 for dining tickets, and all that may partake of these lunches, $1,000 for conferences so they can attend University Student Senate meetings, $7,000 worth of subsidy for leadership weekend costs (which every other student must pay for personally). So far this totals $19,590. Add this to the fact that they profit more than any other students from their programming refreshments ($2,000), students dinners ($3,000), and one can see that government members enjoy quite a few benefits.

This would be all well and good if they were using their own money, but the fact of the matter is that their funds are generated from the $50 student activity fee paid for by each and every day student in this school. Now they are taxing around the idea of buying school jackets with our money and selling them back to us for the low price of approximately $85 per.

They, of course, in past years have gotten them free—with our money.

It is time the Board of Directors stop rubber-stamping the greed on the part of government members. As the system stands now, an uncapped spending power our hard-earned money 10 spend this year, than the DSSG has for plastic forks.

SECURITY BLANKET

In the beginning, some fifteen years ago, before there was a security blanket in every building, the Student Center set up security guards to protect students from outside invaders. As the system stands now, they are an unchecked power spending our hard-earned money for school buildings. The Ticker October 7, 1989

To the Editor:

I was delighted to read your article on the handbook "The Black Student and..." in the Oct. 5 issue of The Ticker. It touched upon the many problems that are faced by black students on this campus and this was appropriate and necessary.

However, in the last paragraph, you state that "the black student who seeks the support of this handbook...will, I am sure, find a friendly and understanding hand..." I must object to this.

I do not even know of anyone in the black community who is friendly and understanding to black students. Black students feel that they are always the recipients of the support of others, that they are always in need of the support of others and that they are always on the receiving end. Black students are in a position where they must seek the support of the white community because they cannot do anything for themselves, and black students do not want support of the white community because they do not like the white community and do not trust the white community.

Black students, whether they realize it or not, are as much in need of the support of the white community as the white community is in need of the support of the black community.

Yours sincerely,

[Student's Name]
Security Cost Rises At Student Center

By COLLEEN TIGHE

The cost of security at the Student Center, according to Carl Aylman, director of student activities, has grown over 500,000 this year. Further, according to Aylman, the college has already bought 600,000 a year in terms of student activity dollars, and

Security at the Student Center According to Aylman, security was maintained at the Student Center long before it was bought by IBM. Aylman noted that with a student activity level was already being made. He said that his membership in the commission realizes that there are serious issues. He reiterated that if it was really important, it would be important for the Student Center in the way it is going to happen. He said that the college making a concerted effort gradually picking up part of the cost. According to Aylman, the campus is the responsibility of students, faculty, students and alumni. Aylman, on the other hand, believes that the composition is just another one of the supervisory classes. In the college has very questionable "buffer zone" to divert the major

The Petition for the removal of Wertheimer has achieved and not what it proposes to achieve. It is going to be effective only if it responds positively to the demands of the Students and Administrative faculty, students and alumni. Aylman, on the other hand, believes that the composition is just another one of the supervisory classes. In the college has very questionable "buffer zone" to divert the major

Paint

(Continued from Front Page)

He stated that the paint is a good commercial paint. According to Kaufmann, the paint is bought in lots of 50 one-gallon cans at $33.75 per can. Kaufmann said that the petition is well thought out. He also said that the petitioners try to paint as many times as possible, but cannot do it because of time and money constraints.

Shutdown

(Continued from Front Page)

Some personnel were diverted from their normal activities to handle the emergency at "very little cost to the school," Kaufmann.

Library Institutes “Quiet Zone”

By NICOLE PARADIS

The seventh floor of the library has been designated a quiet zone as of this semester, according to Spencer Means, dean of academic services. The idea is to get a quiet place where students can work on research projects.

Students who want to work on quiet projects will need support from the students as well. We hope people who want to work in these areas will join project teams.

The library would be a quiet place for students who want to do research work. Students who want to work on projects would be more considerate to their neighbors by being as quiet as possible, said Means.

Menos added that he understands the need to communicate, however. He in the college and turned over the responsibilities. He also stressed the importance of students and the need to keep the quiet zone.

Krista Michigan, the acting chief librarian says that there are group study rooms for students who need to be in touch, and encouraged students to take advantage of these facilities.

So far, the policy has been effective. The few students who spoke to the studies stand to be more considerate. However, and they are also pleased with the improvement they've in going to studies and cooperating with the effective administration of this new policy.

According to an upper junior who wishes to remain anonymous, "There's a better flow of students. There used to be a lot of noise on the floors. The problem, he said, is that the circulation area is a part of the floor and the activities take place. He urged students to cooperate in the reduction of noise and to be more considerate to the students who are in the library.

But for some students, Apple Computer offers a more rewarding way to make ends meet.

The chief librarian says that there are group study rooms for students who need to be in touch, and encouraged students to take advantage of these facilities.

Tales Of New York

LET’S MAKE A DEAL

E., who is a social worker on 34th Street, belonged to a birthday club at Macy’s and would often receive birthday cards and gifts from it, including one last Saturday. E. was born on September 21, 1999, and had just celebrated his 21st birthday. He had been a member of the birthday club for two years, and received a pair of earrings and a wallet as his birthday gift. E. went to Macy’s to pick up his gifts and noticed that his wallet had been replaced by a new one. He was surprised to see that the new wallet was identical to the one that had been lost a year ago.

E. was on his way to a movie theater when he realized that he had left his wallet at Macy’s. He quickly returned to the store and informed a manager. The manager explained that Macy’s had a policy of replacing lost wallets with new ones. E. was grateful for the replacement wallet and decided to thank the birthday club for their generosity.

STIP OIL OR GAS TREATMENT?

S. was working one day last week at an oil and gas treatment center when a customer walked into the store and asked about a product called STIP Oil or Gas Treatment. The customer did not seem to be familiar with the product and asked several questions about it. S. explained that the product was used to clean oil and gas pipelines and to remove scale and corrosion. The customer seemed interested in the product and asked for more information. S. was able to answer all of the customer’s questions and the customer left with a satisfied expression.

MISTAKEN IDENTITY

M. was walking one night in a city street when she saw a man who looked familiar. She approached him and asked if he was the person she thought he was. The man denied it, and M. continued on her way. Later that night, M. realized that she had made a mistake and that the man was not the person she had seen. She felt embarrassed and regretful for her actions.

FLARES

E. was on his way to a meeting when he saw a flare on the side of the road. He pulled over and approached the driver, who appeared to be in distress. E. asked if he was okay and if he needed any assistance. The driver said yes, and E. called for a tow truck to be sent to his location. The driver thanked E. for his help and continued on his way.

LIMED TRADE

W. was waiting in line at a local store when he saw a man who looked like him. W. approached the man and asked if he was the person he thought he was. The man denied it, and W. continued on his way. Later that night, W. realized that he had made a mistake and that the man was not the person he had seen. He felt embarrassed and regretful for his actions.

COPIING WITH STRESS AT BARUCH

By ALISON FANNY

Breathing correctly is the first step to relaxing.

Baruch offers a stress management seminar on Wednesday, October 27th, from 12:00 PM to 1:00 PM in Room 1011 of the Washington Square Library. The seminar will focus on techniques for reducing stress, including deep breathing and visualization. Participants will also learn about the connection between stress and physical health.

Just Weird

Bretus, Ant Philosopher

By Christopher A. Ward & Glen J. Spangler

Translate
By the year 2000, the majority of the students attending public schools will be black, Asian and Latino.

It's the fall of the year, and the leaves are changing and the schools are back in session. But there's something different about this year. The students are getting the stress lecture. Dr. Albrizht has been giving this lecture every year for the past 10 years, and this year he's decided to give it a new twist. He's using red sticky dots (stimulus - 'stress') to make the lecture more engaging and memorable.

Dr. Albrizht gave red sticky dots to the students. He asked them to put them all over their foreheads so that they could feel themselves to be "marked" in this stress lecture. The students were quite enthusiastic about the idea, and some of them even fell asleep during the lecture. Others were trying to move and shake their heads as a sign of the body's response to stress.

Dr. Albrizht explained that stress is a common experience and that everyone has to deal with it at some point. He told the students that stress is not always negative and that it can be used as a tool to improve performance. He also emphasized the importance of managing stress and finding ways to relax.

The students were given the opportunity to practice stress management techniques, such as deep breathing and progressive muscle relaxation. They were also encouraged to take breaks and to engage in activities they enjoy. Dr. Albrizht reminded them that stress is a normal part of life, and that it's important to handle it in a healthy way.

The lecture ended with a question and answer session, where the students were able to ask Dr. Albrizht any questions they had about stress. The lecture was found to be very interesting and informative, and the students were grateful for the knowledge they had gained.

The next lecture will be given on November 15th.
Ghetto Music: The Jive/RCA Records

RATING: III

It is starkly real, yet poetically fluid. There are no history lessons often not provided by the unwavering foundation provided by our anemic school system. It is as steeped in tradition and innovation as jazz. Thus, it is so refreshing to hear Marsalis' light and passionate touch. "Don't go steppin' with the past," and "Don't go playin' Elvis." His sound is as good as his songs. "The Final Cut." "Marsalis' sound is as good as his songs. "The Final Cut."

The best sign of the record's plastic content is the hit song, the 1990 hit, "Housed From Ed's Deal." The opinion here is that the record is certainly polished and professional. Although the 1990 hit did well for the record label and its artists, the record's light and passionate touch is often not appreciated. There is the political/educational sector (Dana Dane and LL Cool J), the entertainment sector (Heavy D, M.O.P., and The Pope of Greenwich Village, Tupac Shakur), the storveller sector (Dana Dane and LL Cool J), and the documentary sector (Dana Dane and LL Cool J). The Osaka detective and the police, their brutality, to Japanese police in Japan. You see where the story comes from. Johnny is a New Orleans native who has come together with Michael Douglas, and in fact the song sounds as if he was pushed. He has a history with the entertainment world. He feels betrayed by the system and is disillusioned. It is certainly a kind of immorality that has come to light, allowing Marsalis to do as he pleases. The Osaka detective and the police, their brutality, to Japanese police in Japan. You see where the story comes from. Johnny is a New Orleans native who has come together with Michael Douglas, and in fact the song sounds as if he was pushed. He has a history with the system and is disillusioned. Carmen Recycled

In Act II, we see Carmen at the bullring with Don Jose, her former lover. Carmen tries to seduce Don Jose, but heounces off her advances. In her rage, Carmen snatches the matador's sword and stabs Don Jose to death. She is arrested and condemned to death. The last act takes place in the prison where Carmen is awaiting her execution. She is visited by Don José, who is now a bullfighter. Carmen tells him that she still loves him, but he has chosen to fight instead of going to war. Carmen sings a beautiful aria, "Lamento," expressing her love for Don José. At the end of the aria, Carmen's name is revealed to be Carmen dell'uzio. Carmen's name is a color. She is given a suit of clothes to wear and taken to the bullring. Carmen fights against the bull and successfully kills it. Carmen

gain support. And coach Elizabeth Bar-
nett knows that. She knows that. She
knows it. She knows it.

What followed was a resurgence of
home court, which ended in the sixth
inning of the World Series.

It’s time to say thanks for the memories.

The memories are almost endless.

"Keith plays like a champ and that’s why he EVER gets a chance.”

Keith Hernandez

Mike Liut has non was brilliant last season but is still won’t help.
Steve Duschene, Tom and Brian Hayward is one of the better cheslav Fetisov and Sergei Starikov, goalie. Who’s left? Mark LaForest and
defense. But watch out for Brian
Barlow who cost him $7 million. The Leafs have to do something. They’ve got
murphy is there leader. Ville Siren.

Ramage, acquired in the summer. will play with the Islanders. Back end is the defense. But watch out for Brian
Barlow who cost them $7 million. The Leafs have to do something. They’ve got
murphy is their leader. Ville Siren.

Coach Eng Optimistic
After Tennis Team’s
Up and Down Beginning

By STEVEN SCHEER

The National Hockey League’s 72nd season began on Oct. 5, with 16 out of 21 teams vying for playoff spots. One of the biggest changes to the NHL is the presence of Soviet hockey players. The New Jersey Devils, Calgary Flames and Vancouver Canucks have two each, while the Buffalo Sabres, Quebec Nordiques and Minnesota North Stars have one each. These players have caused major debates as to whether they should be allowed to play in the NHL. Will the Soviets help their respective teams or will they be unable to take the field?

Below is a team by team preview:

Clarence Campbell Conference Norris Division

St. Louis Blues

Offense: Very good. Dennis Savard, Steve Larson and Dick Graham are the top gunners.

Defense: Weak! Dave Manson is the top among the younger players.

Goaltending: Shaky. Alain Chevrier had a dream playoff. Was it a fluke?

Outlook: Detroit will battle St. Louis all season for first place, but an inferior defense will settle the Wings in second.

Chicago Blackhawk

Offense: Good. Dennis Savard, Steve Larson and Dick Graham are the top gunners.

Defense: Weak! Dave Manson is the team’s best, but spend too much time in the penalty box.

Goaltending: Shaky! Alain Chevrier has a dream playoff. Was it a fluke?

Outlook: Detroit will battle St. Louis all season for first place, but an inferior defense will settle the Wings in second.

By STEVEN SCHEER

“We all can’t be at every game.” Catherine Assimacopoulos perfectly describes why the Lady Statesmen are 3-3 after a flawless season a year ago.

Three wins and three losses isn’t bad, but could be worse. Baruch dropped to 1-2 when they forfeited to Manhattan College. The reason, humm; let’s think, lack of players. It gets worse! Baruch fell to 1-3. This time they had players; they just didn’t win. The loss came at the hands of John Jay College, 6-3. Assimacopoulos wasn’t present so Orapin Loesvidhya placed at number one; she won incidentally, and Karyn Cohen played at number two, she won too. Their other victory came in the #1-2 doubles—Loesvidhya and Cohen. Coach Eng said, “They tried their best, but there is a lack of varsity experience on some players.” Get used to that sentiment.

Next up, Long Island University. Only five singles and two doubles matches were played; Baruch won two singles matches and two doubles matches to take the match 4-1. Number two Cohen won, as did number three Anna Daniels. Number one Asimacopoulos lost in straight sets. Number four Elizabeth Leitman and number five Linda Cho were also defeated. However, the doubles teams of Cohen/Cho and Assimacopoulos/Daniels were victorious. Eng was pleased with the way his team played, “It was our best match of the year.” Eng hopes to echo that sentiment for more this season.

In their next game City College forfeited, so Baruch’s record is even at 3-3. But, Baruch has to play seven games in the next 10 days. Eng said, “It’ll be a good test to see how well we do under pressure ... it’s more grueling than I expected, but we’ll do well.” Eng also believes that the Stateswomen are better than 3-3. “We should have only lost one game to Manhattan College. One or two more players would have made a difference in the losses ... I’m still optimistic about the season. The squad is almost as competitive as last year’s even though they’re less experienced. We have the talent and potential in the freshmen, and assuming that all of our players show up in the City University of New York and Hudson Valley tournaments, we should take first or second in the championships.”

If there’s one thing this team is, it’s optimistic. And when the players show up, they’ll win. We have seen what happens when there’s a shortage of players.

There is still time for experienced players to join the team. So, if you have some free time and are a good tennis player, see Bill Eng in Room 707 in 17 Lexington Ave. The team can really use the help.
